

## SLOVAKIA

Date of data collection or reference period	Consumer prices in force on Friday of the previous week
Reporting body	Administration of state material reserves of the Slovak republic
Reporting price discounts on motor fuels	Partially. Reporting companies that account for approximately 40 % of the total volumes sold of Euro super 95 and diesel indicate 'prices without discounts' and 'average selling prices' (after discounts are applied). The remaining reporting companies do not report discounts.
Market coverage and data sources	Data provided by 13 reporting companies - including oil companies, large stores and independent operators - which together account for more than 90 % of the total volumes sold of the selected petroleum products.
Price averages	Weighted average with weekly volumes. Weekly reports obtained from reporting companies contain both the average selling price, but also the volumes of particular fuels sold by this company at the given price in the respective week.
Biofuels	<p>Minimum percentage of biofuel component</p> <ul style="list-style-type: none"> <li>• For gasoline 6.5 % from 2018 to 2019, 9 % from 2020 to 2030</li> <li>• For diesel 6.9 % from 2018 to 2030.</li> </ul> <p>The size of the excise duties is the same for fuels with any share of biocomponent in it, as long as the share of biocomponent is at least at the level required by law. Fuels with biocomponent share lower than the requirements are affected by slightly higher excise duty.</p>
Other indirect taxes reported	Emergency oil stocks fee
