

**Notification on the annual reporting regarding the Energy efficiency Directive, art. 24(1)**

Date

The Danish Energy Agency hereby notifies the annual reporting as laid down in article 24(1) in the Directive 2012/27/EU of the European Parliament and of the Council of 25 October 2012 on energy efficiency. The reporting refers to the progress achieved towards the national energy efficiency targets, in accordance with Part 1 of Annex XIV.

With regard to article 5, Denmark has chosen the alternative approach. Number 42 in the report template regarding renovation of public buildings is therefore not applicable. As for number 43, Denmark submits the energy savings for relevant buildings owned and used by the state in 2018 (43-11) and the total effect of energy savings for the period 2014-2018 (43-12). In addition to this, the Commission has requested data from 2019. However, the ministries have not yet received data on energy consumption for 2019 from the utility companies. This data will be available 1 June 2020 at the earliest.

Best regards,

Stig Uffe Pedersen  
Deputy Director General

Danish Energy Agency  
Amaliegade 44  
DK-1256 Copenhagen K
