

Update on CEER Electricity Working Group

Peter Plug
Electricity Working Group Chair

Florence Forum

24 May 2011

CEER will:

- **Continue** as a platform for Europe's energy regulators
- **Concentrate** on a limited number of issues prioritised not only by the regulators but also by stakeholders
- **Work on** smart grids and smart meters; quality of electricity supply; RES and energy efficiency; financial services; gas storage and LNG; and retail market monitoring as well as international cooperation with other regulators
