

# ACER

 Agency for the Cooperation  
of Energy Regulators

## **Implementing the CACM Target Models**

Progress Review of the ERI process

***Christophe Gence-Creux***

Head of the Electricity Department, ACER

**22<sup>nd</sup> Florence Forum**

**22-23 May 2012**

## Two recent ACER publications

- 1<sup>st</sup> ACER Regional Initiatives Status Review [Report](#) 2011
- 1<sup>st</sup> ACER Electricity Regional Initiatives Quarterly [Report](#)

- ACER welcomes the progress made in the NWE/PCR market coupling project and highlights the importance to deliver a *reliable* solution *on time*
  - Increased level of *transparency* from NWE/PCR partners will be a key factor to facilitate involvement and integration of other regions and maintain stakeholders' support and *confidence* in this parallel and voluntary-based process
  
- ACER invites non-NWE regions to prepare themselves for the forthcoming extensions, in particular regarding the pre- and post-coupling arrangements
  - An update of progress in other regions will be prepared for the next Florence Forum
  
- ACER welcomes the joint declaration of the CEE NRAs and invites TSOs from CWE and CEE regions to ensure *compatibility* of CEE and CWE flow-based method with a common NWE+CEE Market Coupling to be implemented by end 2013
  
- ACER urges PXs, in close coordination with TSOs, to come up before end of June with a structured project plan for Intraday

# Thank you for your attention!
