

ACER

 Agency for the Cooperation
of Energy Regulators

EU Infrastructure

Geert Moelker

Vice Chair ACER Electricity Working Group

Co-chair ACER Infrastructure Taskforce

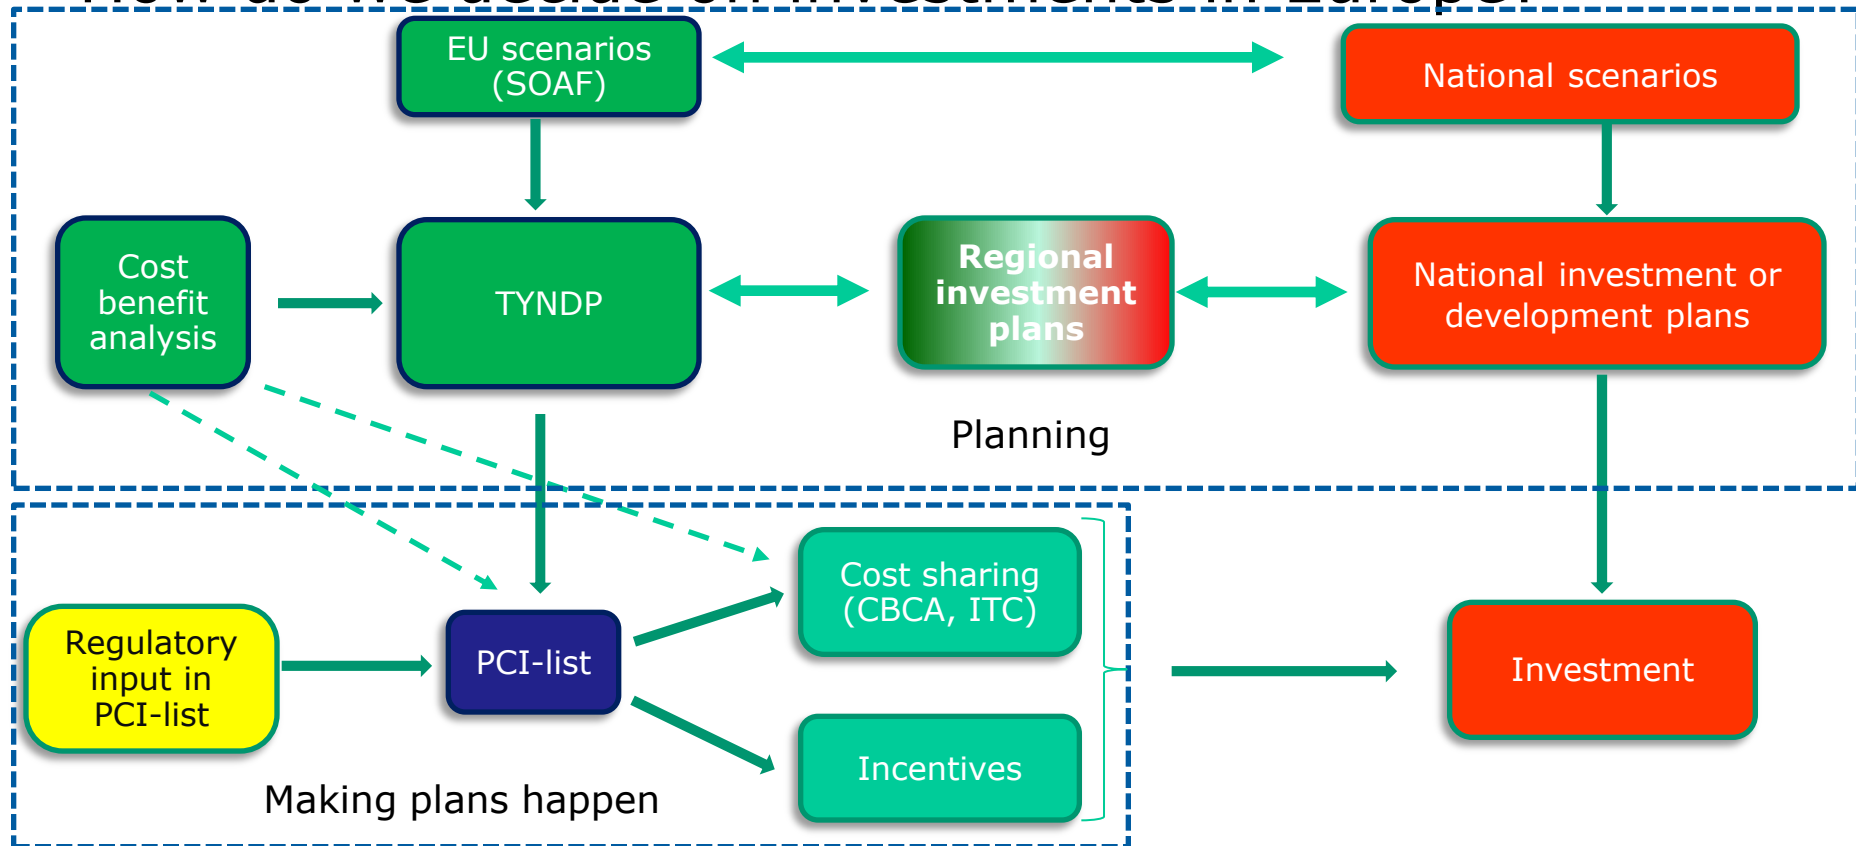

Head of Unit, Authority for Consumers and Markets, NL

24th Electricity Regulatory Forum
LJUBLJANA
15-16 May 2013

Goal for EU electricity infrastructure

- Create a framework to identify necessary investments needs and to select adequate investments for the EU market, including security of supply and sustainability
- Facilitate TSOs and third parties to implement them efficiently

How do we decide on investments in Europe?

Clarification for colour scheme

via Reg. group

Decision by
NRA's and Acer.

Done by TSO's.
NRA's opinion
needed

ACER and NRAs: Recent work

- Opinion on TYNDP 2010 + 2012
 - *Equal treatment of projects (TSO vs. third party), wider span across scenarios, development of the clustering methodology, identification of target capacities at borders*
- NRA Informal advice on PCI's
 - Assessment of cross-border relevance, project by project
- ACER opinion on CBA methodology
 - Further monetisation and quantification needed and possible
- Evaluation of ITC mechanism
 - Current mechanism (LRAIC) has limitations. Advice - focus on cross border cost allocation

Focal points for next year

- CBA in TYNDP 2014 and PCI selection
 - Advice on PCI list
 - Cost sharing of
(of XB investments)
 - New ITC mechanism
 - Investment incentives
- Timing
 - Data quality
 - Data availability
 - Close
Cooperation
