

## Review of progress towards the 2020 energy

### INFORMATION ABOUT

Are you responding to this questionnaire on behalf of/as:

Please enter your name or the name of your company/organisation:

Please indicate your principal country or countries of residence or activity:

How would you prefer your contribution to be published on the Commission website, if at all?

### A. Energy efficiency

1. Do you think the right approach in addressing the shortfall is: &nbsp;

1.a.1. How should these target(s) be expressed?

1.a.2. At what level should they apply?

1.a.3. Should they be:

Further comments on targets

### B. Energy efficiency

2. Do you think that further policy measures are needed at EU level to foster energy efficiency in buildings?

Please give details.

3. Do you think that further policy measures are needed at EU level to foster energy efficiency in industry? &nbsp;

Please give details.

4. Do you think that further policy measures are needed at EU level to foster energy efficiency in transport?

Please give details.

---

5. Do you think that further policy measures are needed at EU level to foster energy efficiency in electrical equipment?

---

6. Do you think that further policy measures are needed at EU level to foster energy efficiency in generation and distribution?

---

Please give details.

---

7. Do you think that further financial mechanisms and instruments are needed at EU level to mobilise energy efficiency investments?

---

Please give details.

---

8. Do you think that further measures are needed to build the capacity of actors in the energy efficiency sector?

---

9. What are the most promising technology solutions that can help deliver energy savings in the 2020 and 2030 time horizon? How can their development and uptake be supported at EU level?

---

10. Further comments

---

Please give details.

---

## Energy efficiency objective and a 2030 energy

THE RESPONDENTS
Public Authority
Spain
Anonymously (I consent to publication of all information in my contribution and I declare that none of it is under copyright restrictions that prevent publication)

Energy targets and measures
a) To define energy efficiency target(s)
As a hybrid of the two represents a better benchmark upon which to frame a 2030 objective
EU
No opinion

Energy efficiency sectors
Yes
-Financial aid programme for energy saving in buildings - New regulatory instruments for new buildings - Compulsory energy efficiency level for new buildings
Yes
- Financial aid programme for energy saving in industry - Compulsory energy audits - Sectorial recognition to more efficient industries
Yes

- to foster the development of the electric vehicle - fiscal incentives to more efficient freight transport - fiscal incentives to more efficient cars at OEM level - fuel cell batteries

No opinion

Yes

Smart Grid at a european level

Yes

Fiscal incentives to those companies that invest in: - energy efficiency infrastructures - More energy saving technologies (R+D)

Yes

- Fuel cells - Electric vehicles - Smart Grid - Making the most of the HORIZONTE 2020 objectives within these technologies
