INFORMATION ON TENDERING

1.1. Participation

Participation in this tender procedure is open on equal terms to all natural and legal persons coming within the scope of the Treaties and to all natural and legal persons in a third country which has a special agreement with the Union in the field of public procurement on the conditions laid down in that agreement. Where the Multilateral Agreement on Government Procurement¹ concluded within the WTO applies, the participation to the call for tenders is also open to nationals of the countries that have ratified this Agreement, on the conditions it lays down.

1.2. Contractual conditions

The tenderer should bear in mind the provisions of the draft contract which specifies the rights and obligations of the contractor, particularly those on payments, performance of the contract, confidentiality, and checks and audits.

1.3. Joint tenders

A joint tender is a situation where a tender is submitted by a group of economic operators (consortium). Joint tenders may include subcontractors in addition to the joint tenderers.

In case of joint tender, all economic operators in a joint tender assume joint and several liability towards the Contracting Authority for the performance of the contract as a whole.

These economic operators shall designate one of them to act as leader with full authority to bind the grouping or the consortium and each of its members. It shall be responsible for the receipt and processing of payments for members of the grouping, for managing the service administration and for coordination. The composition and constitution of the grouping or consortium, and the allocation of the scope of tasks amongst the members, shall not be altered without the prior written consent of the Commission.

The tenderers should indicate in their offer whether the partnership takes the form of:

a) a new or existing legal entity which will sign the contract with the Commission in case of award

or

b) a group of partners not constituting a new legal entity, who via a power of attorney, signed by an authorised representative of each partner (except the lead partner), designate one of the partners as lead partner, and mandate him as lead contractor to sign the contract with the Commission in case of award.

¹ See http://www.wto.org/english/tratop_E/gproc_e/gp_gpa_e.htm

1.4. Subcontracting

Subcontracting is permitted in the tender but the contractor will retain full liability towards the Contracting Authority for performance of the contract as a whole.

Tenderers must give an indication of the part of the services and proportion of the contract that they intend to subcontract.

Tenderers are required to identify subcontractors whose share of the contract is above 20%.

During contract execution, the change of any subcontractor identified in the tender will be subject to prior written approval of the Contracting Authority.

1.5. Content of the tender

The tenders must be presented as follows:

Part A: Identification of the tenderer (see section 1.6)

Part B: Evidence for exclusion criteria (see section 2.2)

Part C: Evidence for selection criteria (see section 2.3)

Part D: Technical offer (see section 2.5)

Part E: Financial offer (see section 2.6)

Part F: Power of attorney (for consortia only)

1.6. Identification of the tenderer: legal capacity and status

- The tenderer's identification form in **Annex 1** shall be filled in and signed by:
 - The tenderer (including any member of a consortium or grouping)
 - subcontractor(s) whose share of the work represent more than 20% of the contract.
- In order to prove their legal capacity and their status, all tenderers (including any member of a consortium of grouping) must provide a signed **Legal Entity Form with its supporting evidence**. The form is available on:
http://ec.europa.eu/budget/contracts_grants/info_contracts/legal_entities/legal_entities_en.cfm

Tenderers that are already registered in the Contracting Authority's accounting system (i.e. they have already been direct contractors) must provide the form but are not obliged to provide the supporting evidence.

- If it has not been included with the Legal Entity Form, tenderers must provide the following information:
 - For legal persons, a legible copy of the notice of appointment of the **persons authorised to represent the tenderer** in dealings with third parties and in legal proceedings, or a copy of the publication of such appointment if the legislation

which applies to the legal entity concerned requires such publication. Any delegation of this authorisation to another representative not indicated in the official appointment must be evidenced.

- For natural persons, where applicable, a proof of registration on a professional or trade register or any other official document showing the registration number.

- The tenderer (only the leader in case of joint tender) must provide a **Financial Identification Form and supporting** documents. The form is available on: http://ec.europa.eu/budget/contracts_grants/info_contracts/index_en.cfm

EVALUATION AND AWARD

2.1. Evaluation steps

The evaluation is based on the information provided in the submitted tender. It takes place in three steps:

- (1) Verification of non-exclusion of tenderers on the basis of the exclusion criteria
- (2) Selection of tenderers on the basis of selection criteria
- (3) Evaluation of tenders on the basis of the award criteria (technical and financial evaluation)

Only tenders meeting the requirements of one step will pass on to the next step.

2.2.Exclusion criteria

All tenderers shall provide a declaration on their honour (see Annex 2), duly signed and dated by an authorised representative, stating that they are not in one of the situations of exclusion listed in the Annex 2.

The declaration on honour is also required for identified subcontractors whose intended share of the contract is above 20%.

The successful tenderer shall provide the documents mentioned as supporting evidence in Annex 2 before signature of the contract and within a deadline given by the contracting authority. This requirement applies to all members of the consortium in case of joint tender. In case of doubt on this declaration on the honour, the contracting authority may also request the evidence for subcontractors whose intended share of the contract is above 20%.

2.3.Selection criteria

Tenderers must prove their economic, financial, technical and professional capacity to carry out the work subject to this call for tenders.

The tenderer may rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing an undertaking on the part of those entities to place those resources at its disposal.

Economic and financial capacity criteria and evidence

In order to prove their economic and financial capacity, the tenderer (in case of a joint tender the combined capacity of all tenderers and identified subcontractors) must comply with the following criteria:

- The annual turnover of the last two financial years for which the accounts have been closed must have been above € 200,000

The following evidence should be provided:

- Copy of the profit & loss account for the last two years for which accounts have been closed,
- Failing that, appropriate statements from banks,

If, for some exceptional reason which the Contracting Authority considers justified, a tenderer is unable to provide one or other of the above documents, he or she may prove his or her economic and financial capacity by any other document which the Contracting Authority considers appropriate. In any case, the Contracting Authority must at least be notified of the exceptional reason and its justification in the tender. The Commission reserves the right to request any other document enabling it to verify the tenderer's economic and financial capacity.

Technical and professional capacity criteria and evidence

a. Criteria relating to tenderers

Tenderers (in case of a joint tender the combined capacity of all tenderers and identified subcontractors) must comply with the following criteria:

- The tenderer must prove experience in the field of environmental, economic and energy policy assessments with at least 5 projects delivered in this field in the last three years with a minimum value for each project of € 200.000.
- The tenderer must prove capacity to draft reports in English and must prove that he will have access to first-hand information on biogas regulation in all EU Member States.
- The tenderer must prove experience in data collection, literature reviews, statistical analyses, economic models, quantitative and qualitative evaluations, policy assessments, and drafting reports and recommendations.

b. Criteria relating to the team delivering the service:

The team delivering the service should include, as a minimum, the following profiles:

Project Manager: At least 5 years experience in project management, including overseeing project delivery, quality control of delivered service, client orientation and conflict resolution experience in project of a similar size (at least € 150,000) and coverage (EU), with experience in management of team of at least 5 people.

Experts in biogas technologies and policies, in life cycle assessments, economists: Relevant higher education degree and / or 5 years' professional experience in the respective field.

c. Evidence:

The following evidence should be provided to fulfil the above criteria:

- List of relevant services provided in the past three years, with sums, dates and recipients, public or private. The most important services shall be accompanied by certificates of satisfactory execution, specifying that they have been carried out in a professional manner and have been fully completed;
- The educational and professional qualifications of the persons who will provide the service for this tender (CVs) including the management staff. Each CV provided should indicate the intended function in the delivery of the service.

2.4.Award criteria

The tender will be awarded according to the best-value-for -money procedure. The quality of the tender will be evaluated based on the following criteria. The maximum total quality score is 100 points.

Quality of the proposed methodology (80 points - – minimum threshold 60%)

Sub-criterion 1.1 (25 points):

Data collection: Access to first-hand information about biogas policies in Member States, indicative list of literature, access to stakeholder expertise. Workshop preparation, organisation and follow-up.

Sub-criterion 1.2 (30 points)

Methodology for building the scenarios and consolidating/synthesising the projections based thereon. Soundness of methodological approach to the evaluation of the scenarios in quantitative and qualitative terms.

Sub-criterion 1.3 (25 points)

Awareness and understanding of regulatory issues for biogas. Sound understanding of regulatory needs and objectives at Member States' and EU levels. Analytical capacity to identify barriers and to present possible solutions in a balanced manner and in clear language.

Organisation of the work (10 points – minimum threshold 60%)

This criterion will assess how the roles and responsibilities of the proposed team and of the economic operators (in case of joint tenders, including subcontractors if applicable) are distributed for each task. It also assesses the global allocation of time and resources to the project and to each task or deliverable, and whether this allocation is adequate for the work. The tender should provide details on the allocation of time and resources and the rationale behind the choice of this allocation.

Quality control measures (10 points – minimum threshold 60%)

This criterion will assess the quality control system applied to the service foreseen in this tender specification concerning the quality of the deliverables, the language quality check, and continuity of the service in case of absence of the member of the team. The quality system should be detailed in the tender and specific to the tasks at hand; a generic quality system will result in a low score.

Tenders must score minimum 60% for each criterion and minimum 70% in total. Tenders that do not reach the minimum quality thresholds will be rejected and will not be ranked.

After evaluation of the quality of the tender, the tenders are ranked using the formula below to determine the tender offering best value for money. An equal weight is given to quality and price. The contract will be awarded to the tender, which offers the best ratio quality/price X 10.000.

2.5. Technical offer

The technical offer must cover all aspects and tasks required in the technical specifications and provide all the information needed to apply the award criteria. Offers deviating from the requirements or not covering all requirements may be excluded on the basis of non-conformity with the tender specifications and not evaluated.

2.6. Financial offer

The price for the tender must be quoted in euro. Tenderers from countries outside the euro zone have to quote their prices in euro. The price quoted may not be revised in line with exchange rate movements. It is for the tenderer to assume the risks or the benefits deriving from any variation.

Prices must be quoted free of all duties, taxes and other charges, including VAT, as the European Union is exempt from such charges under Articles 3 and 4 of the Protocol on the privileges and immunities of the European Union. The amount of VAT may be shown separately.

The quoted price must be a fixed amount which includes all charges (including travel and subsistence). Travel and subsistence expenses are not refundable separately.

Maximum price 150,000 Euro.

TECHNICAL SPECIFICATIONS

3.1 General background

Bioenergy including biogas² is today the main source of renewable energy and will still continue to play a key role beyond 2020 in achieving the EU decarbonisation and energy security objectives. However, the resource base for biogas is rather different across the EU and MS apply different policies and regulations that need to be analysed in order to inform post-2020 climate and energy policy.

3.2 General and specific objectives

The objective of this study is to provide the Commission with an up to date overview of projections of the EU biogas (including biomethane) potentials for 2020 and 2030 in the electricity, heating and transport sectors and its possible contribution to EU objectives in the field of climate change mitigation, energy security and resource efficiency. Identify existing technical, economic and administrative barriers to further development of biogas and discuss options for policy action EU level needed to overcome the identified barriers.

3.3 Tasks

Task 1: Taking stock, information collection

Collect information and data from literature and through expert interviews on the current and the projected production and use of biogas and biomethane (2020, 2030) per Member State and for the EU as a whole. Information should provide details on feedstock availability and actual use by type of feedstock, the conversion technologies (anaerobic digestion, gaseification), use per type (biogas for power only, for heat only and for CHP, biomethane/bio-SNG for power only, for heat only, for CHP, for transport, bio-LNG mainly for transport tbc).

Support schemes of Member States should be described and compared as to which feedstock and which use are incentivised and include information of intended changes and plans by Member States for the future. Classify Member States in a few coarse categories regarding their approach to biogas.

This task also includes a detailed collection of key issues both at MS and EU levels regarding the development of biogas as identified from the literature, by experts and stakeholders: barriers to and main drivers for the successful development of biogas. A detailed assessment of the Renewable Energy Directive and its related legal texts should be carried out in terms of its impact on the development of biogas in the EU, in particular in view of creating a common biogas market.

Task 2: Build scenarios for EU biogas use

² “Biogas” is meant to include all types of biogas in this text: biogas, biomethane, bio-CNG, bio-SNG, bio-LNG

Define 3 key scenarios for the development of biogas production and use in the EU. Some elements to be taken into account for the scenarios formulation are: Fragmented versus European approach, ambitious versus low-key sustainability criteria, strong versus weak focus on resource efficiency, circular economy and on a balanced allocation of biomass across energy versus non-energy sectors, etc. The definition of these scenarios should build upon the insight obtained from task 1 as regards key policy issues and types of approaches taken by different MS. Number and definition of the scenarios needs to be agreed with the Commission based on the intermediate deliverable/progress report, see below.

Quantify, using and complementing the input obtained from task 1, how much biogas would be produced and used in the EU, and per Member State in the different scenarios. This task is meant to build mainly on existing and ongoing quantification studies, and the contractor should only fill apparent gaps with limited own quantification efforts.

Task 3: Evaluate the scenarios and make policy recommendations

Evaluate in quantitative terms wherever possible the results from the scenarios from task 2 with respect to: feedstock use and impact on competing sectors, energy security, resource efficiency incl. energy efficiency and land use, GHG reduction, air quality, costs for fuel consumers and taxpayers. The intention is to focus on the formulation of a consistent assessment framework and on the methodology to be applied, which should be based, where possible, on the existing EU rules.

Assess what the development of biogas contributes to the overall RES deployment, and at which relative costs, also in terms of energy storage and grid stability. Develop on synergies with waste policies.

Based on the results obtained in task 1 and 2, make policy recommendations for identified key areas. This will include detailed assessment of administrative and non-economic barriers and how to overcome them. A special focus will also be put on how existing barriers at the EU and at Member States' levels could best be addressed at the respective levels.

3.4 Reports and documents to produce – Timetable to observe

Execution of the tasks begins after the date on which the Contract enters into force.

In principle, the deadlines set out below cannot be extended. The Contractor is deemed solely responsible for delays occasioned by subcontractors or other third parties (except for rare cases of force majeure). Adequate resources and appropriate organisation of the work including management of potential delays should be put in place in order to observe the timetable below.

The contractor will deliver an intermediate draft deliverable on task 1 at the latest 6 months after the date of signature of the contract. This deliverable will be accompanied by a progress report for task 2 which shall include suggestions for the formulation and the number of the scenarios to be used for finalising the further work for task 2. The Commission will have 30 days to provide the Contractor with its comments on the intermediate draft deliverable on task 1 and on the progress report. In parallel, the contractor will hold a stakeholder workshop to validate the suggested formulation of the scenarios. Taking into account both, the Commission comments and the results from this consultation, work on task 2 will be carried out.

The draft final study report on all tasks shall be submitted to the Commission at the latest 9 months after the contract was signed. The Commission will have 30 days to provide the Contractor with its comments. The contractor will hold a second stakeholder workshop on the draft recommendations.

Final output and deliverable: The contractor will deliver a final report and a Powerpoint presentation summarising the study.

The contractor will submit the final study report to the Commission at the latest 12 months after the signature of the contract.

Details on deliverables: The final report will be delivered in English, 10 paper copies and as word-document file.

A **kick-off meeting** will take place in Brussels, at the latest 30 days following the signature of the contract, in order to settle all the details of the study, report, etc... to be undertaken.

A progress meeting will be held in Brussels following the submission of the intermediate draft deliverable on task 1 and the progress report for task 2.

Following the submission of the draft final study report, a meeting will be organised in Brussels to discuss the Commission's observation. The exact date will be agreed upon with the Contractor.

3.5 Duration of the tasks

The duration of the tasks shall not exceed 12 months. This period is calculated in calendar days.

CONTENT, STRUCTURE AND GRAPHIC REQUIREMENTS OF THE FINAL DELIVERABLES

All studies produced for the European Commission and Executive Agencies shall conform to the corporate visual identity of the European Commission by applying the graphic rules set out in the European Commission's Visual Identity Manual, including its logo³.

The Commission is committed to making online information as accessible as possible to the largest possible number of users including those with visual, auditory, cognitive or physical disabilities, and those not having the latest technologies. The Commission supports the [Web Content Accessibility Guidelines 2.0](#) of the W3C.

For full details on Commission policy on accessibility for information providers, see: http://ec.europa.eu/ipg/standards/accessibility/index_en.htm

Pdf versions of studies destined for online publication should respect W3C guidelines for accessible pdf documents. See: <http://www.w3.org/WAI/>

³ The Visual Identity Manual of the European Commission is available upon request. Requests should be made to the following e-mail address: comm-visual-identity@ec.europa.eu

4.1. Content

4.1.1. Final study report

The final study report shall include:

- an abstract of no more than 200 words and an executive summary of maximum 6 pages in English [and French];
- the following standard disclaimer:

“The information and views set out in this [report/study/article/publication...] are those of the author(s) and do not necessarily reflect the official opinion of the Commission. The Commission does not guarantee the accuracy of the data included in this study. Neither the Commission nor any person acting on the Commission’s behalf may be held responsible for the use which may be made of the information contained therein.”

- specific identifiers which shall be incorporated on the cover page provided by the Contracting Authority.

4.1.2. Publishable executive summary

The publishable executive summary shall be provided in both in English and French and shall include:

- the following standard disclaimer:

“The information and views set out in this [report/study/article/publication...] are those of the author(s) and do not necessarily reflect the official opinion of the Commission. The Commission does not guarantee the accuracy of the data included in this study. Neither the Commission nor any person acting on the Commission’s behalf may be held responsible for the use which may be made of the information contained therein.”

- specific identifiers which shall be incorporated on the cover page provided by the Contracting Authority.

4.2. Structure

The structure for the presentation of the study final report should follow the structure of the tasks outlined in the tender specifications.

4.3. Graphic requirements

For graphic requirements please refer to the template provided in the Annex 4. The cover page shall be filled in by the contractor in accordance with the instructions provided in the template. For further details you may also contact comm-visual-identity@ec.europa.eu.

1. ANNEXES

1. Tenderer 's Identification Form
2. Declaration related to the exclusion criteria and absence of conflict of interest
3. Power of Attorney (mandate in case of joint tender)
4. Standard Word template for studies
5. Draft Contract

ANNEX 1

IDENTIFICATION OF THE TENDERER

(Each service provider, including any member of a consortium or grouping and subcontractor(s) whose share of the work is more than 20% of the contract must complete and sign this identification form)

Call for tenders ENER/C1/2015-438

Identity	
Name of the tenderer	
Legal status of the tenderer	
Date of registration	
Country of registration	
Registration number	
VAT number	
Description of statutory social security cover (at the level of the Member State of origin) and non-statutory cover (supplementary professional indemnity insurance) ⁴	
Address	
Address of registered office of tenderer	
Where appropriate, administrative address of tenderer for the purposes of this invitation to tender	
Contact Person	
Surname: First name: Title (e.g. Dr, Mr, Ms) :	

⁴ For natural persons

Position (e.g. manager): Telephone number: Fax number: E-mail address:	
Legal Representatives	
Names and function of legal representatives and of other representatives of the tenderer who are authorised to sign contracts with third parties	
Declaration by an authorised representative of the organisation⁵ I, the undersigned, certify that the information given in this tender is correct and that the tender is valid.	
Surname: First name:	Signature:

⁵ This person must be included in the list of legal representatives; otherwise the signature on the tender will be invalidated.

ANNEX 2

Declaration of honour on exclusion criteria and absence of conflict of interest

(Complete or delete the parts in grey italics in parentheses)

[Choose options for parts in grey between square brackets]

The undersigned (*insert name of the signatory of this form*):

in [his][her] own name (*for a natural person*)

or

representing the following legal person: (*only if the economic operator is a legal person*)

full official name:

official legal form:

full official address:

VAT registration number:

➤ declares that [the above-mentioned legal person][he][she] is not in one of the following situations:

- a) is bankrupt or being wound up, is having its affairs administered by the courts, has entered into an arrangement with creditors, has suspended business activities, is the subject of proceedings concerning those matters, or is in any analogous situation arising from a similar procedure provided for in national legislation or regulations;
- b) has been convicted of an offence concerning professional conduct by a judgment of a competent authority of a Member State which has the force of *res judicata*;
- c) has been guilty of grave professional misconduct proven by any means which the contracting authorities can justify including by decisions of the European Investment Bank and international organisations;
- d) is not in compliance with all its obligations relating to the payment of social security contributions and the payment of taxes in accordance with the legal provisions of the country in which it is established, with those of the country of the contracting authority and those of the country where the contract is to be performed;
- e) has been the subject of a judgement which has the force of *res judicata* for fraud, corruption, involvement in a criminal organisation, money laundering or any other illegal activity, where such activity is detrimental to the Union's financial interests;
- f) is a subject of an administrative penalty for being guilty of misrepresentation in supplying the information required by the contracting authority as a condition of participation in a procurement procedure or failing to supply this information, or having been declared to be in serious breach of its obligations under contracts covered by the Union's budget.

➤ (*Only for legal persons other than Member States and local authorities, otherwise delete*) declares that the natural persons with power of representation, decision-

making or control⁶ over the above-mentioned legal entity are not in the situations referred to in b) and e) above;

- declares that [the above-mentioned legal person][he][she]:
- g) has no conflict of interest in connection with the contract; a conflict of interest could arise in particular as a result of economic interests, political or national affinity, family, emotional life or any other shared interest;
 - h) will inform the contracting authority, without delay, of any situation considered a conflict of interest or which could give rise to a conflict of interest;
 - i) has not granted and will not grant, has not sought and will not seek, has not attempted and will not attempt to obtain, and has not accepted and will not accept any advantage, financial or in kind, to or from any party whatsoever, where such advantage constitutes an illegal practice or involves corruption, either directly or indirectly, inasmuch as it is an incentive or reward relating to award of the contract;
 - j) provided accurate, sincere and complete information to the contracting authority within the context of this procurement procedure ;
- acknowledges that [the above-mentioned legal person][he][she] may be subject to administrative and financial penalties⁷ if any of the declarations or information provided prove to be false.

In case of award of contract, the following evidence shall be provided upon request and within the time limit set by the contracting authority:

For situations described in (a), (b) and (e), production of a recent extract from the judicial record is required or, failing that, a recent equivalent document issued by a judicial or administrative authority in the country of origin or provenance showing that those requirements are satisfied. Where the tenderer is a legal person and the national legislation of the country in which the tenderer is established does not allow the provision of such documents for legal persons, the documents should be provided for natural persons, such as the company directors or any person with powers of representation, decision making or control in relation to the tenderer.

For the situation described in point (d) above, recent certificates or letters issued by the competent authorities of the State concerned are required. These documents must provide evidence covering all taxes and social security contributions for which the tenderer is liable, including for example, VAT, income tax (natural persons only), company tax (legal persons only) and social security contributions.

For any of the situations (a), (b), (d) or (e), where any document described in two paragraphs above is not issued in the country concerned, it may be replaced by a sworn or, failing that, a solemn statement made by the interested party before a judicial or administrative authority, a notary or a qualified professional body in his country of origin or provenance.

If the tenderer is a legal person, information on the natural persons with power of representation, decision making or control over the legal person shall be provided only upon request by the contracting authority.

Full name	Date	Signature

⁶ This covers the company directors, members of the management or supervisory bodies, and cases where one natural person holds a majority of shares.

⁷ As provided for in Article 109 of the Financial Regulation (EU, Euratom) 966/2012 and Article 145 of the Rules of Application of the Financial Regulation

**ANNEX 3
POWER OF ATTORNEY**

mandating one of the partners in a joint tender as lead partner and lead contractor⁸

The undersigned:

– Signatory (Name, Function, Company, Registered address, VAT Number)

having the legal capacity required to act on behalf of his/her company,

HEREBY AGREES TO THE FOLLOWING:

- 1) To submit a tender as a partner in the group of partners constituted by Company 1, Company 2, Company N, and led by Company X, in accordance with the conditions specified in the tender specifications and the terms specified in the tender to which this power of attorney is attached.
- 2) If the European Commission awards the Contract to the group of partners constituted by Company 1, Company 2, Company N, and led by Company X on the basis of the joint tender to which this power of attorney is attached, all the partners shall be co-signatories of the Contract in accordance with the following conditions:
 - (a) All partners shall be jointly and severally liable towards the European Commission for the performance of the Contract.
 - (b) All partners shall comply with the terms and conditions of the Contract and ensure the proper delivery of their respective share of the services and/or supplies subject to the Contract.
- 1) Payments by the European Commission related to the services and/or supplies subject to the Contract shall be made through the lead partner's bank account: [Provide details on bank, address, account number].
- 2) The partners grant to the lead partner all the necessary powers to act on their behalf in the submission of the tender and conclusion of the Contract, including:
 - (a) The lead partner shall submit the tender on behalf of the group of partners.
 - (b) The lead partner shall sign any contractual documents — including the Contract, and Amendments thereto — and issue any invoices related to the Services on behalf of the group of partners.
 - (c) The lead partner shall act as a single contact point with the European Commission in the delivery of the services and/or supplies subject to the Contract. It shall co-ordinate the delivery of the services and/or supplies by the group of partners to the European Commission, and shall see to a proper administration of the Contract.

Any modification to the present power of attorney shall be subject to the European Commission's express approval. This power of attorney shall expire when all the contractual obligations of the group of partners towards the European Commission for the delivery of the services and/or supplies subject to the Contract have ceased to exist. The parties cannot terminate it before that date without the Commission's consent.

Signed in on [dd/mm/yyyy]

Place and date:

Name (in capital letters), function, company and signature:

⁸ To be filled in and signed by each partner in a joint tender except the lead partner.

HOW TO USE THIS DOCUMENT TEMPLATE

Cover page

Add the title of the document which should be center aligned. Add any other relevant information if necessary which should be left aligned on the left vertical axis of the EC logo.

The font colour of the title should be **White**.

Page set up

- Top margin: 3.5
- Bottom margin: 2.5
- Left margin: 3
- Right margin: 2.5

Headings and subheadings

The following styles should be used for headings and subheadings.

- Heading 1
 Font type: Verdana

Font Size: 14
Colour: R:38, G:54, B:115

- Heading 2
Font type: Verdana
Font Size: 11
Colour: R:38, G:54, B:115
- Heading 3
Font type: Verdana
Font Size: 10
Colour: R:38, G:54, B:115

Do not use capital letters for the headings/subheadings, the format should always be "sentence case", except for abbreviations.

Body text

Font style: Verdana
Font size: 10
Font colour: Gray 80%

Header

The header should include the EU flag and the reference text:

- European Commission
- The title of the document
- Font type: Verdana Italic
- Font size: 8

Footer

Add the relevant name of the month and year in the footer which should appear to the left below the line.

- Font type: Verdana Italic
- Font size: 8.
- The page numbers will appear automatically.

Bulleted list

The bullet should be square and the colour should be Black. For reference please see list under "[Headings and subheadings](#)". To apply the style of the list, select "List Bullet 2" from the "Style" drop down menu.

Hyperlinks

By default the hyperlinks will appear in blue (colour coder: R:26, G:63, B:124), no underline.

Table of Contents

This template is complete with Styles for a Table of Contents. From the **Insert menu**, choose **Reference**, then **Index and Tables**. Click on the tab "**Table of Contents**". In the "Format" box, select "From template".
