Session II: What are the future technologies to optimise RES integration and facilitate congestion management in energy networks?

Scope of Presentations

Issues:

- *Technical*
- *Potential*
- *Market*

Storage

- Batteries

- Odd-Even Bustnes
- Lars Stephan

- Thermal

- Thomas Badenshop

PV self-consumption

- Bernd Engel
- Luc de Marliave

Smart Steering

- ICT

- Martin Rapos

- Demand Response

- Marko Svetina

- Intelligent Planning

- Robert Schroeder

Innovation

- Bianca Barth
- Joris Lemmens
