

# International Confederation of Energy Regulators

## ICER - Progress And Prospects

Lord Mogg  
ICER Chair

Florence  
23-24 May 2011

# GOALS OF ICER

- To raise the profile and public awareness of the work of national energy regulators in monitoring electricity and gas markets and safeguarding consumer interests
- To provide an open platform for energy regulators to pursue joint values and goals
- To reconcile market mechanisms with public service objectives
- To provide a significant contribution towards a sustainable planet

# ICER FOUNDING MEMBERS – Global coverage

AFUR	<i>African Forum for Utility Regulators</i>
ARIAE	<i>Asociación Iberoamericana de Entidades Reguladoras de la Energía</i>
CAMPUT	<i>Canadian Association of Members of Public Utility Tribunals</i>
CEER	<i>Council of European Energy Regulators</i>
EAPIRF	<i>East Asia and Pacific Infrastructure Regulatory Forum</i>
ERRA	<i>Energy Regulators Regional Association</i>
MEDREG	<i>Association of Mediterranean Regulators for Electricity and Gas</i>
NARUC	<i>National Association of Regulatory Utility Commissioners</i>
OOCUR	<i>Organization of Caribbean Utility Regulators</i>
RERA	<i>Regional Electricity Regulators Association</i>
SAFIR	<i>South Asian Forum for Infrastructure Regulation</i>

➤ **ICER operates mainly through virtual means**

# ICER Actions

- ICER has already:
  - Issued a statement on Climate Change at World Forum for Energy Regulation, Athens 2009
  - Presented a report of energy efficiency on the occasion of the 2010 G8 summit at Muskoka
  - Established infrastructure to enable easy global communication between energy regulators
  - Established a work plan with clear deliverables on the regulatory aspects of the global challenges we face
  - Launched new ICER Distinguished Scholar Awards
  - Established links with international organisations with common interests

# ICER Events

- ICER has promoted discussion, often in collaboration with other international bodies:
  - Transiting to a low carbon economy – Wilton Park, UK, June 2010
  - Regulatory issues of global significance to the gas industry – Washington, March 2011
  - Energy efficiency – Brussels, April 2011
  - Security of Supply – Florence June 2011

# The Development of ICER

- ICER is still a very young organisation
- We expect its profile to grow as it delivers reference documents and advice on which policy makers can rely
- We aim to establish ICER as a key international body which is authoritative of energy public policy issues

# Next steps

- WFER V in Quebec City, May 2012 where ICER will present its work since WFER IV
- New 3 year work plan based on conclusions of WFER V
- Development of ICER to meet the new challenges for 2012-1015
- Registration for WFER V will open in September 2011

The 5th World Forum on Energy Regulation in Quebec City | May 13-16 2012

# International Confederation of Energy Regulators

Thank you for your  
attention!
