NOTIFICATION :

LNG Terminal operators launch a new transparency tool

2013-03-07

Gas LNG Europe (GLE) is proud to inform of the launch of the **Aggregated LNG Storage Inventory (ALSI)**.

It is a public platform making available aggregated operational data regarding the operation of the EU LNG terminals. ALSI includes daily information at country level covering all the LNG regasification capacity in operation in the EU.

The online publication takes place 7 days a week at 6 pm CET presenting in particular the following data for EU with their splitting per country:

- **LNG Inventory existing at the end of the previous gas day:**
Aggregated amount of LNG in the LNG tanks, expressed in thousand cubic meter of LNG;
- **Daily Send-Out of the previous gas day:** Aggregated gas flow out of the LNG facility, expressed in million cubic meter

Country	LNG data - Sunday 2013-04-07 / 14 at 6:00am CET				
	Inventory (10 ³ m ³ LNG)	Send-Out (10 ⁶ m ³ NG)	Status	DTMI (10 ³ m ³ LNG)	DTRS (10 ⁶ m ³ NG)
Belgium	197.60	1.92	●C	374.00	40.80

Published data & Specifications

The following data is published daily for every country region :

Inventory Aggregated amount of LNG in the LNG tanks, in 10³ m³ LNG;
 = LNG inventory existing at the end of the previous gas day
published on the platform with 2 digits after the decimal point

Send-Out Aggregated gas flow out of the LNG facility, in 10⁶ m³ NG
 = Send-Out of the previous gas day
published on the platform with 2 digits after the decimal point
 (m³ being expressed at 0°C and 1 013 mbar)

Status ●C = all data confirmed / ●E = estimated values used for missing or inconsistent data

DTMI = Declared Total Maximum Inventory
 Expressed in 10³ m³ LNG (this is also published daily)

DTRS = Declared Total Reference Sendout
 Expressed in 10⁶ m³ NG (this is also published daily)

LNG Data Platform Information

GLE - LNG Data Platform

GLE is pleased that its members have agreed on a voluntary basis to publish aggregated operational data regarding the operation of the EU LNG terminals on a daily basis, grouped by country areas.

This information is provided in an aggregated format to guarantee that commercially sensitivity information is not disclosed. GIE are therefore unable to further comment on any specific member, country or area.
For non-data related information, please contact the GIE Secretariat at gie@gie.eu.

Contributing LSO

Below you can find the list of LSOs contributing to the aggregated data of each Area.

Publication of Daily operational LNG Inventory by country

GLE - Gas LNG Europe

GLE (Gas LNG Europe) is one of the three columns of the European association of infrastructure operators GIE (Gas Infrastructure Europe). GLE represents LNG Terminal Operators and voices the interests of its members vis-à-vis the European Union institutions, regulatory bodies and other stakeholders.

As a separate column of GIE (the umbrella association representing also Transmission and Storage operators, i.e. GTE and GSE), GLE currently gathers **14 European LNG terminal operators from 9 countries**, representing about **90% of all the existing LNG regasification capacity in Europe**. This provides GLE with a strong voice in the European arena.

Thank you for your attention.
