Additional requirements Article 24(1), Annex XIV, Part 1(b) Energy Efficiency Directive

Usclass on major legislative and room-legislative in casurum is opinimented in the provious year which contribute traveral microal market and energy efficiency targets for 2000.

		Type of measure	Legal basis	Type of update	Please, insert explanations or provide an extra/bddstonal document:
39-1 Wallania		mise à disposition d'information	Decree of 21 May 2015 amending the Decree of 19 December 2002 on	improvement of DSD services	introduction of the possibility to used index statements for information, simulation of consumption or adjustment of advance payments
		provision of information	the organisation of the regional gas market (Mik 16/06/15)		
39-2 Wallania		obligation d'information information requirement	Walloon Government Discree of 24 September 2015 amending the Walloon Government Discree of 20 March 2005 on public service obligations in the electricity market (MB 13/10/15)	Change of information relating to electricity billing	Contact details of consumer associations and energy agencies or unimbir organizations/including e-mail addresses) were made tabligatory on supplient websites, supply contracts and involves.
39-3 Wallania		obligation d'information information requirement	Wallion Government Decree of 24 September 2015 amending the Wallion Government Decree of 26 March 2006 on public service obligations in the gas market (MB 13/10/15)	Change of information relating to gus billing	Contact details of consumer associations and energy agencies or circlair organisations (procluding e-mail addressed) were made obligatory on supplient websites, supply contracts and involves
39-4 Wallania		mecures de soutien support measures	Walloon Government Decree of 30 April 2015 introducing a subsidy scheme for individuals promoting energy saving and housing recovation	Subsidies for energy-saving investments	setting up of a subsidy scheme for investment by private parties benefiting energy efficiency in particular
39-5 Walibnia		modalités des mesures de soutien detailed rules on support measures	Ministerial Decree of 30 April 2015 implementing the Walloon Government Decree of 35 March 2015 instrubucing a subsidy scheme for individuals promoting energy saving and housing renousation	Subsidies for energy-strong investments	modalité d'application de relacations de primes aux investigaments destructions d'étemps destable rules fort le application et the sabelly acteurs for energy-caleig (investments
39-6 Brussels		Regulations and legislative measures	General transposition: Energy Efficiency Directive EED	Adoption of a new measure, conclusion of agreement, publication of legislation, commencement, lenforcement of a measure/programme	Ordonnance du 18 SCCIMÁRS 2015 modifiant l'ordonnance du 2 mai 2013 portant le Code bauxilisis de l'Aur, du Climat et de la Malbrias de l'Exemple (Mill 12/01/2016); Order of 18 December 2015 amending the Order of 2 May 2013 establishing the Brussek Code-on air, climate and energy management (Mill 12/01/2016);
29-7 Struttels		Plant & strategies	General transposition: Energy Efficiency Directive EED	Amendments, implementation or design changes and extension of an on-going measure	Air climate energy glan adopted at second mading
29-4 Strattels		Regulations and legislative measures	Minimum energy performance requirements	Adoption of a new measure, conclusion of agreement, publication of legislation, commencement, feedoncement of a measure/programme	Decree of the Brussel: Capital Region Government of 19 June 2015 amending the Decree of the Brussels Capital Region government of 21 December 2000 Tayling down the requirements for the energy performance and indoor climate of buildings (MB 21/00 (2015))
29-9 Brussels		Regulations and legislative measures	General transposition: Energy Efficiency Directive EED	Adoption of a new measure, conclusion of agreement, publication of legislation, commencement/enforcement of a measure/programme	Decree of the Brussels Capital Region Government of 17 December 2015 promoting green electricity (MR 08,01(2015), Decree of the Brussels Capital Region Government of 18 December 2015 amending the Decree of the Brussels Capital Region Government of 29 November 2012 until agreen certificate quantum for years 2013 consults (MB 13,01(2015))
39-10 Flanders		Regulations and legislative measures	Minimum energy performance requirements	Amendments, implementation or design changes and extension of an on-going measure	The Filmshi Government Decree of \$1 Governher 2015 introduced as E-level requirement for all non-residential buildings from 1 January 2017. The framework for external heat supply in EPA was optimised and various adjustments were made to the BPA collaborium method from 11 introduced 2015 introduced as EVA and
39-11 Flanders		Regulations and legislative measures	Energy performance certificates	Amendments, implementation or design changes and extension of an on-going measure	After an evaluation of the energy performance certificine (ECQ in 2014, an amending decree and an amending government decree were prepared. The amending decree of 27 Recentre 2015 contains analysis adjustments to administrate force for this comply with the obligations relating to the FPU. The boost of the dark amending government decree use contingencing the quality of the FPU typergring education and training.
29-12 Flanders		Funds, financial measures & fiscal incentives	Removation readmap Art. 4 650	Amendments, implementation or design changes and extension of an on-going measure	Under the institutional agreement on the dath reform of the State, the Ferein's Government made the energy item (greened yearted by the now legislated Federal And for the reduction of ownall energy counting of from 1 issues 2015. These energy issues finance energy-valving investments in homes. The loan is now pushable in almost all close and tower, and the for divergy investments for which the loan may be used to acted that the native of the state of the contract of the contract of the state of the contract of the contract of the contract of the state of the contract
29-13 Flanders		Regulations and legislative measures	Renovation readmap Art. 4 EED	Adoption of a new measure, conclusion of agreement, publication of legislation, commencement/reforcement of a measure/programme	Since 2015 the absence of noof insulation inhomes has been penalised under the Fremish Housing Code.
29-14 Flanders		Regulations and legislative measures	Energy audits in large enterprises Art. 9 EED	Adoption of a new measure, conclusion of agreement, publication of legislation, commencement/enforcement of a measure/programme	On 14 May 2014 the Remails Government introduced in VLASMA Plemails Decree on Environmental Permits (the obligation for companies which are not Safet to have an energy audit by 1 Generally 2014 and every 4 years thereafter in accordance with Androide all the foreign (Efficiency Obsterless, On 12 July 2014 for even by publicative was based on which whole dealth the interestinging to provide the required audit of the
29-15 Flanders		Regulations and legislative measures	Efficiency in heating and cooling (augmentation, district heating and cooling) Art. 14 SED	Adoption of a new measure, conclusion of agreement, publication of legislation, commencement, ferforcement of a measure/programme	On 28 August 2015 the Ministerial Decree bying down the implementing conditions for the includable cost-benefit analysis of GHP or use of residual heat which, in accordance with Article 14 of and Part 2 of Annex 2 to the Directive, is compulsory for new energy production installations exceeding 20 MW or the resourcion of wisting installations.
39-16-Flanders	Major legislative measures in the previous year	Regulations and legislative measures	Efficiency in heating and cooling (cogeneration, district heating and cooling) Art. 14 GED	Drafts, announcements, commitments, planned measures, discussions for a new measure	in the course of 2015 the priorities for a regulatory framework for heating and cooling networks were determined in consultation with stakeholders. They were set out in adraft amending decree at the end of 2015.
40-1 Brussels		Information, knowledge & advice	Alternative measure Art. 7 SSD	Amendments, implementation or design changes and extension of an on-going measure	The Malson de l'énergie (Energy house) was reformed. The new single ASSE has been operational since 1 November 2015.
40-2 Strussels		Funds, financial measures & fiscal incentives	Alternative measure Art. 7 SSD	Continuation of existing measures/to significant updates	The subsidy scheme was adapted for the year 2015. The energy subsidy scheme encourages the carrying out of recovation work in the grivate and public sectors. The energy subsidies are regional aid available to any rotural or legal person who has a right inners or [text missing]
40-3 Brussels		Market surveillance	Efficiency in heating and cooling (augmentation, district heating and cooling) Art. 14 SED	Other	Study of the potential for efficiency in teating and cooling in the linuxels Capital Region as required by Article 56(1) of the Clinative.
40-4 Strussels		Competitions, pilot & demonstration projects	Abertative measure Art. 7 550	Adoption of a new measure, conclusion of agreement, publication of legislation, commencement/enforcement of a measure/programme	implementation of a pilot project on allocating the minibursement of energy investments in housing using the double-ceiling system with pairs of owners and their tenants in the Reusels Capital Region: launch
405 Brussels		Plant & stategies	Other	Adoption of a new measure, conclusion of agreement, publication of legislation, commencement/enforcement of a measure/programme	Creation of a tool for energy and emission accounting allowing low-carbon committee to be drawn up for the linuxels Capital Region by 2016; burnch
40-6 Flanders		Voluntary agreements	Alternative measure Art. 7 EED	Amendments, implementation or design changes and extension of an on-going measure	The new energy policy agreements with the industrial sector entered into force on 1 January 2015. Under those agreements companies commit to carry out productive investments, namine the potential of cost effective measures, conduct a CoP Healthilly study and implement an energy management system. The Federal Government has reduced natural gas actions to the European minimum for coverant undertakings from 1 January 2016 onwards.
40-7 Flanders		Information, knowledge & advice	Efficiency in heating and cooling (sugmeration, district heating and cooling) Art. 14 GED	Other	In accordance with Article 14 of the Energy Efficiency Cloretive a heat map was developed showing, by means of a GB application, heat offer and demand on a fine grid covering the whole of Flanders. On that basis, an overall cost-benefit assessment for the efficient use of heat was carried out, identifying areas across Flanders where it is more or less economically viable to set up a heat network and for build a (micro) GMP installation.
40-8 Flanders		Other	Minimum energy performance requirements	Monitoring information, update on progress or impact assessment results	In Crasher 2015, the fourth assument report on 6521 regulations are distributed to stakeholders. This involved updating the examination of cost-optimal energy performance levels with verification of \$650 levels (bijus-energistenazus), monly one-energy, the convergence path another information about or measurable energy for residential buildings, effices and schools at the continuing cust optimizes in addition, cost-optimized energy performance levels, another confirmation of continuing cost optimized energy performance levels and confirmation of the confirmati
40-9 Flanders		Plant & strategies	Renovation readmap Art. 6 EED	Drafts, announcements, commitments, planned measures, discussions for a new measure	Under Article 6 of the Georgy Efficiency Effective the Removation Pract was bunched in December 2014. This Pract should lead to the creation of a partner organisation in which funds, information, activities and competences are shared to meet the joint objective of a significant increase in the neocustion rate of our building stock and the improvement of energy performance to neach the nearly zero-energy level.
40-10 Flanders		Funds, financial measures & fiscal incentives	Alternative measure Art. 7 SSD	Drafts, announcements, commitments, planned measures, discussions for a new measure	A proposal for reforming subsidies for system operators was prepared in the course of \$265, it will apply from \$25.7 cowards and cover, inter-alia, the introduction of a phasing-out path for a number of subsidies for recidential buildings, a subsidy for total immension and support for collective renovation projects.
40-11 Flanders		Plans & stategies	Renovation roadmap Art. 4 CED	Drafts, announcements, commitments, planned measures, discussions for a new measure	At the end of 2005 an energy powerly programme was submitted to the established as the extendibles which includes a strong amonitment to the attachmoi induction of energy consumption in borner of witherable families. It covers calcorate proposals on developing code energy states was also based and for fair the best way to reschiften east widerable families and governmental production. In 2005 a review of energy states was also based and for fair behalf way to reschiften east widerable families and governmental production.

Additional requirements Article 24(1), Annex XIV, Part 1(e) Energy Efficiency Directive

Energy cavings achieved through the national energy efficiency obligation schemes referred to in Article 7(1) or the alternative measures adopted in application of Article 7(8):

	Policy measure (notified)	Savings achieved (lose) in 2014 (n-2)	Total expected savings [stor] by 2020 (voluntary)	
43-Wallonia	8000	Not applicable	Not applicable	<del>-</del>
44-Wallonia	Sectoral agreements 2	\$7,79	842,79	9.800 GWhoum, according to notification revision 9 dated 21/05/2014
45 - Wallonia	New voluntary agreements	0,00	252,84	2.940 GWhours, according to notification revision 8 dated 21/05/2004
46 - Wallonia	Ordinary LRGBA (utilization rationnelle de l'écergie dans les bitiments, rational use of energy in buildings)	1,8	77,23	898 GWhoum, according to notification revision inclated 21,05,2056
47 - Wallonia	Exceptional URERA	10,66	17,09	198 GWhoum, according to notification revision Ridated 21/05/2014
48 - Wallonia	Ecopack	3,61	67,62	198 GWhoum, according to notification revision Ridated 21/05/2016
49 - Wallonia	Rehabilitation subsidies	1,03	235,98	2.744 GWhoum, according to notification revision il dated 21/05/2014
S0 - Wallonia	Citizens energy subsidies	21,92	712,76	8.28 GWhoum, according to notification revision 8 dated 21/05/2014
\$1 - Wallonia	industry energy subsidies	0,17	12,04	140 GWhoum, according to notification revision Ridated 21,/05/2014
S2 - Wallonia	PIVERT	3,70		Pivert is a renovation measure in public housing buildings, that was not notified, but fulfils art? requirements
S3 - Wallonia	Early actions	105,18	712,07	Early action before 2013 largely exceeded the 25% max attenuation level, and were capped at 1.222 GWh/year, as notified in previous 2015 annual EED report.
S4 - Wallonia	Total savings	211,92	2.664,16	Seen if new voluntary agreements are not yet contributing, results for 2014 overpase estimations from notification rev is dated 21(6)(2014: 1386/60M achieved visible on percent (lead, and yet action(Thapet # 25.675/60M-con excluding early action, according to notification revision is dated 21(6)(2014)
SS - Brussels	6606	Not applicable	Not applicable	
SG - Brussels	PSB - Periodic inspection of boilers	23,25 GWh (2,0 ktoe)	27,54	436,57 GWh according to EC notification 5 December 2013
57 - Brussels	Energy audits	24,20 GWh (2,08kboel	20,29	262,47 GWh according to EC notification 5 December 2013
Sik - Brussels	Energy houses	0,66 GWh (0,057/bbs)	15,87	184,56 GWh according to EC notification 5 December 2013
59 - Brussels	Subsidies (early actions)	196 GWh (16,85ktor)	157,83	1835,62 GWh according to 6C notification 5 December 2013
60 - Brussels	Subsidies 2014	69 Glish (5,93 lead)	294,95	3436,25 GWh according to EC notification 5 December 2013
61 - Brussels	Mandatory range	not yet implemented	34,66	360,10 GWh according to EC notification 5 December 2013
62 - Brussels	Obligations for suppliers of heating oil	not yet implemented	11,95	392,51 GWh according to EC notification 5 December 2013
63 - Brussels	Passing-on of occupancy costs	not yet implemented	32,63	279,46 GWh according to EC notification 5 December 2013
64 - Brussels	BATEX	2014 data not yet available	4,64	\$4,02 GWh according to EC notification 5 December 2013
65 - Brussels	Total savings	313 GWh (26,91ktoe)	638,56	
66 - Funders	New energy policy agreements with undertakings.	190 GWh (86,78 koor)	2.867,15	23.345 GWhoum, according to FC notification 5 December 2013
67 - Flanders	RUE public service obligations imposed on network managers	S44 GWh (S4,34 ksse)	1.584,01	18:422 GWhours, according to FC notification 5 December 2013
68 - Flanders	Total savings	734 GWh (63,12 lose)	4.451,16	\$1.767 Gwhcum, according to EC notification 5 December 2013
69-BELGIUM	Total savings	201,65	8.043,88	Beigium target is 90.377 Gwbcum, making use of 25% flexibility, according to EC notification 5 December 2013
