**Public Consultation - Indirect land use change and biofuels
Study "An Analysis of iLUC and Biofuels"**

Dear Sir or Madam,

Please find enclosed the aforementioned study by Professor Dr. Uwe Lahl as additional contribution to the consultation. Subjects of the study are regional quantification of climate-relevant land use change and options for combating it.

Prof. Dr. rer. nat. habil. Uwe Lahl has fulfilled many executive functions in German environmental agencies at different levels (municipal, regional, federal), most recently as the ministerial director in the Federal Ministry for the Environment, Nature Conservation and Nuclear Safety (Bundesministerium für Umwelt, Naturschutz und Reaktorsicherheit – BMU). In these roles, he worked on issues surrounding the instrumentation of legal regulations. Today, Prof. Lahl teaches at the Technical University of Darmstadt (TU Darmstadt) and the University of Indonesia (UI, Djakarta) and is the managing director of BZL GmbH, a consulting company specialised in environmental issues."

The study has been commissioned by Bundesverband der deutschen Bioethanolwirtschaft – BDB^e (German Bioethanol Association) and Union zur Förderung von Öl- und Proteinpflanzen – UFOP (Union for the Promotion of Oil and Protein Plants)

With kind regards,

Dietrich Klein
