

Upgrade of Transparency Platform

23rd Madrid Forum

Panagiotis Panousos
Business Area Manager System Operation

Madrid – 17 April 2013

Upgrade of Transparency Platform

Reasons for the Upgrade

- > Transparency Guidelines (Reg. (EC) 715, Annex 1)
 - Amended by Congestion Management Procedures
 - Data in a downloadable format, allowing for quantitative analysis
 - Union-wide central platform, established by ENTSOG: Transparency Platform
 - Implementation date: 1 October 2013
- > Current Transparency Platform
 - Established in 2008
 - Based on voluntary participation of TSOs
 - Common agreement on the data to be uploaded
- > Feedback from stakeholder
 - Improvement of usability

Goal is to provide a consistent set of information and more userfriendliness

Upgrade of Transparency Platform

Improvements

- > Favourite points and routes
 - User can add more frequently used routes or interconnection points
 - Marked points/routes can be used more comfortable as the information is available by just a few clicks
 - Data is accessible without registration on the website in general
 -but the feature is available only for registered users as user administration is technically necessary.

Upgrade of Transparency Platform

Improvements

- > Data Wizard - extended data selection and download
 - Intuitive and comprehensive tool for data selection
 - Quickly accessible
 - Integrated filter possibilities
 - Options for specific data and time windows are foreseen
 - Selected data can be easily exported in a Excel file

Upgrade of Transparency Platform

Data Wizard

The screenshot displays the Entso-g Transparency Platform interface. The main header includes the 'entso-g TRANSPARENCY PLATFORM' logo and a 'Register' button. A navigation bar contains links: Home, Select Point, Select Route, Favourites, Available Operators, Commercial Information, Operational Procedures, and Login. The 'SELECT POINT' section is active, showing a search bar with 'BELGIUM' and several icons. A blue arrow points to the 'Export as Excel' button, with a text label 'Click opens 'Export Wizard''. The 'Export Wizard - Select points for export' dialog box is open, displaying a table of points for export. The table has columns: Point, TSO, Interconnected TSO, and Country / Border. The points listed are: 's Gravenvoeren/Dilsen, Blaregnies Segeo, Blaregnies Troll, Bras/Athus(Soteg), Eynatten 1 (Wingas Transport), Eynatten 2, and Local Market Belgium. Below the table, there is a 'Next Step >>' button. The background shows a map of Belgium and a list of available flows.

Next Step >>

Upgrade of Transparency Platform

Improvements

> Modified web design

- Information will be more structured and linked to maps/graphs/tables
- Quicker access to information and better overview
- Displaying important information on the home page
 - Upcoming maintenance activities
 - Information about outages
 - Platform News
- Information about Points and TSOs
 - General information
 - Links to further information
 - Diagram displaying changes of data

Upgrade of Transparency Platform

Modified web design – Home Page

The screenshot displays the home page of the Transparency Platform. The header features the 'entsog TRANSPARENCY PLATFORM' logo on the left and a 'Register' button on the right. Below the header is a navigation bar with links: Home, Select Point, Select Route, Favourites, Available Operators, Commercial Information, and Operational Procedures, followed by a 'Login' button. The main content area is divided into several sections. On the left, there is a 'WELCOME TO THE TRANSPARENCY PLATFORM' section, followed by 'REMIT messages' which lists two messages from 05.02.2013 and 01.02.2013, each with a 'More' link. Below this is the 'TSO maintenance' section, listing two maintenance events from 12.04.2013 and 23.03.2013, also with 'More' links. To the right of the maintenance section is the 'Platform news' section, listing two news items from 05.02.2013 and 01.02.2013, with 'More' links. On the right side of the page, there is a 'Contact Us' section with contact information for ENTSOG, including telephone, fax, and email addresses, and a 'Download' section with a link to the 'User Manual.pdf' (9.45 MB). At the bottom right, there is a 'Related Links' section featuring logos for 'entsog', 'gie' (Gas Infrastructure Europe), and 'gse' (AGGREGATED GAS STORAGE INVENTORY).

Upgrade of Transparency Platform

Modified web design – Point Information

The screenshot displays the 'Point Information' page for Belgium on the Entso-g Transparency Platform. The interface includes a top navigation bar with links like Home, Select Point, Select Route, Favourites, Available Operators, Commercial Information, and Operational Procedures. A 'Register' button is in the top right. Below the navigation bar, the 'SELECT POINT' section features a search bar with 'BELGIUM' entered and several icons. A blue arrow points to the 'Point Information' icon, with a tooltip that says 'Click opens 'Point information''. To the right of the search bar are links for 'Export as Excel' and 'Add to favorites'.

The main content area is divided into three columns. The left column lists various points of interest in Belgium, each with a flag icon and a 'Fluxys' logo. The middle column displays the 'FLUXYS' logo and the address 'Avenue des Arts 31, 1040 Brussels, Belgium'. Below this, it shows the 'Applied capacity model Point-to-point' and 'Gas-Day 06:00 AM - 06:00 AM'. A sidebar on the right lists various services: 'Tariff calculator', 'Tariff Information', 'Capacity Information', 'Access Conditions', and 'Contractual Documents'.

The right column features a map of Belgium with several points highlighted. Below the map, there are two main sections: 'Capacity' and 'Nominations & Flows'. The 'Capacity' section includes a line chart showing capacity over time (Jan '13 to Jan '14) and a table with columns for 'Month', 'Technical', 'Booked', and 'Available'. The 'Nominations & Flows' section includes a line chart showing nominations and flows over time (26. Nov to 10. Dec) and a table with columns for 'Gasday', 'Nominations', 'Renominations', and 'Flows'.

Month	Technical	Booked	Available
12/12	22,214,917	10,507,712	11,707,623
01/13	23,224,494	10,186,816	13,037,678

AGGREGATED GAS STORAGE INVENTORY

Standardized section at TSO websites

Background / Reasons

- > Transparency Guidelines (Reg. 715 (EC) Annex 1) were published on 10 November 2010 introducing a period for implementation of 3 months until 3 March 2011.
- > Guidelines are describing the general responsibility for TSOs to publish information in an 'user-friendly way' and make it available to the market participants without any restrictions.
- > The implementation of the guidelines after the short implementation period resulted in webpages which were considerably different for multi-national users.
- > TSO have to publish Transparency data on their individual website
 - ...also after 1 October 2013

The implementation contributes to more transparency, easier and standardized access to data!

Standardized section at TSO websites

TSOs developed a template

- > Partial standardization of the access to Transparency data
- > The template consists of 3 columns:
 - Column A states the legal requirement of Reg. 715 (EC) Annex 1
 - Column B provides the direct link to the corresponding section of the TSO individual website
 - Column C is dedicated to give further individual information about the requirements (e.g. exemptions, definitions, country/TSO specific interpretations)
- > Colors, font size as well as the text will follow the individual corporate design of the TSOs
- > It is recommended to implement the template until 1 September 2013

The implementation contributes to more transparency, easier and standardized access to data!

Standardized section at TSO websites

Proposed Template

Annex I to Regulation (EC) 715/2009	Link	Further Information
3.1.2 a) A detailed and comprehensive description of the different services and their charges	<u>Link to the information of the TSO individual website!</u>	
3.1.2 b) u. c) 1. Different transportation contracts and other significant documents	<u>Link to the information of the TSO individual website!</u>	
3.1.2 c) Network code / standard conditions	<u>Link to the information of the TSO individual website!</u>	
3.1.2 c) 2. Specification of relevant gas quality parameters	<u>Link to the information of the TSO individual website!</u>	
3.1.2 c) 3. Pressure requirements	<u>Link to the information of the TSO individual website!</u>	
3.1.2 c) 4. Procedure in the event of an interruption of interruptible capacity	<u>Link to the information of the TSO individual website!</u>
