EASEE-gas

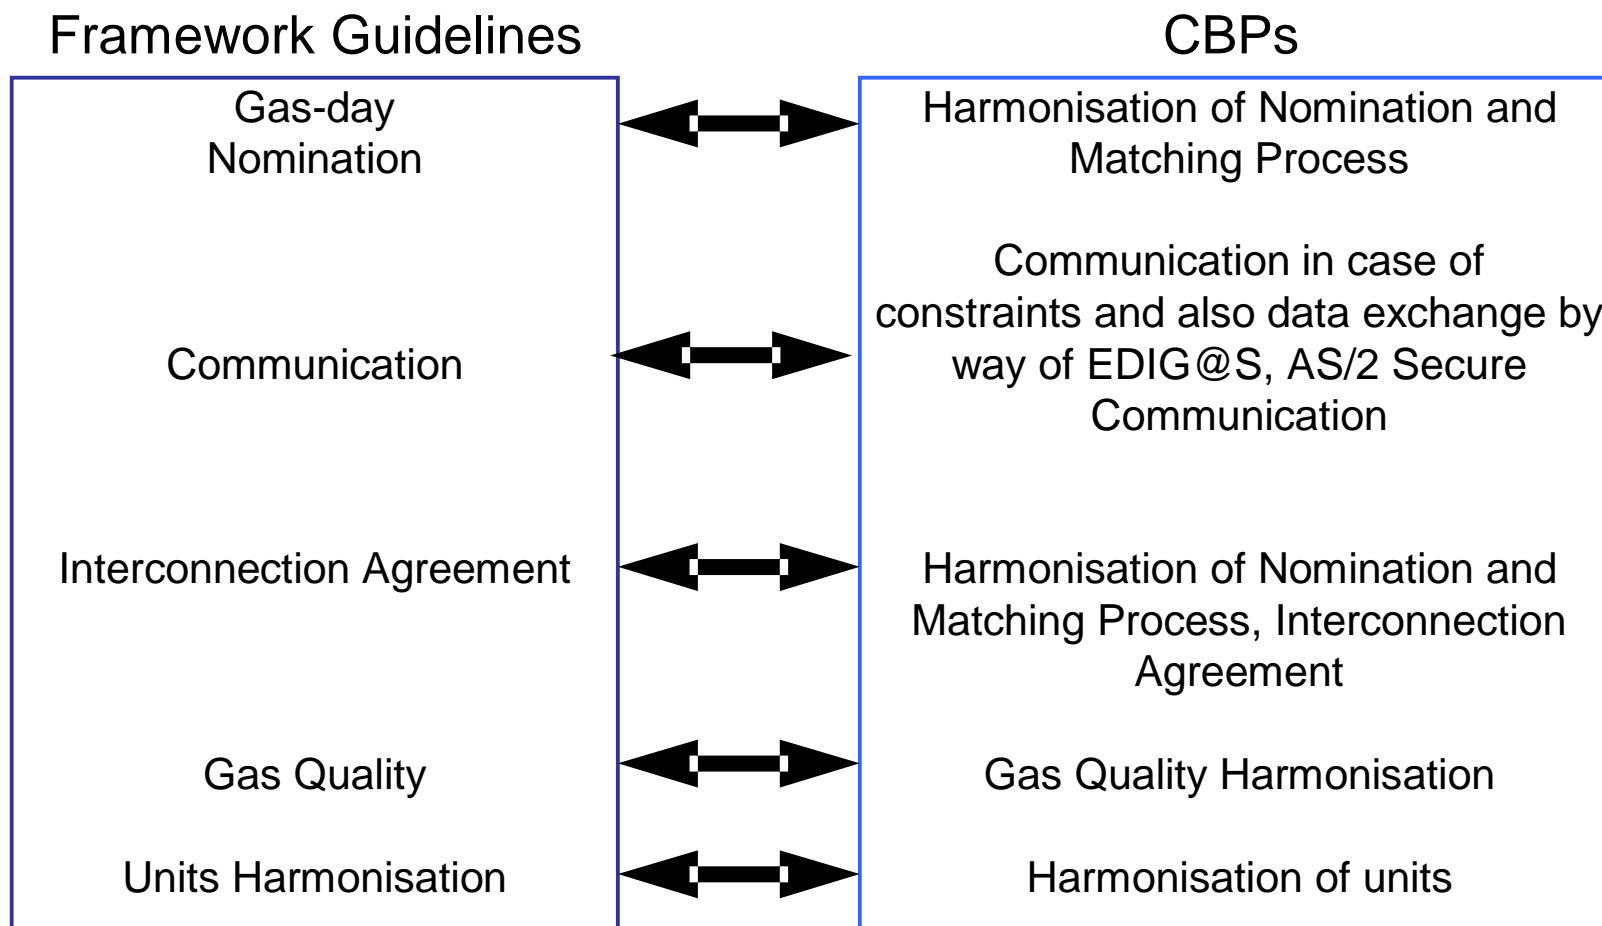

www.easee-gas.org

EASEE-gas represents all levels of the gas value chain

- Y 80 Producers, Transporters, DNOs, LTSOSPs, Traders and Shippers and Suppliers
- Y Participating in CEN/TC 234 Gas Infrastructure WG 11 on Gas Quality
- Y Common Business Practices (CBPs) Approval Process
- Y EASEE-gas CBPs serve as good practice
 - Y Well implemented and used as basis for progressing rapidly to harmonization throughout Europe

Comparison of Draft Framework Guidelines and existing CBPs

Interoperability

- Y EASEE-gas appreciates a European standard for **nomination procedures**, especially for nomination and renomination time limits
- Y Communication about **constraints** should always be the same
- Y It is important to harmonise the lead times in the **gas-day**
- Y Definition of **gas-day** should remain as outlined in the CBP Harmonisation of the Nomination and Matching Process
- Y **Gas Quality** CBP is a good basis for further discussion

Thank you for your attention
