

IEA for EU4Energy

Enhancing energy data and policy in countries of Eastern Partnership and Central Asia: Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Turkmenistan, Ukraine and Uzbekistan

EU4Energy Programme Framework

IEA for EU4Energy Programme Aims

- **EU4Energy Programme aims at supporting participating countries in:**
 - *Developing robust energy policies and measures:*
 - Transition from policy taking to policy making
 - Develop mechanisms for tracking progress for implementation
 - Promote visibility and data transparency
 - *Enhance energy security options by:*
 - Maximising use of indigenous sources of energy and energy efficiency gains
 - Supporting sustainable energy sector developments and long term planning
 - Facilitating and energy market convergence at national and regional levels
 - Encouraging energy related investments by fostering a solid policy base
 - Promoting energy related research, development and deployment (RD&D)

Calendar of Activities Y1: EU4Energy Data

Activity 1, EU4Energy Data		Timing
Activity 1.1	Baseline analysis	Q4/Q1 2017
Activity 1.2	Energy data strategies	
Inception missions	Countries and data team brainstorm on Energy Data Strategies	Q4/Q1 2017
Missions Follow up	Strategies are finalized	Q1/Q2 2017
2 nd Network Meeting	Countries present their Energy Data Strategies	June 2017
Activity 1.3	Data production	
Energy Balances	2015 Energy Balances. Eu4Energy Data, focal point for exchanges with the IEA	Q4 2016
Documentation	Russian versions of the annual questionnaire documentation online	Q3 2016
Activity 1.4	Capacity building	
1 st Network Meeting	Countries are engaged in IEA for EU4Energy program	October 2016
JODI-training	EU4Energy Data present at JODI regional training	Nov 2016
InterEnerStat	Representation of EU4Energy focus countries	Dec 2016
Oslo Group Meeting	Representation of EU4Energy focus countries	May 2017
2 nd Network meeting + Network Training event	Countries present their updated energy strategies Training on data use and dissemination	June 2017
Activity 1.5	Demand side data collection	
Targeted assistance	External experts. Identification of data gaps and sources (efficiency/balances)	Q1/Q2 2017

Calendar of Activities Y1: EU4Energy Policy

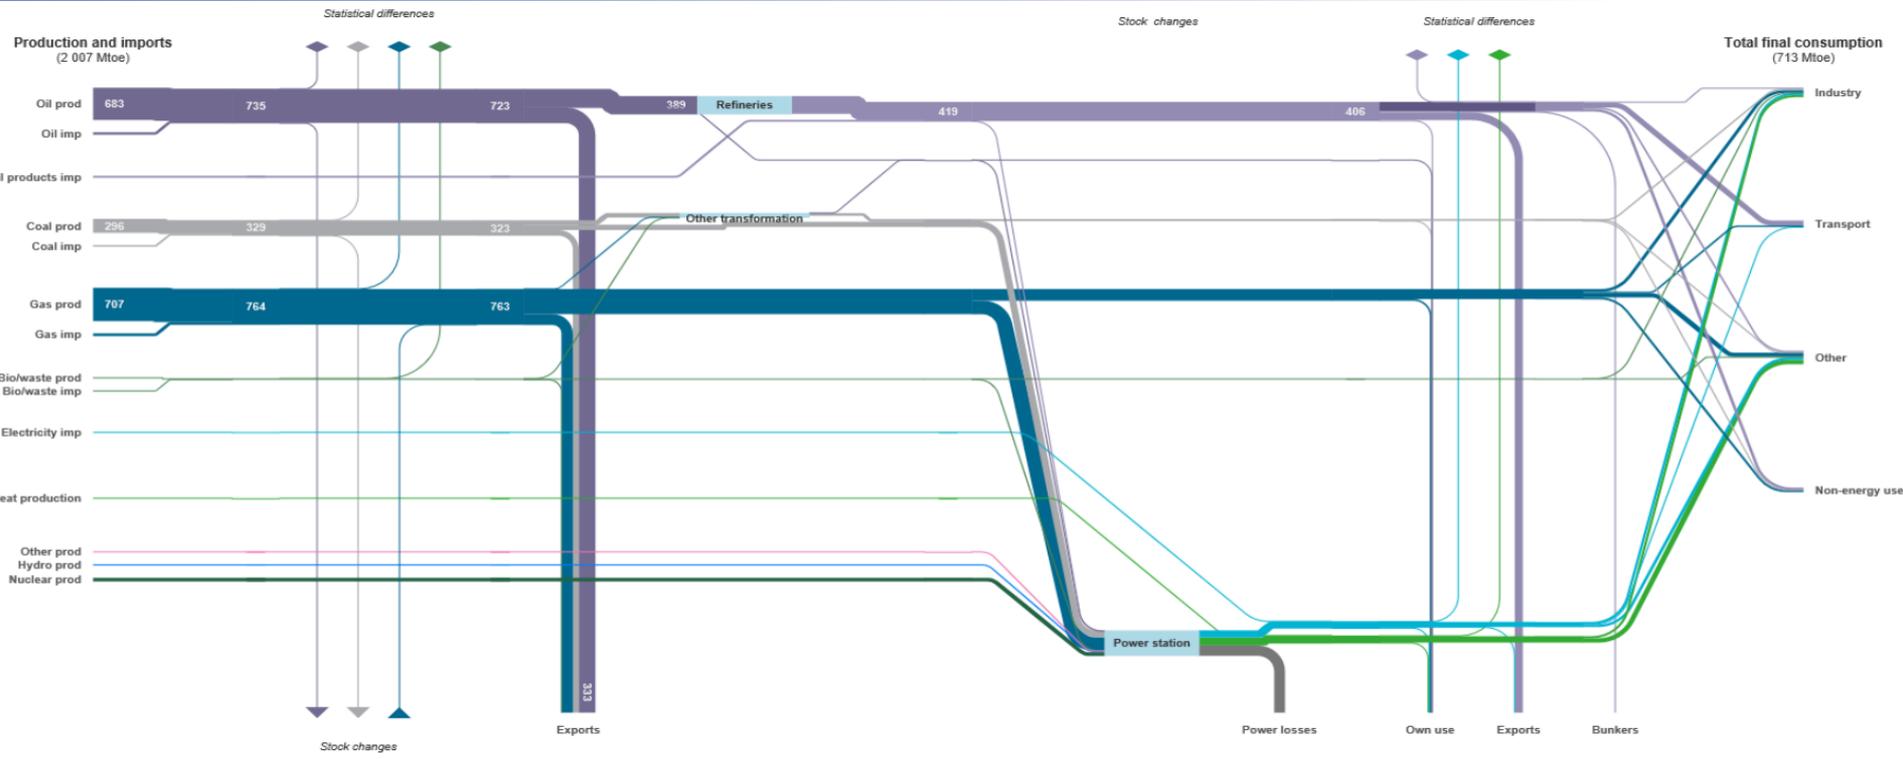

Activity 2, EU4Energy Policy	Timing
Activity 2.1	Engage Focus Countries
Designation of Country Coordinators	Government Nominations of the Country Coordinators <i>(Belarus, Azerbaijan and Tajikistan only, as of 20 Dec 2016)</i>
Engaging Country Experts	Tender (selected for: Az, Bel, Geo, Mol, Kaz, Turk and Ukr) Market Consultation (for remaining countries: Arm, Kyrg, Taj, Uzb)
Engagement with Focus Groups and key energy stakeholders	EU4Energy Implementing Partners National and Multinational/international Stakeholders
Stakeholder Management	Action Steering Committee (SC) Action Management Group (AMG) Action Implementation and Coordination Group (AICG)
Activity 2.2	Country assessments, grouping and policy fora
Country assessments (analytical/missions)	Energy Efficiency prioritization exercise
Analytical work at country level (CCs/CEs)	Update of country pages for WEB and preparations for PPF
Policy Pathways Fora (PPF) meetings	Energy Security <i>Demand Restraint Programmes and Fuel Switching</i> Energy Markets <i>Renewable Heat and Cooling – policies, market mechanisms and pricing</i> Sustainable Development <i>Best practices for grid integration of variable renewables and EE Priorities</i>
Activity 2.3	Adaptations of Policy Pathways Roadmaps
Activity 2.4	Peer-review

Calendar of Activities Y1: EU4Energy Web

Activity 1, EU4Energy Web Portal		Timing
Activity 3.1	Eu4Energy Web Portal development	2016-2020
Conceptualisation/design	Extensive consultative phase (IEA/OECD IT and WEB personnel)	July-Oct 2016
Tender	Tender for external consultancy hire for web development	Nov -Dec 2017
Preparations for Web content	Preparation of Web content in close cooperation with CC & CEs	Q1 2017
	Interactive statistics tools for comparative analysis (IEA/OECD)	Q3 2016-Q1 2017
	Infrastructure maps	Q1 2017
	Country Pages	Q1 2017
Construction	Building the WebPortal	Q1 2017
Demo launch	Demo launch and testing the site	Q1 2017
Launch	Launch of the EU4Energy web portal	Q2 2017
Activity 3.2	Visibility strategy and related communication and visibility guidelines	Q2-Q3 2016
Visibility guidelines	Guidelines for IEA for EU4Energy Team	Sep 2016
	Guidelines for Local Experts	Nov 2016
Activity 3.3	Update of the web portal	2017-2020

IEA for EU4Energy Programme

Calendar of Activities Y1: EU4Energy Policy

■ Fostering energy policy dialogue

Fora organised for government officials and experts to discuss and make best practice recommendations and develop road-maps on the most pertinent issues, such as energy pricing, subsidies, demand-side management, market set up, developing indigenous resources and investment promotion

➤ *Energy security:*

- Policy Pathway fora on best practice guidelines for comprehensive national energy strategies or energy Demand Restraint Programmes and Fuel Switching
- Q1 [date and venue to be determined]

➤ *Sustainable energy:*

- Best practices in supporting grid integration of variable renewables and Energy Efficiency Priorities
- June 2017, Astana , during Astana EXPO 2017 on Future Energy

➤ *Energy markets:*

- Renewable energy pricing, market mechanisms and policies with focus on Renewable Heat and cooling or challenges and opportunities of phasing out energy subsidies
- Q2 [data and venue to be determined]

Calendar of Activities Y1: EU4Energy Web

■ Visibility strategy (Q2-Q3 2016)

- *Communication and visibility guidelines for IEA for EU4Energy Team and Local Experts*

■ Development of Interactive web portal

- *Conceptualisation, Design and building (Q2 2016 to Q1 2017)*

■ Preparation of the web portal content (Q3& Q4 2016)

- *Interactive statistics tools for comparative analysis*
- *Interactive infrastructure maps*
- *Country Pages*

■ Launch

- *Demo version in Q1 2017*
- *Launch of the EU4Energy web portal Q2 2017*
