

EU4Energy Debriefing on the Inception Phase

16th Meeting of the Eastern Partnership Platform 3 on Energy
Security, Brussels, Belgium, 20 December 2016

EU4Energy Governance

Component 3 – Legislative and Regulatory Environment and Key Energy Infrastructure – **EU4Energy Governance**

- ✓ *Improvement of energy legislative and regulatory framework*
- ✓ *Operationalization of the agreed priority policy proposals*
- ✓ *Contribution to the increase of technical, institutional and administrative capacity*
- ✓ *Improved investment climate*
- ✓ *Identification of priority infrastructure investments*

Inception Phase

Working meeting on EU4Energy Governance in Sarajevo, Bosnia and Herzegovina, 13 October 2016

Areas Where the Technical Assistance Was Requested by Countries

	Energy Efficiency	Electricity	Gas	Renewable Energy	Environment	Oil
Armenia	✓			✓		
Azerbaijan	✓	✓	✓			
Belarus	✓	✓	✓	✓		
Georgia	✓	✓	✓	✓	✓	✓
Moldova	✓	✓	✓	✓	✓	✓
Ukraine	✓	✓	✓	✓	✓	

Regional Activities under Discussion

***Regional workshops** related to establishment of electricity and gas market, integration of renewable energy sources, development of energy efficiency measures, creation of oil stocks*

Regional coordination meetings

Propose methodology to facilitate the indication of key strategic infrastructure projects in the energy sector

Support in establishment of Integrated Ukrainian – Moldovan Electricity Market

Support to Ukraine and Moldova regarding connection of their power grids to Continental European power system

Baseline Studies, State of Play in Georgia, Moldova, Ukraine

Electricity and Gas Markets

- Lack of unbundling requirements, in accordance with the Third Energy Package, inadequate structure of markets, regulated tariffs and lack of competition

Energy Efficiency and Renewable Energy

- Primary and secondary legislation on EE and RES shall be developed/adopted/implemented in line with EU Directives and Regulations

Energy Related Environment

- Energy Related Environmental acquis lack transposition and implementation in all 3 countries

Oil stocks

- Oil stocks are not created, corresponding legislation is not in place

Draft First Year Work Program for Georgia (Year 2017)

	Activities/months	Year 1											
		Jan. 2017	Feb. 2017	Mar. 2017	Apr. 2017	Mai. 2017	Jun. 2017	Jul. 2017	Aug. 2017	Sep. 2017	Oct. 2017	Nov. 2017	Dec. 2017
	Area 1 Energy Efficiency												
GE 1.1	Gap analysis of Georgian legislation in relation to energy performance of buildings												
GE 1.2	Support in development of draft Law on Energy Performance in Buildings												
	Area 2 Electricity Market												
GE 2.1	Support in drafting following legal framework:												
GE 2.1.1	Licensing conditions for transmission												
GE 2.1.2	Certification procedure												
GE 2.1.3	Contract for supply of universal services												
GE 2.1.4	Contract for supply by Supplier of Last Resort												
GE 2.1.5	Procedure on development, submission and publication of DSO compliance programme												
GE 2.1.6	Licensing conditions for generation												
GE 2.1.7	Licensing conditions for market operator												
GE 2.1.8	Licensing conditions for guaranteed buyer												
GE 2.1.9	Standard contract on purchase of electricity with feed in tariff												
GE 2.1.10	Licensing conditions for trading activities												
GE 2.1.11	Rules on security of supply												
GE 2.1.12	Cross boarder Transmission Capacity Allocation Rules												

Draft First Year Work Program for Georgia (Year 2017)

		Year 1											
	Activities/months	Jan.2017	Feb. 2017	Mar.2017	Apr. 2017	Mai.2017	Jun.2017	Jul.2017	Aug. 2017	Sep. 2017	Oct. 2017	Nov. 2017	Dec. 2017
	Area 3 Gas Market												
GE 3.1	Support for development of Natural Gas Distribution System Code												
	Area 5 Energy-Related Environment												
GE 5.1	Support for amending the legislation of Georgia to bring it in compliance with Directive 1999/32/EC relating to a reduction in the sulphur content of certain liquid fuels												
	Regional Activities												
GE RA 1	Regional workshops related to establishment of electricity and gas market, integration of renewable energy sources, development of energy efficiency measures, creation of oil stocks (Regional workshops following the needs of the work program)												
GE RA 2	Regional coordination meetings												
GE RA 3	Provision of TA on key energy infrastructure strategic projects												

Draft First Year Work Program for Moldova (Year 2017)

	Activities/months	Year 1											
		Jan.2017	Feb. 2017	Mar.2017	Apr. 2017	Mai.2017	Jun.2017	Jul.2017	Aug. 2017	Sep. 2017	Oct. 2017	Nov. 2017	Dec. 2017
		M 7	M 8	M 9	M10	M 11	M12	M13	M14	M15	M16	M17	M18
	Area 1 Energy Efficiency												
MD 1.1	Gap analysis of the implementation of Law no 128/2014 on Energy Performance of Buildings: missing secondary legislation; need for updating existing drafts of secondary legislation												
MD1.2	Revision of energy efficiency primary legislation to bring it in compliance with Directive 2012/27 on Energy Efficiency												
	Area 2 Electricity Market												
MD 2.1	Support in drafting Regulation on conditions of access to the network for cross-border exchanges in electricity												
MD 2.2	Support in drafting Electricity Market design (concept design)												
MD 2.3	Support in drafting Wholesale Electricity market rules including rules:												
MD 2.3.1	for the forward market												
MD 2.3.2	the day-ahead and intra-day market												
MD 2.3.3	the balancing market												
MD 2.3.4	Auxiliary services procurement and imbalances settlement												

Draft First Year Work Program for Moldova (Year 2017)

		Year 1											
Activities/months		Jan. 2017	Feb. 2017	Mar. 2017	Apr. 2017	Mai. 2017	Jun. 2017	Jul. 2017	Aug. 2017	Sep. 2017	Oct. 2017	Nov. 2017	Dec. 2017
		M 7	M 8	M 9	M10	M 11	M12	M13	M14	M15	M16	M17	M18
Area 3 Gas Market													
MD 3.1	Support in development Methodology for calculation of tariffs and regulated prices:												
MD 3.1.1	Methodology for calculation, approval and application of tariffs for natural gas transmission service; (including tariffs for entry-exit)												
MD 3.1.2	Methodology for calculation, approval and application of tariffs for natural gas distribution service												
MD 3.1.3	Methodology for calculation and approval of regulated prices for the supply of last resort and public service obligation for specific categories of customers												
MD 3.2	Support in development the Transmission Network code												
MD 3.3	Support in development of Distribution Network code												
MD 3.4	Support in development of Storage Network code												
Area 5 Energy-Related Environment													
MD 5.1	Support in development of Regulation on the limitation of emission of certain pollutants into the air from large combustion plants												
Regional Activities													
MD RA 1	Regional workshops related to establishment of electricity and gas market, integration of renewable energy sources, development of energy efficiency measures, creation of oil stocks (Regional workshops following the needs of the work program)												
MD RA 2	Regional coordination meetings												
MD RA 3	Provision of TA on key energy infrastructure strategic projects												

Draft First Year Work Program for Ukraine (Year 2017)

		Year 1											
	Activities/months	Jan.2017	Feb. 2017	Mar.2017	Apr. 2017	Mai.2017	Jun.2017	Jul.2017	Aug. 2017	Sep. 2017	Oct. 2017	Nov. 2017	Dec. 2017
		M 7	M 8	M 9	M10	M 11	M12	M13	M14	M15	M16	M17	M18
	Area 1 Energy Efficiency												
UA 1.1	Support in calculation of the National energy efficiency target by 2020 and, 2030 and preparation of the 1st report to the Energy Community, support in development of draft governmental decree to approve the energy efficiency target												
UA 1.2	Support in drafting amendments to draft Energy Performance of Buildings Law for bringing it into compliance with Directive 2010/31 on Energy Performance of Buildings												
	Area 2 Electricity Market												
UA 2.1	Support the Ukrainian side in activities with the transition to a new model of electricity market:												
UA 2.1.1	Support in drafting Rules for intraday market												
UA 2.1.2	Support in development of Procedure of functioning balancing group under guaranteed buyer												
UA 2.1.3	Support in development of Procedure for calculating the compensation payments of guaranteed buyer												
UA 2.1.4	Support in development of Procedures for purchase/sale of electricity by guaranteed buyer for the transitional period of the electricity market												

Draft First Year Work Program for Ukraine (Year 2017)

	Activities/months	Year 1											
		Jan. 2017	Feb. 2017	Mar. 2017	Apr. 2017	Mai. 2017	Jun. 2017	Jul. 2017	Aug. 2017	Sep. 2017	Oct. 2017	Nov. 2017	Dec. 2017
		M 7	M 8	M 9	M10	M 11	M12	M13	M14	M15	M16	M17	M18
	Area 3 Gas Market												
UA 3.1	Assisting in drafting amendments to Law of Ukraine "On the Cabinet of Ministers of Ukraine" #794 dated 27 February 2014 to bring in compliance with requirements of Third Energy Package												
	Regional Activities												
UA RA 1	Regional workshops related to establishment of electricity and gas market, integration of renewable energy sources, development of energy efficiency measures, creation of oil stocks (Regional workshops following the needs of the work program)												
UA RA 2	Regional coordination meetings												
UA RA 3	Provision of TA on key energy infrastructure strategic projects

EU4ENERGY

EU4ENERGY is a four-year programme of EU technical assistance (TA) launched in June 2016 (end date 24 June 2020). It is funded by the European Union and co-financed and implemented by the Energy Community Secretariat and the Energy Charter Secretariat.

As a follow up to the INOGATE Programme, the project beneficiaries are:

- Armenia,
- Azerbaijan,
- Belarus,
- Georgia,
- Moldova, and
- Ukraine.

The overall objective of the Component 3 is to improve the countries' legislative and regulatory environment for the energy sector in line with their EU obligations and with best practice.

OBJECTIVES AND ACTIVITIES

The key objectives:

- Preparation of the relevant primary and secondary legislation
- Improvement of institutional framework for entire policy cycle
- Enhancement of the investment climate through improved legal framework
- Identification of priority energy infrastructure projects

are to be achieved with the help of the following technical activities:

- A1. Provision of technical assistance on legislation and regulation in line with priorities set in the multi-annual and country work programmes
- A2. Provision of TA on institutional development in line with priorities set in the multi-annual and country work programmes
- A3. Regional / horizontal activities such as provision of TA on key energy infrastructure strategic projects and other regional activities.

For Moldova, Ukraine and Georgia, the focus will be on improving the energy legislative and regulatory framework and implementing policy recommendations, in line with Energy Community 'Train 1' allocation Agreements / OCTAs requirements. For the other Eastern Partnership (EaP) countries, the focus will be on EU best practice and acquis in agreed areas.

RESPONSIBILITIES AND TASKS

The Energy Community Secretariat is responsible for the overall management of the Project and in particular for delivery of technical assistance to Georgia, Moldova and Ukraine. The Energy Charter Secretariat, co-implementer, will be responsible for delivery of technical assistance to the second group of countries – Armenia, Azerbaijan and Belarus under the overall management of the Energy Community Secretariat as the main implementing organisation.

The Secretariat is presently drafting first Year Work Programme (January – December 2017) for each beneficiary country, defining activities per month, specific objectives and success indicators.

NEWS DETAILS

17 Oct 2016

EU4ENERGY meeting maps out how to improve energy legislative and regulatory environment in Eastern Partnership countries

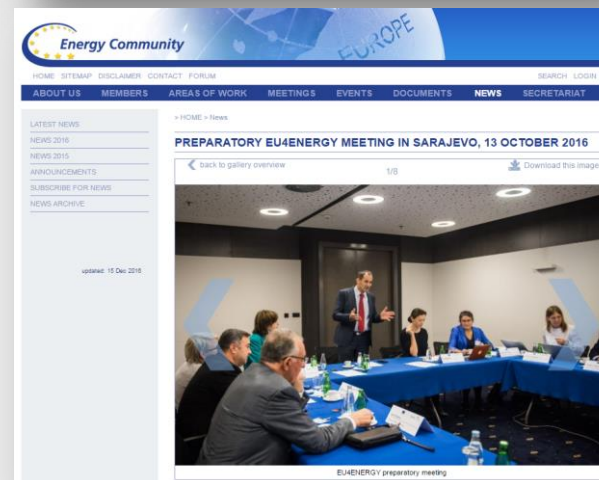

The first EU4ENERGY regional event took place on 13 October in Sarajevo, Bosnia and Herzegovina, back to back with the Energy Community Ministerial Council 6 bringing together representatives of Eastern Partnership countries, European Commission, Energy Community Secretariat, International Energy Agency and Energy Charter Secretariat. The meeting served to present the draft annual and multiannual work programmes and discuss the next steps.

EU4ENERGY is a four-year programme of EU technical assistance launched in June 2016, as a follow up to the INOGATE Programme. EU4ENERGY Component 3 'Legislative and Regulatory Environment and Key Energy Infrastructure' is funded by the European Union and co-financed and implemented by the Energy Community Secretariat and the Energy Charter Secretariat. Its aim is to provide an improved legislative and regulatory framework in the area of energy and define key strategic energy infrastructure projects. The initiative covers six countries - Moldova, Ukraine, Armenia, Georgia, Azerbaijan and Belarus.
