Consultation

Tha county councill of värmland
Is o good exampel and have reduced its energi use and are now the county council in Sweden that use the less amount per squarmeter in hole Sweden.
We have also reduced our greenhouse emmissions in some areas with 57% from 2007 to 2011 and has now set upp goals to reduce to year 2016 futhermore with 25 % .

http://www.liv.se/sidkat/17532/LiV%20milj%c3%b6_eng.pdf

This link will show and inform you and we have more in swedish ,
This pamflet was also spread during the Rio+20 event in UN conferencein Rio 2012.

Best regards
Eva Hallström

County Councillor
County Council of Värmland
Berga 50
