## **Invitation to tender ENER/A3/2015-96 for a service contract regarding a study on Prospective for Future Production of "Non-Crude" liquid**

**Contract notice in OJEU S 086-154256 of 05/05/2015**

### **QUESTIONS & ANSWERS**

**Latest update 09.06.2015**

**Question 1:** With regard to biofuels, is any particular breakdown by biofuel type required or expected? Or would this be at the discretion of the tenderer?

**Answer:** It would be useful to provide a breakdown of the production of different type of biofuels as 1<sup>st</sup> generation biofuels, 2<sup>nd</sup> generation biofuels and algae.

**Question 2:** With regard to the regional definitions,(e.g. "Middle east", "Latin America") is there a specific list of component countries for these regions or is this at the discretion of the tenderer?

**Answer:** For regions such as "Middle East" and "Latin America" we suggest sticking to the definitions given by the International Energy Agency in its yearly World Energy Outlook.
