

Vincenzo Cavicchia

Chairman EURELECTRIC SG Gas

Gas Balancing

EURELECTRIC Preliminary position

**Xth Madrid Forum,
15-16 September 2005**

Main comments

- **Welcome the work of ERGEG and agree overall with the changes made**
- **Sufficient harmonisation of gas balancing regimes between Member States needed**
- **Timely availability of system information important**
- **Hourly balancing can create barriers to the development of competition**
- **Linepack is a tool to be used by TSOs rather than individual shippers**

**Thank you
for your attention!**
