SMARTGRIDS

# Structure of the EG3

Expert Group 3 Structure

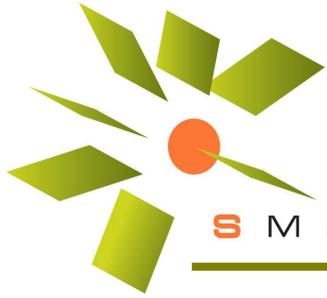

# Expert Group 3 Background and Organisation of Work

S M A R T G R I D S

---

- ❑ The development of **recommendations on the roles and responsibilities** of all involved actors in the implementation of the Smart Grids
  - ❑ The definition of **criteria and recommendations for funding** of Smart Grid deployment
  - ❑ Key issues from the individual inputs by the EG3
    - Expected benefits from Smart Grids for the own organisation;
    - Smart Grids features provided by the own organisation;
    - Smart Grids features needed from other players;
    - Decision criteria for the deployment of specific Smart Grids features
    - Own organisation roles & responsibilities in the Smart Grids deployment;
    - Interfaces and interaction with other players
    - Funding options
  - ❑ Deliverable = Synthesis of the detailed information from above
-

# 1st EG3 Meeting 11. February 2010

S M A R T G R I D S

---

- ❑ Elaborated and agreed on the contents of the questionnaire
- ❑ Agreed the structure and contents of the Deliverable document:
  1. Introduction
  2. Tasks and Scope of Work of the EG3
  3. Activities, Roles and Responsibilities - Status Quo
  4. Benefits, Criteria and Recommendation for Funding of Smart Grids
  5. Interfaces and Interaction
  6. Roles and Responsibilities – Recommendations on Scope, Policy and Regulatory Directions

S M A R T G R I D S

# Next Steps

---

- Compilation and distribution of the questionnaire results to EG3 on 26. February 2010
- Draft chapters of the deliverable document on 12. (17). March 2010
- 2nd EG3 meeting 22. March 2010: the first draft deliverable document for discussion
- 3rd EG3 meeting 10. May 2010: final discussion and approval (in the EG3) of the deliverable document
