

EASEE-gas.....from producers to end-users....

- ➡ EASEE-gas is a not-for-profit association
- ➡ Main purpose is to develop and promote common business practices (CBPs) to simplify and streamline the business processes in gas industry
- ➡ Supported by the European Commission and the NRAs.

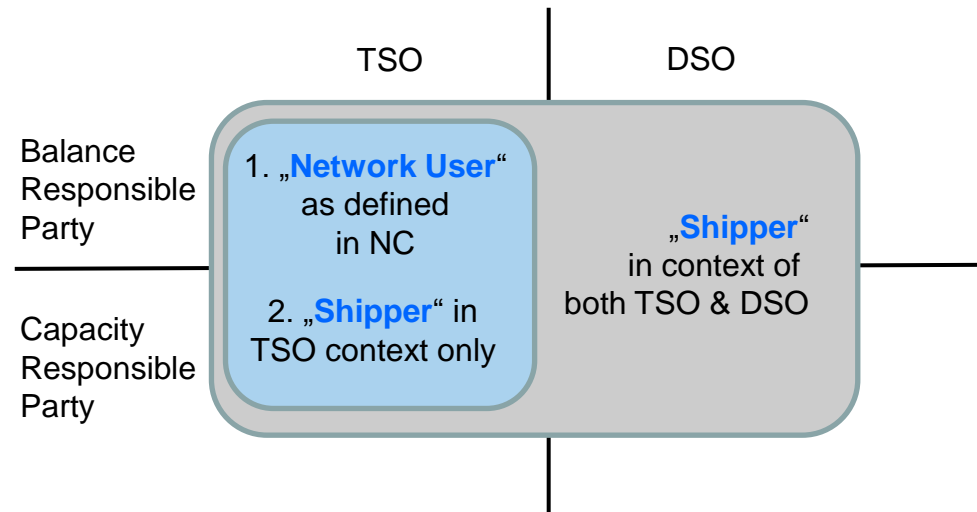

Role Model for Gas

Why a role model?

- ➔ Provide an overview of the common interactions within the gas market and responsibilities of the market participants
- ➔ Provide coherent terminology between regulatory definitions and commonly used gas market terms

Design premises

- ➔ Fewer roles means better overview (as many as necessary but as few as possible)
- ➔ Parties can acquire several roles depending on the business they are conducting in the gas market

Achievements & next steps

Achievements

- ➔ First draft of the document (**available on MF website**)
- ➔ Consulted within EASEE-gas (ExCom, Working Groups, Members)
- ➔ Presented at the annual Meeting of Members
- ➔ Public Consultation as a Workshop (12.5.2016)
- ➔ Adoption of the document based on the received comments
- ➔ Approval by EASEE-gas ExCom (14.9.16)

Next Steps

- ➔ Gather comments and ideas after the Madrid Forum
- ➔ Adoption based on the received comments after the Madrid Forum '16
