Joint Declaration for Regional Cooperation on Security of Supply

Benedikt Günter

*Advisor (GIZ) to Unit IIIB3 National and european electricity market
integration*

Federal Ministry for Economic Affairs and Energy

Florence, 05th June 2015

1. STARTING POINT

- Germany's intention to consult market design with its "electricity neighbours"
- Regional generation adequacy assessments (*Pentaforum + Consentec/r2b*) proved real synergies of regional cooperation
- Identified common view on several "no-regrets" not only between "like minded"
- Agreed on a concrete declaration to be signed on 8th June

Who is involved?

*BE-NE-LUX, FR, DE, AT,
CH, IT, PL, CZ, DK, SE, NO*

2. CENTRAL „NO-REGRETS“ OF THE DECLARATION

- Maximizing the benefits of the **internal market**
- **Regional adequacy assessments** (common methodology)
- **Grid reinforcement** and further **market coupling** to increase cross-border trade
- **No restriction of cross-border trade** in times of scarcity and following EU-regulations on cross-border trade and secure system operation
- Principle of **flexibilisation** of supply and demand as “no-regret”
- flexible prices, no **legal price caps**

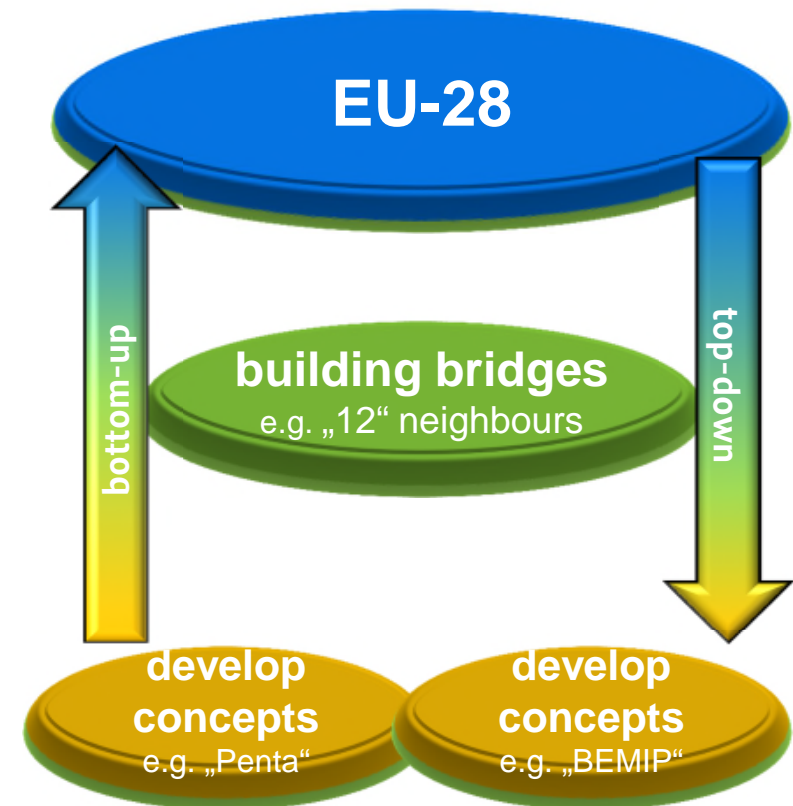

3. WHAT IS THE MAIN ADDED VALUE?

- 12 Member States set **clear political priorities**
- Common understanding **on high political level**
- Demonstrating the **importance of the internal energy market** for Security of Supply
- **Bridging the gap** between CRM- and Non-CRM-states
- Declaration on **substantial points** fosters **concrete debate**
- **Joint learning curve - ownership - trust building**
- **Commission actively involved** to give guidance

4. POSSIBLE „BLUE-PRINT“ ELEMENTS

- Right mix of “top-down”-coordination and “bottom-up” contribution needed
- “bottom-up” needs
 - substance to be discussed
 - concrete procedure and structure
 - monitoring
- Strong coordination by COM needed to
 - ensure progress and consistency of clusters
 - put the right questions
- Identifying “**no-regrets**” allows for deeper integration between different approaches
- Thereby moving forward to better **EU-28 regulation**

How to cluster discussion?
