INOGATE – program objectives

INOGATE is an international energy co-operation program between the EU, Eastern Partnership and Central Asian Countries. The objectives are:

Converging energy markets;

- Enhancing energy security;
- Supporting sustainable energy development;
- Attracting investment towards energy projects;

INOGATE projects:

➔ ***INOGATE Technical Secretariat (ITS)***

➔ ***Energy Savings in Buildings (ESIB)***

➔ ***INOGATE status report prepared with IEA***

Energy efficiency

One key component of INOGATE project, key areas are:

- a) **IEA and ITS** involved in preparing country energy analyses; country peer review missions taking place in 2014;
- b) **Policy and regulatory support to partner countries, on demand;**
- c) Development of **RES maps** for Eastern Partnership countries to support investment in renewable energy;
- d) **Capacity building** activities;
- e) Development of **Sustainable Energy Centres in Armenia, Moldova, Ukraine;**
- f) Study on **gas losses** methodologies developed for partner countries;

Ad hoc expert facility (AHEF) in sustainable energy

PROGRAMME FUNDED BY THE EU

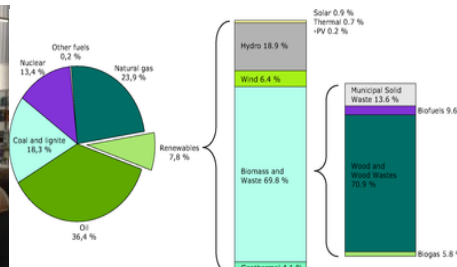

Conducive environment/policy making

- **INOGATE Local information events** bringing together energy stakeholders and addressing energy policy topics based on demand and priorities of hosting parties;
- **Energy Statistics Action Plans (ESAPs)** – Technical assistance missions to all Eastern Partnership countries; creation of regional **Energy Statistics Network (ESN)** for exchange of best practise;
- **Electricity tariff study** just finalized;
- **Individual country road maps and action plans** for harmonization of energy standards for Armenia, Azerbaijan, Georgia, Moldova;
