

## Review of progress towards the 2020 energy

### INFORMATION ABOUT

Are you responding to this questionnaire on behalf of/as:

Please enter your name or the name of your company/organisation:

Please indicate your principal country or countries of residence or activity:

How would you prefer your contribution to be published on the Commission website, if at all?

### A. Energy efficiency

1. Do you think the right approach in addressing the shortfall is:

Please specify your response b)

Please specify your response c)

### B. Energy efficiency

2. Do you think that further policy measures are needed at EU level to foster energy efficiency in buildings?

Please give details.

3. Do you think that further policy measures are needed at EU level to foster energy efficiency in industry?

Please give details.

4. Do you think that further policy measures are needed at EU level to foster energy efficiency in transport?

Please give details.

5. Do you think that further policy measures are needed at EU level to foster energy efficiency in electrical equipment?

Please give details.

6. Do you think that further policy measures are needed at EU level to foster energy efficiency in generation and distribution?

---

Please give details.

---

7. Do you think that further financial mechanisms and instruments are needed at EU level to mobilise energy efficiency investments?

---

Please give details.

---

8. Do you think that further measures are needed to build the capacity of actors in the energy efficiency sector?

---

9. What are the most promising technology solutions that can help deliver energy savings in the 2020 and 2030 time horizon? How can their development and uptake be supported at EU level?

---

10. Further comments

---

Please give details.

---

## Energy efficiency objective and a 2030 energy

THE RESPONDENTS
Company
Germany
Anonymously (I consent to publication of all information in my contribution and I declare that none of it is under copyright restrictions that prevent publication)

Energy targets and measures
b) Reinforced implementation of existing legislation, including active policy on infringements c) Proposing new legislation
- tax allowances für extra efficient working companies - a special premium for the replacement of out-of-date industrial plants and electrical equipment

Energy efficiency sectors
Yes
- yes, because of the new tendencies like SmartHome etc. the demand for electrical energy in households is increasing
Yes
see 1.c
Yes
Yes

Yes

No

No

- emission-free mobility (e-mobility, hydrogen technologies)
