Transposition note for Article 24 of Directive 2012/27/EU on Energy Efficiency

<u>**Summary**</u>

Article 24 of Directive 2012/27/EU on Energy Efficiency imposes three new reporting requirements on Member States:

- 24(1): Requires Member States to report to the European Commission on progress achieved towards national energy efficiency targets by 30 April each year.

- 24(2): Requires Member States to submit to the European Commission, by 30 April 2014, and update every three years thereafter, a National Energy Efficiency Action Plan (NEEAP).

- 24(6): Requires Member States to submit to the European Commission, before April 30 each year, statistics on: national electricity and heat production from high and low efficiency cogeneration; cogeneration heat and electricity capacities and fuels for cogeneration; district heating and cooling production and capacities (in relation to total heat and electricity production and capacities), and statistics on primary energy savings achieved by application of cogeneration.

<u>**Transposition into UK law**</u>

The United Kingdom has transposed Article 24 of the Directive into UK law via The Energy Efficiency (Building Renovation and Reporting) Regulations 2014. These Regulations came into force on 30 April 2014.

The Energy Efficiency (Building Renovation and Reporting) Regulations 2014 place an obligation on the Secretary of State for Energy and Climate Change to fulfil the reporting requirements of Article 24(1), (2) and (6) in accordance with Annexes I, II and XIV.

The United Kingdom's National Energy Efficiency Action Plan was published and submitted to the Commission by 30 April 2014. The 2014 NEEAP is publicly available at https://www.gov.uk/government/publications/the-uks-national-energy-efficiency-action-plan-and-building-renovation-strategy

This NEEAP will be updated every three years, by no later than 30 April, in accordance with the Directive's requirements.
