

ACER

Agency for the Cooperation  
of Energy Regulators

## ● Framework Guidelines on Electricity Grid Connection

Florence Forum  
23-24 May 2011

Tahir Kapetanovic  
ACER Electricity Network & Market TF Co-Chair

## ● Background and history

- Electricity Grid Connection FG was elaborated and finalised by ERGEG on 07 December 2010
- ACER took over on 02 March 2011
- With minor changes, the GC FG submitted by ACER to public consultation 02 March – 02 May 2011

## ● FG Highlights

- Minimum requirements for all transmission grid users:
  - » Generators
  - » Consumers
  - » DSOs
- New and (where applicable and necessary) existing grid users
- Stepwise implementation

## ● Roadmap

- Next steps, further elaboration and finalisation of the FG by the ACER Electricity Network & Market TF
- Activities:
  - » Evaluation of comments
  - » Final Framework Guideline (July 2011)
  - » Follow up on Network Codes on Grid Connection including ACER opinion ongoing until 2012
- Time plan:

Guidelines & Codes 2011-2014		2011				2012				2013				2014			
		Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4	Q1	Q2	Q3	Q4
<b>Grid Connection</b>																	
	Guidelines development																
	Public consultation																
	Guidelines finalization																
	Code development																
	ACER Opinion																
	Comitology
