Progress on Network Codes (and Guidelines)

Sven Kaiser

**29th Florence Forum – Florence
9 October 2015**

Adoption and Implementation of NC & Guideline is (still) a key priority

Preparation, comitology and process is going well
Welcome adoption of RfG and HVDC
Maintain ambition and quality

Implementation Challenge

Prioritisation within deadlines
Decision making
„Project management“

Energy Union Context

Will help to improve and complement content and process
Use available flexibility via balancing (guideline)
Generation Adequacy
System operation integration
Retail
