'Smart finance for smart buildings' initiative

More effective use of public funds

Attracting private finance through financial instruments and innovative business models

Project development assistance, advisory support tools and aggregation of small-scale projects

Supporting the project pipeline at EU and local level

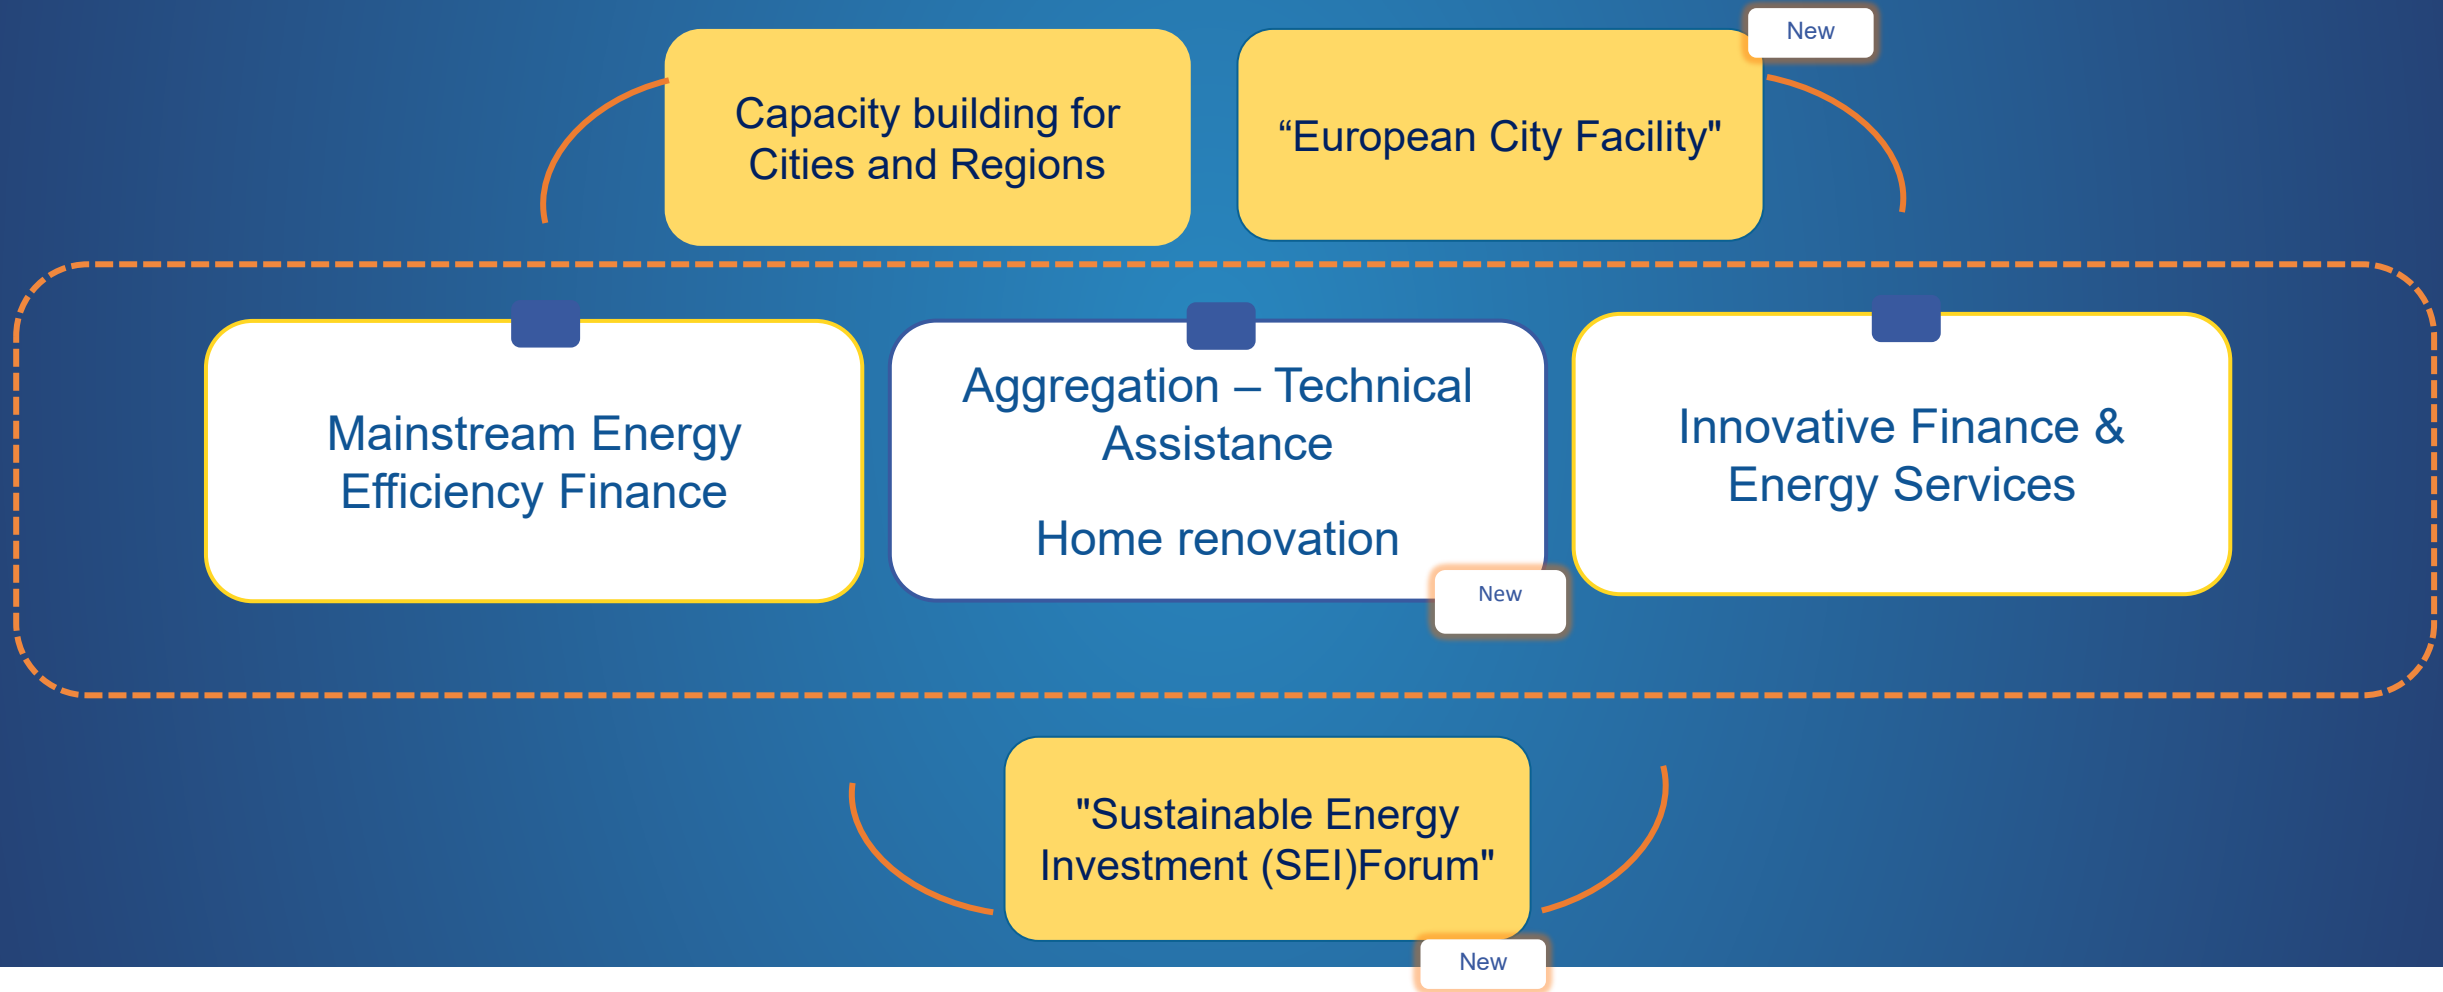

De-risking the perception of energy efficiency investments

Understanding the real risks and benefits of EE investments

H2020 sustainable (energy) finance

Next generation with the LIFE 'Clean Energy Transition Programme' (2021-2027)

- Continuation of market uptake actions
- Mission: creating market & regulatory enabling conditions for the clean energy transition
- (Radical) market transformation of the fundamentals will be needed to meet targets
- 2 Multi-Annual Work Programmes: 2021 – 2024 and 2025-2027
 - MAWP 2021-2024 currently under development

(Wider) Support for the energy transition (2021-2027) (*non-exhaustif*)

- Direct financing
 - Cohesion funds – Policy Objective 2: “a greener, low-carbon Europe”.
 - Connecting Europe Facility (CEF)
- Reducing investment risks and supporting investment development:
 - InvestEU – “Sustainable Infrastructure window”.
 - ELENA – InvestEU Advisory Hub
- Support for policy implementation and capacity building on energy transition
 - LIFE – sub-programme "Clean Energy Transition" (LIFE) (+/- €1bn)
- Support for R&I and technological development
 - Horizon Europe – including Climate, Energy and Mobility Cluster
