EFET would remind the Forum about one issue;

⇒ **clause 1.3 of the GGPSSO**, states that:

“In the case of a SSO being part of a vertically integrated company, the SSO should draw up a document setting out all the terms and conditions relating to storage use by the affiliate company to be made available to the relevant national regulatory authority upon request by 1 September 2005.”

.../ continued

⇒ **Conclusion 18 of Madrid Forum 11** asked that:

“relevant national authorities should analyse the arrangements between SSOs and affiliated or integrated supply businesses to ensure that these arrangements are fully consistent with fair and non-discriminatory access to storage by third parties”

⇒ **EFET asks what progress has been made on this issue to ensure that there can be non-discriminatory access to storage.**
