"Internal Market II: Wholesale markets; Electricity & Gas"

Florence forum
5-6 December 2011

Directorate-General
for Energy

Items without a time-table in the three-year plan

- **Third party access**
- **Data exchange and settlement**
- **Tariffs**
- **Investment incentives of TSOs**
- **Incentives for TSOs to increase cross-border capacity**
- **Energy efficiency on networks**
- **Grid connection procedures**
- **HVDC connection**

Directorate-General
for Energy

2

Third party access, possible items

- Procedures
- Data exchange and settlement
- Firmness, refusal, compensation
- Priority access
- Transparency
- Tariffs •

Tariffs, possible items

- Tariff structures
- Tariff levels
- Tariffs at different voltage levels
- Locational signals
- Incentives for TSOs •

Investment incentives for TSOs, possible items

- **Rate of Return**
- **Obligations to invest**
- **Reward for timely delivery**
- **Performance based incentives**
- **Incentives for TSOs to increase cross-border capacity**

Grid connection procedures, possible items

- **Obligation to connect**
- **Connection procedure**
- **Exchange of information**
- **Priorities**
- **Who pays the connection costs?**
Deep or shallow?
- **Voltage levels covered?**

Conclusions

- In 2013 – 2014 the main emphasis is on the adoption and implementation of the rules necessary for implementing the target model.
- With the infrastructure package, the investment incentive related items should be seriously considered.
- The European Commission will consult on priorities in January 2012.

Thank you for your attention
