Energy market design initiative and need for gas market redesign?

29th meeting of the Madrid Forum
Intervention by IOGP
Madrid, October 2016
Kees Bouwens, ExxonMobil, Chair EMSC

Energy market design initiative and need for gas market redesign?

- IOGP believes that the existing regulatory framework for the gas market is suitable for delivering competitive gas wholesale markets
 - Positive experience in the gas market could serve as input for the electricity market redesign
- IOGP welcomes further discussions on the role of ACER
- Priorities for the gas market:
 - Effective implementation of the agreed rules with focus on removing entry barriers and barriers to cross-border trade
 - Removal of subsidised prices
- Liquid gas markets in NWE show limited scope for gas market redesign
