

Review of progress towards the 2020 energy

INFORMATION ABOUT YOU

Are you responding to this questionnaire on behalf of/as:

Please enter your name or the name of your company/organisation:

Please indicate your principal country or countries of residence or activity:

How would you prefer your contribution to be published on the Commission website, if at all?

A. Energy efficiency

1. Do you think the right approach in addressing the shortfall is:

1.a.1. How should these target(s) be expressed?

1.a.2. At what level should they apply?

1.a.3. Should they be:

Further comments on targets

B. Energy efficiency

2. Do you think that further policy measures are needed at EU level to foster energy efficiency in buildings?

Please give details.

3. Do you think that further policy measures are needed at EU level to foster energy efficiency in industry?

Please give details.

4. Do you think that further policy measures are needed at EU level to foster energy efficiency in transport?

Please give details.

5. Do you think that further policy measures are needed at EU level to foster energy efficiency in electrical equipment?

Please give details.

6. Do you think that further policy measures are needed at EU level to foster energy efficiency in generation and distribution?

Please give details.

7. Do you think that further financial mechanisms and instruments are needed at EU level to mobilise energy efficiency investments?

Please give details.

8. Do you think that further measures are needed to build the capacity of actors in the energy efficiency sector?

9. What are the most promising technology solutions that can help deliver energy savings in the 2020 and 2030 time horizon? How can their development and uptake be supported at EU level?

10. Further comments

Please give details.

gy efficiency objective and a 2030 energy

Public Authority

Germany

Anonymously (I consent to publication of all information in my contribution and I declare that none of it is under copyright restrictions that prevent publication)

cy targets and measures

a) To define energy efficiency target(s)

In terms of energy intensity improvements of the economy and economic sectors

EU

Indicative

- at EU level should be defined different targets for different branches

ciency sectors

Yes

- more measures are needed to reconstruct old buildings energetically

Yes

- support / funding of investments in energy efficient plants

No

- will be regulated by itself via increasing prices for fuels

No

- a high level is already reached

Yes

- energy generation plants with a high degree of efficiency should be funded

Yes

see topic 3

Yes

- biogas plants, e-mobility, CHPPs

- Support or funding for consulting networks for SME is needed
