

SPAIN

Date of data collection or reference period	Since 13 th May 2013, weekly prices are calculated as the arithmetic average daily price from Tuesday to Monday (inclusive)
Reporting body	Ministry of Industry, Energy and Tourism
Reporting price discounts on motor fuels	Discount equal to the average of the discounts applied and reported to the Ministry of Industry, Energy and Tourism by major operators. The applied discount only comes from loyalty cards.
Market coverage and data sources	<ul style="list-style-type: none"> • 61 oil companies with over 9.000 petrol stations (incl. 342 placed in large stores). The sample covers 100% of filling stations • Categories of retailers with market share above 10% included in the reporting: oil companies and independent operators. In Euro Super 95, the share of oil companies in volumes sold is about five times as big as the share of independents. In automotive diesel, the share of oil company operators is less than double the share of independents.
Price averages	The daily price is obtained from the average of the prices of all petrol stations on a random time of day
Biofuels	<ul style="list-style-type: none"> • Article 41 of R.D.Ley 4/2013 .- Minimum percentage of biofuel component of motor fuels: 4,1% for 2013 and beyond (4,1% for biodiesel and 3,9% for gasoline). • Zero excise duty on biodiesel until 31/12/2012, full excise duty starting from 1/1/2013.
Other indirect taxes reported	State taxes (hydrocarbon special tax and retailer tax) and regional taxes reported under the category 'other indirect taxes'
