

ETSO's views and work on Transparency

Urban Keussen
Member of ETSO Steering Committee
Head of Task Force on Congestion Managament

13. Florence Forum
7th/8th September 2006

Task from the 12th Florence Forum:

“ETSO promised to provide, by November 2005, a list of the data TSO’s need to ensure an optimal use of the existing infrastructure, as an input to the consultation process on the ERGEG discussion”

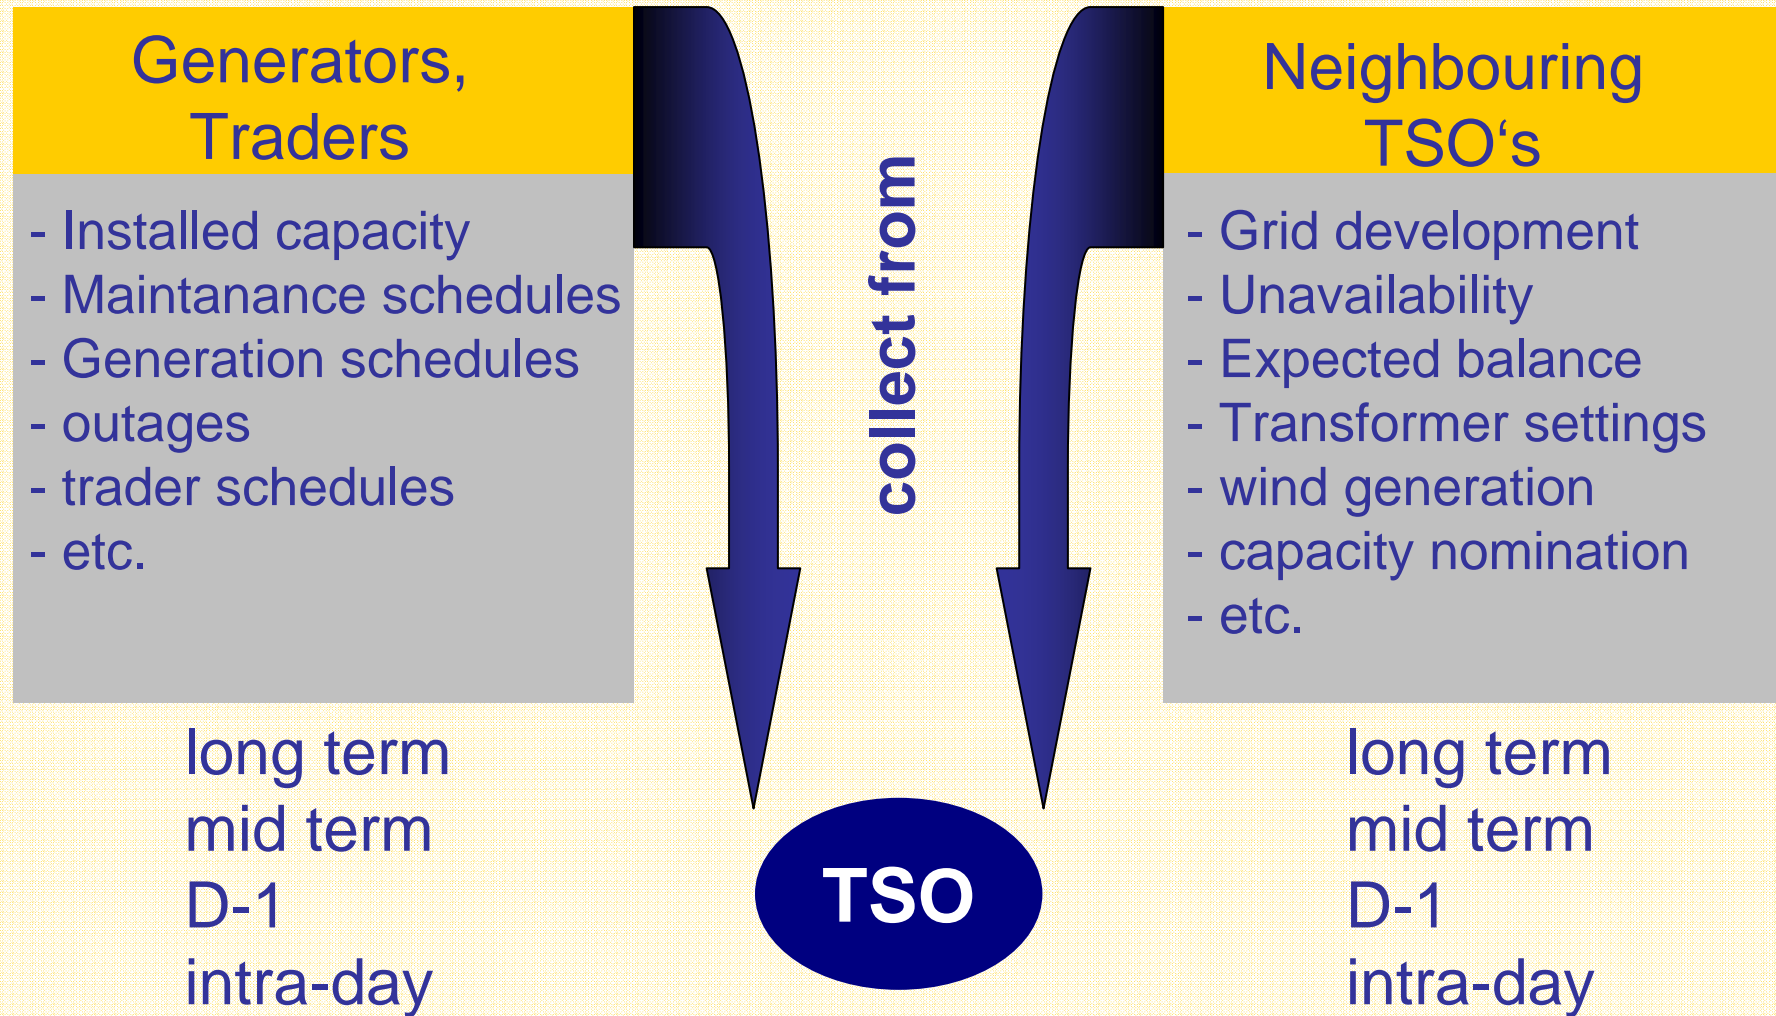

Paper delivered on time

Further process:

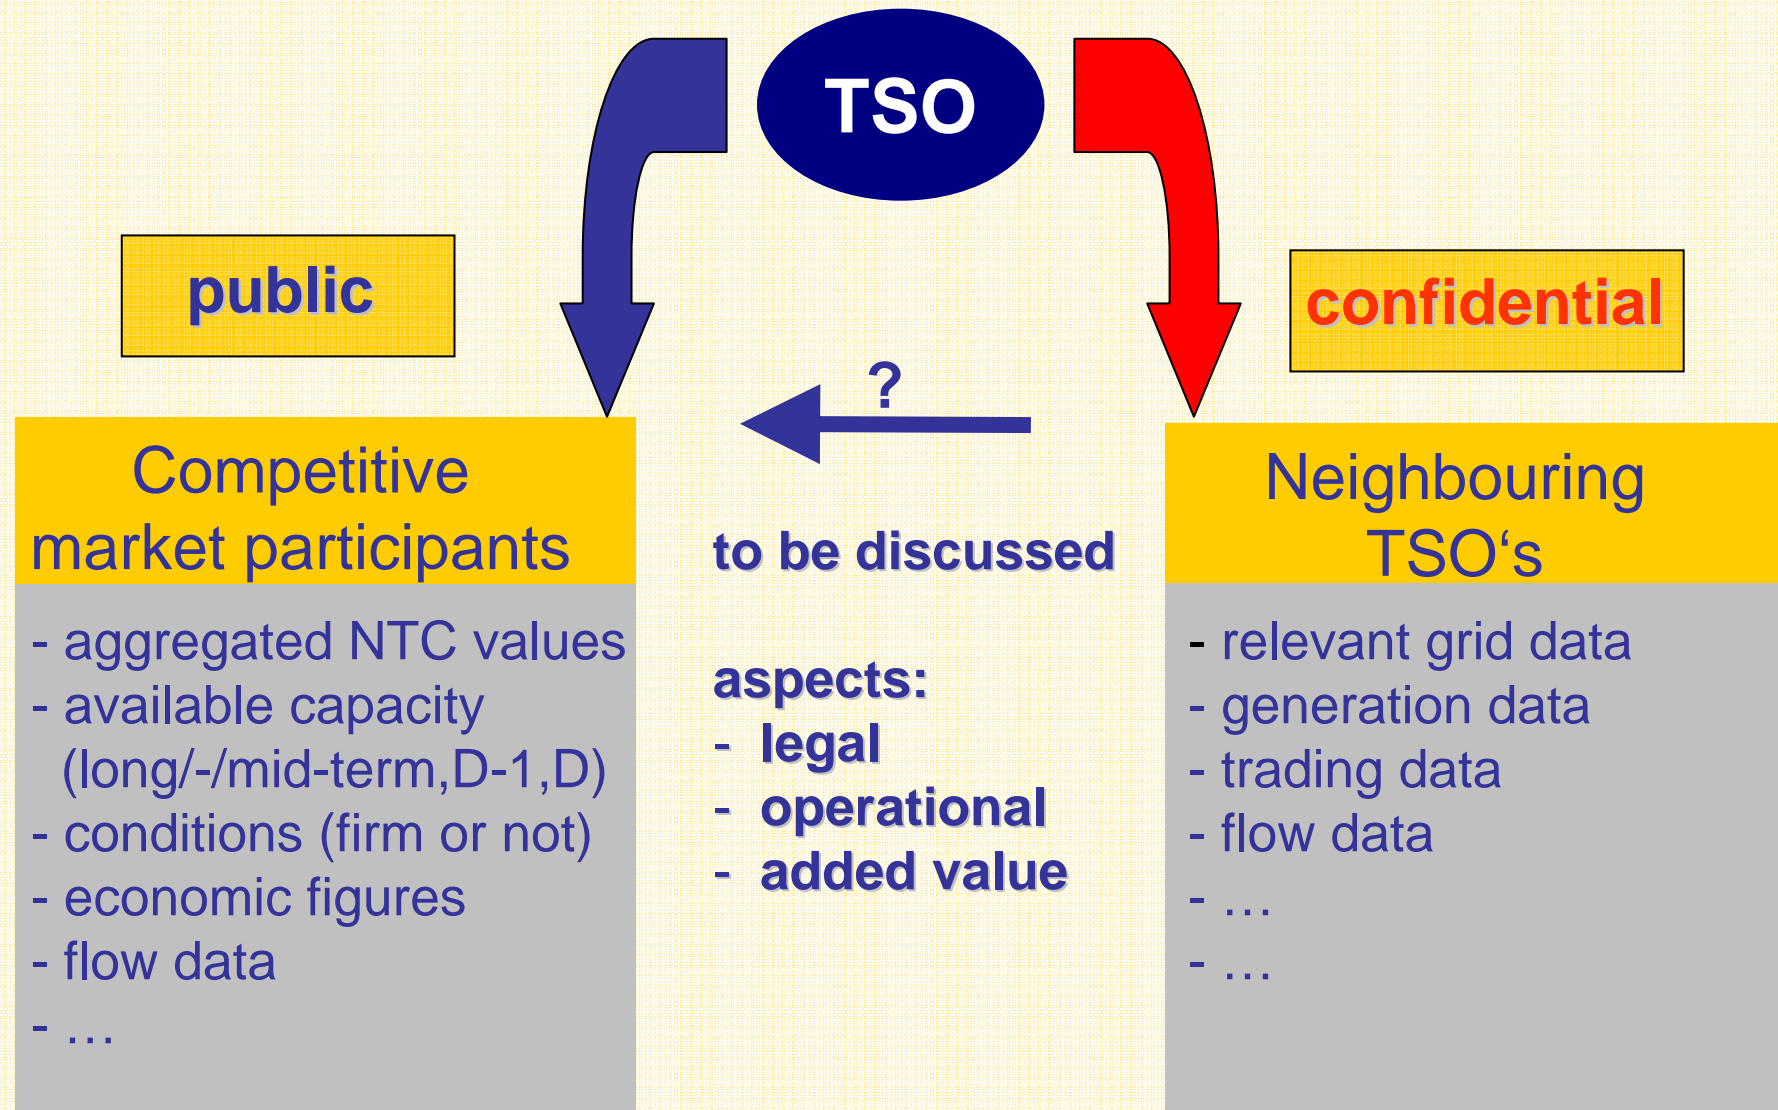

ETSO’s commitment to transparency:

- Active support of increased transparency
- Contribution to ERGEG’s consultation process
- Concrete actions taken

TSO's as data collectors

TSO's as data providers

Aspects

→ Legal

→ Some data is confidential and cannot be published

→ i.e. generation data in some countries

→ *legal framework to be discussed and changed*

→ Operational

→ Some of the data is not available to TSO

→ i.e. load data of the whole system

→ *definition of data to be discussed and modified*

→ added value

→ Some data are questionable due to added value

→ i.e. some extensive close to real time ex-post data

→ *list of data to be discussed and modified*

ETSO data platform GridView

→ Vision

- **Establish:** the European data platform
- **Basis:** TSO data for market participants
- **Extension:** Market data for market participants

→ Project

- launched by ETSO in June 2006,
implementation from September 2006
- **Target:** **operational before end 2006**
- **Data:** stepwise approach (flows etc)
- **Access:** via internet free of charge

→ Dialog

ETSO conference on transparency
17th of November 2006 in Brussels
