Gas Regional Initiatives

Unique opportunity for rapid progress

if:

- Ambitious agenda in content and timing
- Strong involvement of the European Commission
- Political support from the Member States
- Attentive listening to the market needs

Gas Regional Initiatives

- **European coherence: convergence** of regional markets towards a single EU market is key.
- **Quick wins need to be defined.** Make rapid progress on some of the key issues (building blocks for further development):
 - Compliance with existing Directive/ Regulation and softlaw
 - Transparency
 - Harmonised cross-border rules and procedures
 - One stop-shop
 - Optimised use of existing capacities and investment in new ones
