

CBP Implementation Survey 2012

XXIII European Gas Regulatory Forum,
Madrid, 17. April 2013

Peter Meeuwis
EASEE-gas Executive Committee Chairman

Product of EASEE- gas

- ➔ Development and Promotion of Common Business Practices (CBPs) to simplify and streamline business processes.
- ➔ Aim to deal with *"user oriented purposes"*, and with the whole description of the process:

EASEE-gas Represents all segments of the gas industry

- ➔ 93 Full Members in seven gas industry segments plus 30 Associate Members.
- ➔ 6 “Active” EASEE-gas Segments:
 - ➔ Producers
 - ➔ Suppliers
 - ➔ Transporters
 - ➔ Traders & Shippers
 - ➔ Distribution Network Operators
 - ➔ LTSOSP (LNG Terminal and Storage Operators and Service Providers)
- ➔ Input into relevant EASEE-gas Working Groups by End-User Associate Member representatives.

CBP Implementation Survey 2012

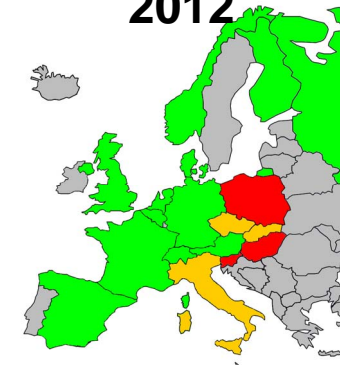

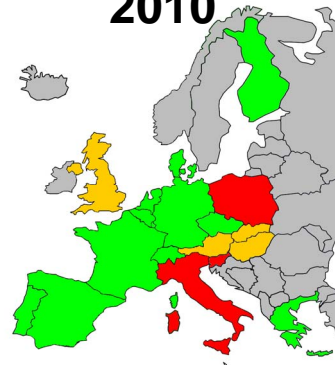

- ➔ Summer 2012 EASEE-gas conducted a survey on the status of implementation of CBPs
- ➔ 65 responses from 15 European Countries
- ➔ Feedback from all active EASEE-gas segments
- ➔ Full report available on EASEE-gas website

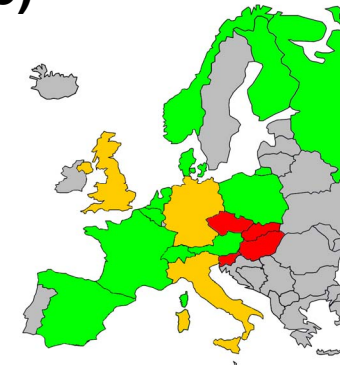

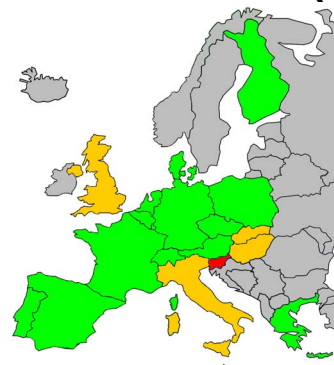

CBP Implementation Survey 2012 - Findings

- ➔ Continued progress in implementation of CBPs
- ➔ The CBPs on Harmonisation of Units, Nomination and Matching Process, Interconnection Agreements and Constraints have been widely implemented across Europe.

Energy: kWh (with a combustion reference temperature of 25°C)

**Volume: m3 (at 0°C and 1.01325 bar)
(normal m3)**

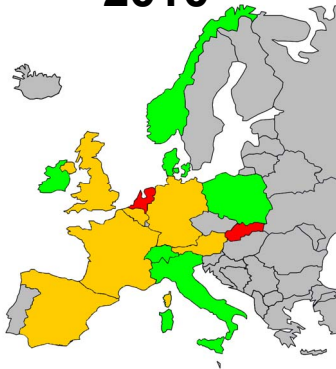

CBP Implementation Survey 2012 - Findings

- ➡ Challenges facing implementation of the CBP on Gas Quality Harmonisation being followed up on by Working Group with input to CEN discussion on gas quality standard.
- ➡ There is a mixed response on the use of Energy Identifier Codes.
- ➡ Changes are currently being made in a number of countries with further implementation expected in coming year

To encode company's ID by ENTSOe EIC-X code structure

2010

2012

EASEE-gas in 2013/14 (1/2)

Continue strong cooperation with EU associations

- ➡ Letter of Understanding with ENTSOG
- ➡ Maintain good relationship with ENTSOG and input on consultations on Network Codes
- ➡ Edig@s-messages for NC CAM together with ENTSOG & PRISMA
- ➡ EASEE-gas participation in European Pilot Project on harmonisation of Wobbe Index with Marcogaz and EC
- ➡ Engagement with CEN/TC 234 “Gas Infrastructure”

EASEE-gas in 2013/14 (2/2)

Implementation Edig@s Version V Messages

- ➡ Edig@s Version 5 Messages to come into effect mid-2013
- ➡ XML only => end of support for EDIFACT

EDIG@S Protocol

New and updating of out-of-date CBPs

- ➡ Participation in BPWG from all market segments
- ➡ New CBP - Publishing of public information

Conclusion

- ➡ Good progress in implementing EASEE-gas CBPs
- ➡ Edig@s Version 5 to come into effect in 2013
- ➡ Revision of some CBPs and launch of discussion on new CBPs to meet industry requirements
- ➡ EASEE-gas will continue to contribute to discussions at European level
