# TYNDP 2014 – Process overview

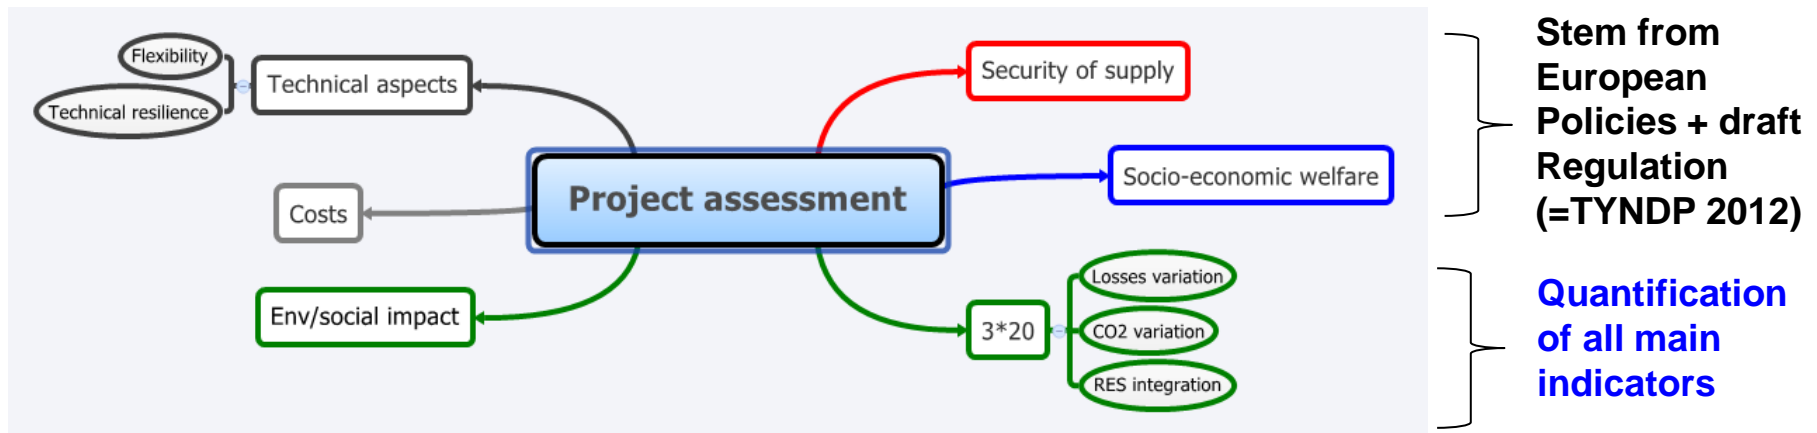

# ENTSO-E open to 3<sup>rd</sup> party projects inclusion in the TYNDP

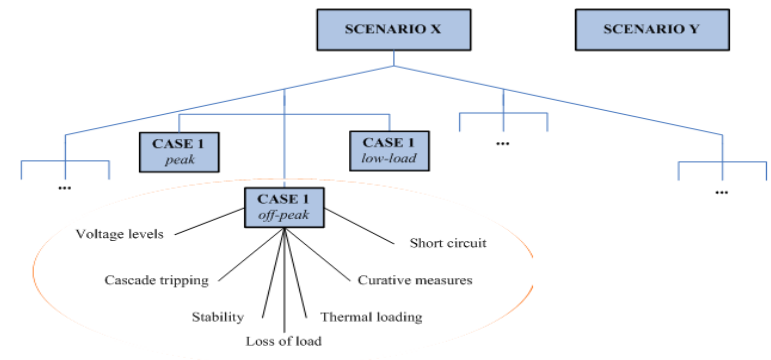

- ENTSO-E released its new Procedure on inclusion of the third party projects in the 2014 version of the TYNDP in January 2013
  - Not all the promoters of the PCI projects submitted their project for the TYNDP
    - As of the 2<sup>nd</sup> union PCI list - all the PCIs should be part of the previous TYNDP( for 2015 -> TYNDP 2014)
  - The procedure has more relaxed legal criteria which were consulted with the EC, ACER and the stakeholders ( 20 November workshop)
- ENTSO-E TYNDP must include, according to EC 347/2013 Regulation, the PCI storage projects

# CBA Project assessment

## ✓ Framework for assessment

- Analysis with and without the project assessed with all projects in (TOOT)
- Multi-scenarios, multi-cases
- Project = investments clustered according to CBA
- Annexes on the assessment of storage

Thank you very much
