

Amendment of GGPSSO for CAM and CMP

Rocío Prieto, Co-Chair CEER LNG TF
20th Madrid Forum
26-27 September 2011

Finalising GPSSO for CAM and CMP

è Steps taken after Madrid Forum in March 2011:

1. Discussion of implementation issues with GSE in June
 - Main critical points were additional regulatory power and obligation for SSOs to develop secondary markets
2. Redrafting of the amendment of GGPSSO
 - mitigation above all of regulatory oversight and the guideline for developing the secondary market
3. Short consultation of the revised version with EFET and Eurogas
4. Final redrafting of the GGPSSO
5. After CEER internal approval publication on the CEER homepage

Next steps GGPSSO

- Monitoring of the implementation status of the GGPSSO on CAM and CMP;
- Starting end of 2012.

Way forward

- Monitoring of the implementation status of transparency rules according to Article 19 Regulation 715/2009
 - à Compliance of SSOs with 3rd Package;
 - à Stakeholders experience about the appropriateness of the rules that are in place for transparency.
- Starting end of 2011.

The background of the slide is a composite image. On the left, there is a faint, grey silhouette of a high-voltage electricity pylon. On the right, there is a close-up, slightly blurred image of a gas stove burner with a blue flame.
