NC Interoperability and Data Exchange

Feedback Consultation Workshop 20 Mar

- > High level of compliance with Framework Guidelines
- > Very open and constructive development process with all Stakeholders
- > Stakeholders identified benefits from this NC facilitating efficient operation of interconnected networks:
 - Harmonisation of operational matters at IPs
 - Promote OBA as default allocation rule
 - Use of common set of units
 - Managing gas quality differences at IPs
 - Short-term monitoring of gas quality
 - Provide common data exchange solutions
- > Remaining issues to be fine-tuned in further development process:
 - Scope Data Exchange (relevant counterparties) + Final solution after CBA
 - Level of detail default rules Interconnection Agreement
 - Tailor-made solution for Short term Monitoring Gas Quality
 - Interaction with Member States for Gas Quality and Odourization
- > Stakeholders' involvement in Public Consultation is key

Thank You for Your Attention
