Next meetings:

- » 2<sup>nd</sup> meeting: 2 May
- » 3<sup>rd</sup> meeting: end of June

# EG3 - Regulation

- The key deliverables are:
  - define a reference market model, options for viable business models and suitable instruments for accelerating the roll-out of Smart Meters and foster the deployment of Smart Grids
  - examine the potential implications for the regulatory frameworks to efficiently facilitate the roll-out.
- Consensus among all actors involved is essential.

# EG3 -PoW 2012
