

# CONSULTATION ON STREAMLINING OF PLANNING AND REPORTING OBLIGATIONS AS PART OF THE ENERGY UNION GOVERNANCE

Fields marked with \* are mandatory.

## What this consultation is about

The Commission's State of the Energy Union presented on 18 November 2015 states that "[t]he Energy Union needs a reliable and transparent governance process, anchored in legislation, to make sure that energy-related actions at European, regional, national and local level all contribute to the Energy Union's objectives." This corresponds to similar calls from the European Council and the European Parliament[\*].

The State of the Energy Union also underlines that "[i]ntegrated national energy and climate plans, addressing all five dimensions of the Energy Union, are necessary tools to have more strategic planning", and that "[i]n order to track progress, a transparent monitoring system needs to be put in place based on key indicators as well as on Member States' biannual reports concerning progress made on their national plans". This builds further on the Commission's Communication on the Energy Union from February 2015, which explained that a purpose of the governance process for the Energy Union is to "streamline current planning and reporting requirements, avoiding unnecessary administrative burden".

In this context, the present consultation seeks stakeholders' views on current planning and reporting arrangements in the energy field, and on how these could be improved to better serve the objectives of the Energy Union and to reduce administrative burden. An overview of existing planning and reporting obligations in the energy sector concerning the Member States as well as the Commission is available here: [COM planning and reporting obligations \(energy field\)](#); [MS planning and reporting obligations \(energy field\)](#); [COM planning and reporting obligations \(climate field\)](#); [MS planning and reporting obligations \(climate field\)](#).

The responses to the public consultation will feed into the Commission's evaluation and fitness check of existing planning and reporting obligations (a REFIT initiative in the Commission's 2015 Work Programme) as well as into the Impact Assessment for the Commission's proposal(s) for streamlining of planning and reporting in the energy field foreseen for late 2016, as announced by the State of the Energy Union.

The consultation as well as the initiatives it will contribute to should be understood in the broader context of the Energy Union strategy; the Commission's guidance to Member States on national plans

from 18 November 2015, and the Council's Conclusions on Energy Union governance from 26 November 2015 – which underscore the need for holistic national plans that address all five dimensions of the Energy Union in an integrated way.

This public consultation also relates to the preparation of other initiatives to implement the Energy Union foreseen for 2016 (notably initiatives on energy efficiency, renewable energy and electricity market design). For other completed and ongoing public consultation processes and their outcomes, see: <http://ec.europa.eu/energy/en/consultations>.

[\*] REF to EUCO October 2014 and March 2015; EP 15 Dec 2015.

The questionnaire is structured as follows:

- A. Respondent's profile
- B. Evaluation of existing planning obligations
- C. Evaluation of existing reporting obligations
- D. Options for streamlining planning and reporting obligations
- E. Options for the governance of the Energy Union

Questions marked with an asterisk (\*) are mandatory.

#### **\* A. Respondent's profile**

Please provide information to help us build your profile as a respondent. In accordance with Regulation 45/2001[\*], all personal data collected through this survey will be kept securely and will ultimately be destroyed.

[\*] Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data, OJ L 008, 12.1.2001, p.1.

##### **A.1 Are you answering as an individual or on behalf of an organisation/institution?**

- I am answering as an individual.
- I am answering on behalf of an organisation.

##### **A.2 Please specify your main field of activity.**

**Please tick the appropriate field. Only one choice is possible:**

- Individual citizen
- National public authority (central or local government)
- Private company/ Industry association
- International organisation
- Workers' organisation/trade union
- Research organisation/university
- NGO
- Other interest group organisation/association

Other - please specify:

**\* A.3. Please indicate your country of residence/establishment:**

If answering as an individual, please provide your country of residence.

If answering on behalf of an organisation/institution, please provide the country of establishment of the organisation/institution.

Please tick the appropriate field, only one choice is possible.

- Austria
- Belgium
- Bulgaria
- Croatia
- Cyprus
- Czech Republic
- Denmark
- Estonia
- Finland
- France
- Germany
- Greece
- Hungary
- Iceland
- Ireland
- Italy
- Latvia
- Liechtenstein
- Lithuania
- Luxembourg
- Malta
- Netherlands
- Norway
- Poland
- Portugal
- Romania
- Slovenia
- Spain
- Sweden
- Slovakia
- Switzerland
- United Kingdom

Other/international - please specify:

**\* A.4 Name and contact details**

- I prefer to provide a general comment only. Please provide your general comment in the box below. (up to 2000 characters)
- I will provide my name and contact details in the boxes below.

[Questionnaire ends here]

Name:

Organisation (*where applicable*):

Address:

ID from the Interest Representative Register[\*] (*where applicable*):

Telephone:

Email:

[\*] In the interest of transparency, organisations (including, for example, NGOs, trade associations and commercial enterprises) are invited to provide the public with relevant information about themselves by registering in the Interest Representative Register and subscribing to its Code of

Conduct. If you are a registered organisation, please indicate the name and address of your organisation and your Register ID number on the first page of your contribution. Your contribution will then be considered as representing the views of your organisation.

**\* A.5 Received contributions may be published on the Commission's website, with the identity of the contributor. Which publication arrangement would you agree upon?**

- My contribution may be published under the name indicated.
- My contribution may be published but shall be kept anonymous.
- I do not agree that my contribution will be published.

**B. Evaluation of planning obligations**

***Existing obligations***

The EU energy and climate legislation includes a number of different planning obligations for the Member States. Planning obligations play a crucial role for EU energy policies in e.g. the fields of renewable energy, energy efficiency, security of gas supply, energy performance of buildings, waste management and decarbonisation. The main features of existing planning obligations can be summarised as follows:

- Current planning obligations usually include indicators and projections as an analytical basis as well as policies and measures needed to achieve the plan's objectives;
- Current plans usually cover a specific area of the energy or climate field, but do not necessarily refer to possible overlaps and interactions with other plans in these fields; in some cases templates are provided, which can be either voluntary or compulsory;
- Plans often have to be submitted once, but in many cases a periodical revision or the submission of new plans is required. The process for the adoption of the plans is often left to the discretion of the Member States;
- The role of the Commission varies. In some cases, it monitors plans, in other cases, it analyses plans and is requested to report to the European Parliament and the Council. In some instances the Commission could ask for modifications. Furthermore, it can use its enforcement powers, if the planning obligations are not fulfilled or not all the necessary details/content were provided.

**1) How would you rate the following aspects of such planning obligations at EU level?**

|  | Very important                   | Important                        | Less important        | Not important         | No opinion            |
|--|----------------------------------|----------------------------------|-----------------------|-----------------------|-----------------------|
| Coherence of national plans among all EU Member States                                   | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Effective and efficient implementation of EU legislation in the energy and climate field | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Achievement of the EU energy and climate objectives                                      | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
|  |                                  |                                  |                       |                       |                       |

|  |                       |                                  |                                  |                       |                       |
|--|-----------------------|----------------------------------|----------------------------------|-----------------------|-----------------------|
| Increased certainty for investors across all EU Member States stimulating economic growth as well as research, innovation and competitiveness of the EU  | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> |
| Better implementation of international commitments by the EU as a whole and by Member States (e.g. concerning the reduction of greenhouse gas emissions) | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> |
| The Commission is better enabled to provide substantial and useful advice  | <input type="radio"/> | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> |

**If other, please explain: (up to 1000 characters)**

Viele Informations- und Berichtspflichten, die auf EU-Vorgaben zurückgehen, sind für die Unternehmen der Energiewirtschaft mit Umsetzungsaufwand verbunden und führen zu administrativen Belastungen, die insbesondere auch für die kleinen und mittleren Unternehmen (KMU) mit ihren begrenzten Personalkapazitäten nur schwer zu erfüllen sind. Der BDEW begrüßt deshalb die aktuelle Konsultation der Kommission, die einen wertvollen Beitrag dazu leisten kann, dass zukünftig Informations- und Berichtspflichten besser gebündelt und Überschneidungen vermieden werden können. Außerdem ist es wichtig, dass die Vertraulichkeit kommerzieller Daten und Geschäftsgeheimnisses gewährleistet ist.

**2) Are you aware of overlaps or inconsistencies among the existing planning obligations in the same or different areas of the energy and climate acquis? Please provide examples. (up to 1000 characters)**

Die Erstellung der Nationalen Aktionspläne für Erneuerbare Energien, die Strategien für eine kohlenstoffarme Entwicklung und nationale Energieeffizienz-Aktionspläne müssen zur Vermeidung von Lücken, Überschneidungen und Inkonsistenzen gebündelt werden. Die inhaltlichen Vorgaben und Rahmensetzungen und insbesondere die nationalen Spielräume der Mitgliedsstaaten bei der Umsetzung europäischer Regelungen müssen davon unberührt bleiben.

**3) a) Which of the current planning obligations could in your opinion be streamlined[\*] into one integrated plan and why? (up to 1500 characters)**

Die Erstellung der Strategien für eine kohlenstoffarme Entwicklung gemäß der Verordnung für die Überwachung von Treibhausgasemissionen, der

Abhilfemaßnahmenplan gemäß der Lastenteilungsentscheidung („Effort Sharing“) und die Informationen zu derzeitigen und zukünftigen LULUCF-Aktivitäten gemäß der LULUCF-Entscheidung sollten in einen integrierten Plan gebündelt werden, um Konsistenz, Kohärenz und Effektivität der Planungspflichten sicherzustellen.

**b) Are there any planning obligations that should be kept separate from the integrated plan? (up to 1500 characters)**

Der Nationale Plan unter der ETS-Richtlinie für Investitionen in die Nachrüstung und Modernisierung der Infrastrukturen und in saubere Technologien erfüllt spezifische Anforderungen der ETS-Richtlinie. Er sollte separat von dem integrierten Plan / der Strategie für eine kohlenstoffarme Entwicklung (s. Antwort zu Frage 3a) gehalten werden, da der Nationale Plan nur von einigen Mitgliedstaaten unter sehr speziellen Bedingungen gefordert ist. Nichtsdestotrotz, wenn ein solcher Plan erforderlich ist, sollten die Informationen dieses nationalen Plans bei der Erarbeitung der Strategie für eine kohlenstoffarme Entwicklung von dem betroffenen Mitgliedstaat vollständig berücksichtigt werden.

**c) Are there any planning obligations that could be repealed? (up to 1500 characters)**

[\*] By streamlining we understand the possibility to integrate planning and reporting obligations resulting from (different) sectorial legislation by reducing possible duplications or gaps in the reporting and planning obligations, thereby ensuring transparency, coherence, relevance, efficiency and effectiveness of the reporting and planning. Furthermore planning and reporting cycles should be harmonised to the extent possible.

**4) Which elements/articles of the current planning obligations in the field of renewable energy do you consider indispensable and why? If relevant please, refer to specific [Articles of the Renewable Energy Directive](#). (up to 1000 characters)**

**5) Which elements/articles of the current planning obligations in the field of energy efficiency do you consider indispensable and why? Please, if relevant, refer to specific [Articles of the Energy Efficiency Directive](#) and [Energy Performance of Buildings Directive](#). (up to 1000 characters)**

In der EED fordert Artikel 4 alle drei Jahre einen Bericht zur Gebäudeeffizienz-Strategie als Teil des NEEAP (Art. 24 (2)). Die EPBD fordert in Artikel 9 nationale Pläne zur Erhöhung der Zahl der Niedrigstenergiegebäude. Beides passt inhaltlich gut zusammen bzw. überschneidet sich auch. Die Verlagerung der Gebäudeeffizienz-Strategie in die EPBD bzw. Erweiterung der Anforderungen des Art. 9 EPBD könnte hier eine Vereinfachung bringen. Weitere einzelne Berichtspflichten aus der EPBD könnten

in diesem einen "Gebäudeeffizienzbericht" zusammengefasst werden (Art. 5 (2), 13(4)). Im Gegenzug könnte der Bericht aus 10 (2) aus der EPBD in den NEEAP integriert werden.

**6) Which elements/articles of the current planning in the field of low-carbon development strategies do you consider indispensable and why? (up to 1000 characters)**

**7) Which elements/articles of the current planning obligations in the field of infrastructure development (like for example TEN-E) do you consider indispensable and why? (up to 1000 characters)**

**8) Which elements/articles of other existing planning obligations in the field of energy, including on security of supply, infrastructure and market integration do you consider indispensable and why? (up to 1000 characters)**

**9) Can you provide qualitative or quantitative evidence on the administrative burden on Member States and other stakeholders resulting from planning obligations at EU level? (up to 1000 characters; a possibility to upload further evidence is provided at the end of the questionnaire)**

Solche Informationen stehen in unserer Organisation nicht zur Verfügung. Qualitative oder quantitative Nachweise über die administrative Belastung der Mitgliedstaaten sollten von den betroffenen Behörden der Mitgliedstaaten zur Verfügung gestellt werden.

***Future obligations***

**10) What level of importance do you attach to future planning obligations for Member States in the following key elements of the Energy Union Strategy?**

|                        | Very important        | Important                        | Less important        | Not important         | No opinion            |
|------------------------|-----------------------|----------------------------------|-----------------------|-----------------------|-----------------------|
| Security of supply     | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Internal Energy Market | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Energy infrastructure  | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
|                        |                       |                                  |                       |                       |                       |

|   |                       |                                  |                       |                       |                       |
|---|-----------------------|----------------------------------|-----------------------|-----------------------|-----------------------|
| Energy efficiency                         | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Renewable energy                          | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| GHG emissions reduction (decarbonisation) | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Research, Innovation and competitiveness  | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

### C. Evaluation of reporting obligations

#### *Existing obligations*

In the energy and climate field there are a number reporting obligations for the Member States and for the Commission. These have been developed to cover specific elements of the Energy Union, with less focus on integrated planning and reporting. Both the Member States and the Commission have to abide to reporting obligations. Usually, the information collected through Member States' reports is used by the Commission to assess trends in the climate and energy sectors, assess progress towards certain policy objectives, to monitor implementation and to propose policy and legislative reforms. Importantly, there are several different types of reporting obligations. The following distinctions are useful for the purpose of evaluating them:

- Reporting obligations can be regular or irregular. The former are fulfilled periodically; the latter usually once or after a specific request.
- The content of the reporting obligations may be specified in EU legislation, but the level of detail varies from one sector to another.
- Templates used to respond to reporting obligations are sometimes compulsory. In other cases, they have a voluntary nature.
- Reporting obligations are set up according to the information needs of each area of the energy field linked to the specific requirement of the objective of the initiative. Only in some cases they are coordinated with reporting obligations in other areas.

#### 11) How would you rate the following aspects of reporting obligations in EU legislation?

|  | Very important                   | Important                        | Less important        | Not important         | No opinion            |
|--|----------------------------------|----------------------------------|-----------------------|-----------------------|-----------------------|
| Coherence of reporting formats among all EU Member States  | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Possibility to monitor the performance and trends (and put in place corrective measures if the results are lagging behind) | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
|  |                                  |                                  |                       |                       |                       |

|   |                                  |                                  |                       |                       |                       |
|---|----------------------------------|----------------------------------|-----------------------|-----------------------|-----------------------|
| Effective and efficient implementation of EU legislation in the energy and climate field  | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Assess progress to targets at Member State level and enable aggregation of data at EU level   | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Better comparability of data from different Member States enabling an informed evaluation   | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Increased certainty for investors across all EU Member States stimulating economic growth as well as research, innovation and competitiveness of the EU | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| EU as a whole and Member States themselves are better informed on the actual performance and it provides ground for further action                      | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

**If other, please explain: (up to 1000 characters)**

**12) Are you aware of overlaps or inconsistencies among the existing reporting obligations in the same or different areas of the energy acquis? Please provide examples. (up to 1000 characters)**

1. Ja, unterschiedliche Klassifizierung von Finanzinstrumenten (EMIR) und physischem Großhandel (REMIT) auf organisierten Marktplätzen, einige Börsen melden z.B. Futures (die unter EMIR fallen) und physische Forwards, die unter REMIT fallen an ACER, einige Unternehmen in Europa stufen die Forwards als Finanzinstrumente unter EMIR ein und melden diese an Trade Repositories.

2. Inkonsistenz in UTI-Erzeugung unter EMIR-Verordnung.  
Siehe außerdem Frage 13.

**13) a) Which of the current reporting obligations could in your opinion be streamlined[\*] into one integrated report and why? (up to 1500 characters)**

Der Kyoto und EU 2020 Fortschrittsbericht gemäß Artikel 21 der Verordnung für die Überwachung von Treibhausgasemissionen und der Bericht zu Übertragungen gemäß Artikel 26 der Lastenteilungsentscheidung könnten zusammengefasst werden. Die beabsichtigte Nutzung von Flexibilitätsmechanismen gemäß der Lastenteilungsentscheidung sollte bei dem Kyoto und EU 2020-Fortschrittsbericht vollumfänglich berücksichtigt werden. Außerdem bestehen zwischen den EMIR- und REMIT-Verordnungen einige Inkonsistenzen (siehe Frage 12). Derzeit müssen Unternehmen Berichte zu EMIR in einem bestimmten Format schicken und Berichte zu REMIT in einem anderen Format.

**b) Are there reporting obligations that should be kept separate from the integrated report? (up to 1500 characters)**

**c) Are there reporting obligations that could be repealed? (up to 1500 characters)**

[\*] By streamlining we understand the possibility to integrate planning and reporting obligations resulting from different sectorial legislation by reducing possible duplication or gaps in the reporting and planning obligations, thereby ensuring transparency, coherence, relevance, efficiency and effectiveness of the reporting and planning. Furthermore planning and reporting cycles should be harmonised to the extent possible.

**14) Which elements/articles of the current reporting obligations in the field of renewable energy do you consider indispensable and why? Please, if relevant, refer to specific articles of the Renewable Energy Directive. (up to 1000 characters)**

**15) Which elements/articles of the current reporting obligations in the field of energy efficiency do you consider indispensable and why? Please, if relevant, refer to specific articles of the Energy Efficiency Directive, the Energy Performance of Buildings Directive and the legislation on products. (up to 1000 characters)**

**16) Which elements/articles of the current reporting in the field of low-carbon development strategies do you consider indispensable and why? (up to 1000 characters)**

**17) Which elements/articles of the current reporting obligations in the field of infrastructure development (like for example TEN-E) do you consider indispensable and why? (up to 1000 characters)**

**18) Which other reporting obligations in the field of energy, including on security of supply infrastructure and market integration, do you consider indispensable and why? (up to 1000 characters)**

Der Europäischen Kommission sollte der Zugriff auf vertragliche Daten, die zur Beurteilung der Versorgungslage und -sicherheit in Ländern sowie Teilen der EU notwendig sind, möglich sein. Klar auszunehmen sind davon jedoch Informationen über Preise in Lieferverträgen, wie sie jedoch im vorliegenden Entwurf der Verordnung EU Nr. 994/2010 tangiert sind, da diese Daten keinen Beitrag zur Beurteilung der Versorgungslage leisten. Geschäftsgeheimnisse sind stets zu wahren.

Zur Stärkung der Versorgungssicherheit sollten Mitgliedstaaten Transparenz darüber schaffen, dass sie die Vorgaben im Versorgungsstandard der Verordnung EU Nr. 994/2010 erfüllen; eine Berichtspflicht oder ein Monitoringsystem erscheinen dazu als geeignete Wege.

**19) Which elements of the current reporting obligations in the field of energy research and innovation do you consider indispensable (investments in R&I, R&I funding programmes and projects and direct funding to institutions) and which information is publicly available or reported to other organisations? How can this reporting be made more consistent between Member States and more updated so that it can support more transnational cooperation in this field? (up to 1000 characters)**

Es wäre anzuregen, dass es einen Zugang zu laufenden oder abgeschlossenen Forschungsprojekten innerhalb der EU gibt. Damit könnten manche Doppel-Forschung vermieden oder auch Partner gefunden werden. Melden sollten die Forschungsprojekte am besten die Universitäten und Forschungseinrichtungen. Vorstellbar wäre eine Plattform wie das „European Investment Project Portal“ (EIPP) für Forschungsprojekte.

**20) Can you provide qualitative or quantitative evidence on the administrative burden imposed by existing reporting obligations on both Member States and other stakeholders? (up to 1000 characters, a possibility to upload further evidence is provided at the end of the questionnaire)**

Solche Informationen stehen in unserer Organisation nicht zur Verfügung. Qualitative oder quantitative Nachweise über die administrative Belastung der Mitgliedstaaten sollten von den betroffenen Behörden der Mitgliedstaaten zur Verfügung gestellt werden.

***Future obligations***

**21) Do you consider future reporting obligations for Member States in the following key elements of the Energy Union Strategy to be?**

|   | Very important        | Important                        | Less important        | Not important         | No opinion            |
|---|-----------------------|----------------------------------|-----------------------|-----------------------|-----------------------|
| Security of supply                        | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Internal Energy Market                    | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Energy infrastructure                     | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Energy efficiency                         | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Renewable energy                          | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| GHG emissions reduction (decarbonisation) | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Research, Innovation and competitiveness  | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

**D. Options for streamlining planning and reporting obligations**

This part of the consultation seeks stakeholders' views on the options for the design of the planning and reporting obligations in the new governance system.

**22) Do you agree that a comprehensive new legislative act covering both planning and reporting obligations of policy areas related to the Energy Union including the 2030 Energy and Climate framework would ensure consistency and reduce unnecessary administrative burden?**

- YES
- NO
- No Opinion

**23) Do you think that non-legislative approaches (e.g. guidance to Member States) can assure effective and efficient streamlining of planning and reporting obligations and would provide the necessary certainty for investors?**

- YES
- NO
- No Opinion

**24) Concerning options to streamline planning and reporting obligations in the framework of the governance of the Energy Union, how would "Non-binding guidance for both planning and reporting obligations covering all Energy Union dimensions" influence the following categories?**

|  | Considerable Improvement | Improvement           | No Change             | Deterioration                    | Significant deterioration        | No Opinion            |
|--|--------------------------|-----------------------|-----------------------|----------------------------------|----------------------------------|-----------------------|
| Coherence of national plans and reporting formats among all EU Member States             | <input type="radio"/>    | <input type="radio"/> | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> |

**27) In your view, what should be the nature of the initiative to best streamline the planning and reporting obligations in the framework of the governance of the Energy Union?**

- Non-binding guidance for both planning and reporting obligations covering all Energy Union dimensions
- Regulating planning and reporting obligations in sectorial legislation as currently the case
- Regulating both planning and reporting obligations by a new comprehensive legislative act covering all Energy Union dimensions

If other, please elaborate: (up to 1000 characters)

**28) Please elaborate on the reasons justifying your choice in the previous question: (up to 1000 characters)**

Ein zentraler, umfassender Bericht jedes Mitgliedstaates zu Energie und Klima erhöht die Vergleichbarkeit sowie Kongruenz der nationalen Entwicklungen. Er sollte nach Themenbereichen strukturiert werden, um Koordinationsaufwand einzudämmen. Außerdem sollte er den administrativen Aufwand für Unternehmen so gering wie möglich halten. Zudem sollten bestehende Transparenzpflichten berücksichtigt werden. Sie tragen zu einer höheren Informationseffizienz bei und ermöglichen eine Reduzierung von redundanten Berichtspflichten. Allerdings darf die Qualität nicht in den Hintergrund geraten. Die Berichtspraxis der Mitgliedstaaten muss auf Basis einer einheitlichen Methodik möglichst vergleichbar sein, um die Aussagekraft der nationalen Berichte zu erhöhen.

Es muss vor allem sichergestellt werden, dass der Bericht zur Erreichung der Klima- und Energieziele 2030 beiträgt. Der Fokus des Berichtes sollte stets darauf gelenkt werden, konkrete Ziele mit konkreten Maßnahmen zu beschreiben.

**E. Options for the governance system of the Energy Union and its process**

***E.1 Scope and nature of the integrated national climate and energy plans***

National plans should take a holistic approach and address the five dimensions of the Energy Union in an integrated way recognising the interactions between different dimensions. The nation plans should cover the period from 2021 to 2030 and build upon what each Member State should deliver in relation to their policies for 2020 and also include a perspective until 2050. These national plans should provide long term predictability and certainty for investment and ensure greater cooperation and coherence among Member States' approaches on climate and energy policies.

**29) Notwithstanding the fact that all five dimensions will be part of the National Energy and Climate plans, which elements of the Energy Union Strategy should be given prominence?**

|  |  |  |  |  |  |
|--|--|--|--|--|--|

|   | Very important                   | Important                        | Less important        | Not important         | No opinion            |
|---|----------------------------------|----------------------------------|-----------------------|-----------------------|-----------------------|
| Security of supply                        | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Internal Energy Market                    | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Energy infrastructure                     | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Energy efficiency                         | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Renewable energy                          | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| GHG emissions reduction (decarbonisation) | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Research, Innovation and competitiveness  | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

**30) a) Building further on your replies to the sections devoted to the existing planning and reporting obligations (questions 1-21), which of the areas/articles subject to current planning obligations should be included in the integrated National Energy and Climate Plans? Please explain. (up to 1500 characters)**

Die Erstellung der Nationalen Aktionspläne für Erneuerbare Energien, die Strategien für eine kohlenstoffarme Entwicklung und die Nationalen Energieeffizienz-Aktionspläne sollten in die nationalen Energie- und Klimapläne integriert werden. Der Abhilfemaßnahmenplan unter der Lastenteilungsentscheidung und die Informationen zu derzeitigen und zukünftigen LULUCF-Aktivitäten gemäß der LULUCF-Entscheidung sollten ebenfalls in die nationalen Energie- und Klimapläne integriert werden.

**b) Building further on your replies to the sections devoted to the existing planning and reporting obligations (questions 1-21), which of the areas/articles subject to current reporting obligations should also be included in the integrated National Energy and Climate Plans? Please explain. (up to 1500 characters)**

**c) Are there current planning obligations that should continue to be treated separately? (up to 1500 characters)**

**31) What political process would be necessary to ensure the stability of the National Energy and Climate Plans (e.g. approval by national governments, cross-party approval, approval by national parliaments, or national legislative acts)? (up to 1000 characters)**

Diese Entscheidung sollte den Mitgliedstaaten überlassen sein - abhängig von den jeweiligen Verfahren innerhalb der Mitgliedstaaten.

**32) What, in your opinion, would be the main factors that could justify an update of the National Energy and Climate Plans in the period from 2021 to 2030 (e.g. energy market developments, economic changes, evolving EU legislation, or collective progress made towards the Energy Union objectives)? (up to 1000 characters)**

Die Mitgliedstaaten sollten ihren nationalen Energie- und Klimaplan dann aktualisieren, wenn es signifikante Veränderungen bei der nationalen Energie- oder Klimapolitik gibt, die auch andere EU-Mitgliedstaaten betreffen. Zudem sollten Mitgliedstaaten zumindest ein Mal in diesem Zeitraum eine Aktualisierung vorlegen, damit die Kommission überprüfen kann, wie weit die EU bei der Erreichung der Klima- und Energieziele 2030 ist und ggf. weitere Maßnahmen ergreifen kann.

***E.2 Role of different institutions in the governance process***

**33) How relevant would you rate the role of different institutions in the development of integrated National Energy and Climate Plans?**

|                         | Very relevant                    | Relevant                         | Less relevant                    | Not relevant                     | No opinion                       |

| Neighbouring or other group of Member States | <input type="radio"/>            | <input type="radio"/>            | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/>            |
| Regional fora                                | <input type="radio"/>            | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/>            |

**35) With respect to the National Energy and Climate Plans, what should be the role of the European Commission in order to ensure the achievement of the Energy Union's objectives?**

|   | Very relevant                    | Relevant                         | Less relevant         | Not relevant          | No opinion            |
|---|----------------------------------|----------------------------------|-----------------------|-----------------------|-----------------------|
| Support to Member States in developing national plans, notably by providing templates and technical support and disseminating best practice | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| Review national plans and analyse Member States' contributions  | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |

|  |                       |                                  |                       |                                  |                       |
|--|-----------------------|----------------------------------|-----------------------|----------------------------------|-----------------------|
| Issue policy recommendations, notably in its annual State of the Energy Union            | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/>            | <input type="radio"/> |
| Approve national plans   | <input type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> |
| Propose measures on EU level in view of delivering on the objectives of the Energy Union | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/>            | <input type="radio"/> |

***E.3 Regional cooperation to establish, and peer review before finalisation of, integrated climate and energy plans***

**36) In accordance with the conclusions of October 2014 and March 2015 European Councils, the new governance system should facilitate the coordination of national energy policies and foster regional cooperation. How important would you rate regional cooperation in the course of integrated climate and energy plans?**

|   | Very important        | Important                        | Less important                   | Not important         | No opinion            |
|---|-----------------------|----------------------------------|----------------------------------|-----------------------|-----------------------|
| As part of their national integrated plans Member States should jointly develop regional objectives, standards and common coherent strategies on the relevant dimensions of the Energy Union. | <input type="radio"/> | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| The national plans should describe how they reflect regional integration and cooperation on the Energy Union domains.   | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> |
| Member States should consult relevant other Member States on national plans before their submission.  | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/> |
| The plans should provide clear account of these consultations and how they are incorporated in the plans.   | <input type="radio"/> | <input type="radio"/>            | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> |
| The Commission should guide the process, and develop  |                       |                                  |                                  |                       |                       |

|  |                       |                                  |                       |                       |                       |
|--|-----------------------|----------------------------------|-----------------------|-----------------------|-----------------------|
| appropriate fora for consultations of draft plans and regional cooperation where required. | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/> | <input type="radio"/> |
|--|-----------------------|----------------------------------|-----------------------|-----------------------|-----------------------|

**37) Concerning consultations and mutual reviews of the integrated National Energy and Climate Plans (meaning that plans or progress reports of one Member State being reviewed by other Member States), how important would you rate the following options?**

|  | Very important        | Important                        | Less important        | Not important                    | No opinion            |
|--|-----------------------|----------------------------------|-----------------------|----------------------------------|-----------------------|
| Only consultations should take place in the preparation of the plans leading to the draft plans    | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/>            | <input type="radio"/> |
| Mutual reviews should be done on draft plans   | <input type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> |
| Mutual reviews should be also used for progress reports assessing the implementation of plans      | <input type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> |
| Mutual reviews should be of voluntary nature for Member States                                     | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> | <input type="radio"/>            | <input type="radio"/> |
| Mutual reviews should be mandatory for Member States   | <input type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> |
| A dedicated system of mutual reviews should be established including the creation of adequate fora | <input type="radio"/> | <input type="radio"/>            | <input type="radio"/> | <input checked="" type="radio"/> | <input type="radio"/> |
