

Project of common interest:

4.8.8

COUNTRIES INVOLVED

Lithuania (LT)

PROJECT PROMOTERS

LITGRID AB (LT)

BASIC TECHNICAL DATA

Voltage: 330 kV

LOCATION

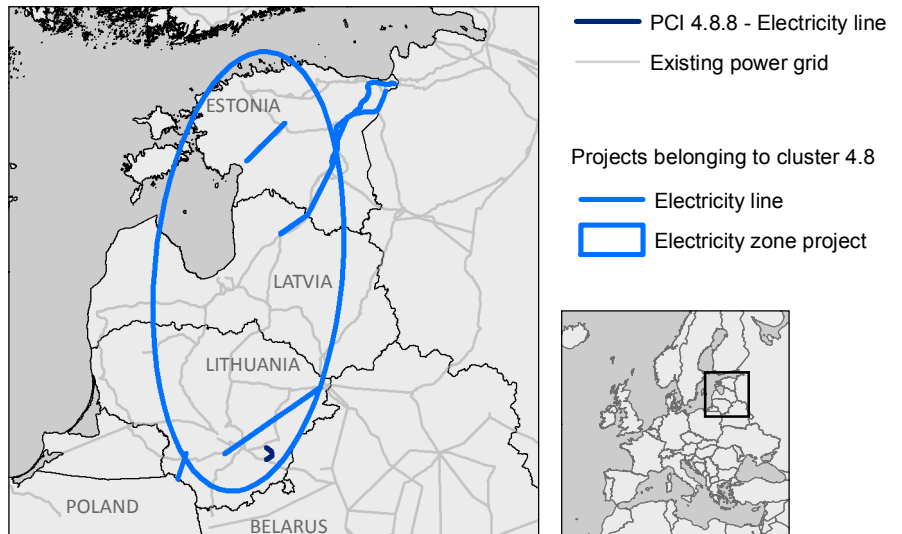

Vilnius to Neris (LT)

COMMISSIONING DATE

2024

Electricity interconnection

Baltic Energy Market Interconnection Plan in electricity

Source: PLATTS, GISCO, European Commission

Definition

4.8.8 - Internal line between Vilnius and Neris (LT)

Cluster

PCI 4.8.8 - belonging to cluster 4.8: Cluster Estonia — Latvia and internal reinforcements in Lithuania

Type of technology employed

New single circuit 330kV OHL (943 MVA, 62,5 km length). The investment implementation time depends on the project "Baltic synchronization".

Implementation status

Planning
