

Draft explanatory note on transparency

Vincenzo Cavicchia
Chairman of EURELECTRIC WG Gas

XIIth Madrid Forum, 20-21 February 2007

Draft explanatory note on transparency

- Transparency crucial for efficient functioning and trust in wholesale markets.
- Note welcomed. **Urgent need for improved transparency.**
- Ensure better compliance with Regulation, GGPSSOs & balancing guidelines.
- Harmonisation of all data concerning cross-border exchanges is of crucial importance.

Draft explanatory note on transparency

- All data to be published on one website accessible to all, provided in English and regularly updated.
- Daily logs of aggregated flows and/ or historical data of booked and actually used capacity help estimate the probability of capacity interruption. Should be published.
- Confidentiality: all data should always be published for all entry & exit zones.
 - Non publication should be limited (actual flows or daily available capacity at exit points that serve one single customer).
