

Article 24 (1) and Annex XIV Energy Efficiency Directive 2012/27/EU

Please, fill in the green fields (the grey ones are strong recommended, but voluntary). It can be chosen if Eurostat data or data based on national statistics is provided. Please, fill in [Table A](#) if data from [Eurostat](#) is reported. In case, the data is based on [national statistics](#), please, fill in [Table B](#) and provide definitions.

Annual Report	2017
Reporting year	2015
Member State	CYPRUS

Additional requirements Article 24 (1), Annex XIV, Part 1 (a) Energy Efficiency Directive

In sectors where energy consumption remains stable or is growing, Member States shall analyse the reasons for it and attach their appraisal to the estimates.

Please, insert explanations or provide an extra/additional document:

34	Industry	
35	Transport	The final energy consumption in the Transport Sector in 2015 (867.4 Ktoe) increased by 2.8% (24.5 Ktoe) in comparison with 2014(842.9 Ktoe). According to the Transport Statistics Report issued by Statistical Service of Cyprus in December 2016, the number of vehicles of all types and categories on the register of the Road Transport Department at the end of 2015 totalled 781.843 compared to 770.430 at the end of 2014. Therefore at the end of 2015 the number of vehicles increased by 11.413. In addition, according to the Energy Statistics of 2015, in 2015 the average Retail Market Prices of Motor Gasoline (Unleaded 98, Unleaded 95 and Gasoil Low Sulphur) decreased by 11.1% (Unleaded 98), 12.2% (Unleaded 95) and 13.7% (Gasoil Low Sulphur) respectively in comparison to 2014. Therefore, the combination of the increase of the total country's vehicle stock and the decrease of the Average Retail Market Prices of Motor Gasoline is the main reason of the increase of the final consumption in the transport sector in 2015.
36	Households	The final energy consumption in the Residential Sector in 2015 (317.1 Ktoe) increased by 8.6% (27.4 Ktoe) in comparison with 2014 (289.7 Ktoe). The increase in the final energy consumption is mainly due to: 1) in the climatic variations, 2) in the decrease of the average Retail Market Price of electricity and petroleum products used in that sector (LPG and Gasoil) by 21.5% (electricity), 15.4% (LPG) and 18% (Gasoil) respectively in comparison to 2014.
37	Services	The final energy consumption in the Services Sector in 2015 (214 Ktoe) increased by 5.2% (11.2 Ktoe) in comparison with 2014 (202.8 Ktoe). The increase in the final energy consumption is mainly due to: 1) in the increase in tourist arrivals (218,000 more tourists visited Cyprus in 2015 in comparison with 2014), 2) in the climatic variations, 3) in the decrease of the average Retail Market Price of electricity and petroleum products used in that sector (LPG, Kerosene and Gasoil) by 22.1% (electricity), 15.4% (LPG), 19.5% (Kerosene) and 18% (Gasoil) respectively in comparison to 2014.
38	Agriculture (voluntary)	The final energy consumption in the Agriculture Sector in 2015 (41.7 Ktoe) increased by 11% (4.6 Ktoe) in comparison with 2014 (37.1 Ktoe). The increase in the final energy consumption is probably due to climatic variations, or/and in the increase of the production or/and in the decrease of Retail Market Price of Gasoil for Agriculture use in 2015 by 22% in comparison to 2014.

Additional requirements Article 24 (1), Annex XIV, Part 1 (b) Energy Efficiency Directive

Updates on major legislative and non-legislative measures implemented in the previous year which contribute towards the overall national energy efficiency targets for 2020:

40-1	Administrative	non-legislative	A support scheme was enacted for the energy renovation of existing houses and existing buildings owned or used by small and medium enterprises utilizing European and Structural Funds 2014-2020. The support scheme provides direct grants for the application of thermal insulation and other energy efficiency measures in buildings that will upgrade their energy class on the building's energy performance certificate to at least B or achieve energy saving of at least 40% or upgrade the building to the nearly zero energy level.	
40-2	Administrative	non-legislative	The "Technical Guide for Nearly Zero Energy Buildings" was prepared in order to assist buildings professionals in designing new buildings and renovating existing buildings to Nearly Zero Energy Buildings.	
40-3	Administrative	non-legislative	Information was provided to all energy consumers on energy efficiency related issues.	
40-4	Administrative	non-legislative	MECIT has approved educational training programs for energy auditors and provided licenses to energy auditors and energy services provider.	

40-5	Major non-legislative in the previous year	Administrative	non-legislative	Energy poverty, vulnerable consumers' categories and measures to protect them were defined in a Ministerial Decree which entered into force in 14/9/2015. The Ministerial Decree includes measures such as (a) reduced prices on electricity tariffs, (b) financial incentives for participating in a scheme for installing a the net-metering Photovoltaic system with a capacity of up to 3kW, (c) financial incentives for upgrading the energy efficiency of their houses, and (d) uninterrupted supply of electricity, during critical periods for those vulnerable consumers that continuous power supply is essential for reasons related to their healthPlease select	
40-6		Administrative	non-legislative	Support scheme "Solar Energy for All" which provides: (a) the installation of Net-metering photovoltaic systems with capacity up to 5KW connected to the grid for all consumers (residential and non-residential) and (b) the self-generation systems with capacity up to 10MW for commercial and industrial consumers.	
40-7		Administrative	non-legislative	Support scheme for the replacement of old solar domestic hot water heating systems.	
40-8		Administrative	non-legislative	The 6th annual competition for schools of secondary and technical education for projects/studies related to RES and energy saving has been held.	
40-9		Administrative	non-legislative	The Energy Service of MECIT continued the Energy Saving Officer's training program in the public sector. About 700 officers are assigned rented and government owned buildings	
40-10		Administrative	non-legislative	Ministry has organized workshops addressed mainly to architects and engineers to inform them about the technical parameters of these buildings and how to apply them in practice.	
40-11		Administrative	non-legislative	Measures of market surveillance have been implemented and enforced in order to promote more energy efficient products and to ensure the proper functioning of the market.	

Additional requirements Article 24 (1), Annex XIV, Part 1 (c) Energy Efficiency Directive

41-1	Total building floor area [m2] of the buildings with a total useful floor area over 250 m2 owned and occupied by the Member States' central government	585,502 SQUARE METERS
------	--	-----------------------

Total building floor area of the buildings with a total useful floor area over 500 m2 and as of 9 July 2015 over 250 m2 owned and occupied by the Member States' central government that, on 1 January of the year in which the report is due, did not meet the energy performance requirements referred to in Article 5(1):

41-2	Total building floor area [m2] of the buildings which did <u>not meet</u> the energy performance requirements referred to in Article 5(1) on 1 January of the year in which the report is due	582,282 SQUARE METERS
------	---	-----------------------

Additional requirements Article 24 (1), Annex XIV, Part 1 (d) Energy Efficiency Directive

Total building floor area of heated and/or cooled buildings owned and occupied by the Member States' central government that was renovated in the previous year referred to in Article 5(1) or the amount of energy savings in eligible buildings owned and occupied by their central government as referred to in Article 5(6):

42-1	Total building floor area [m2] of buildings <u>renovated</u> in the previous year as referred to in Article 5(6)	-
42-2	Amount of energy savings [ktoe] <u>achieved</u> in the previous year in eligible buildings owned and occupied by their central government as referred to in Article 5(6)	3.035GWh

Additional requirements Article 24 (1), Annex XIV, Part 1 (e) Energy Efficiency Directive

Energy savings achieved through the national energy efficiency obligation schemes referred to in Article 7(1) or the alternative measures adopted in application of Article 7(9):

	Policy measure (notified)	Savings <u>achieved</u> [ktoe] in 2015 (n-2)	Total <u>expected</u> savings [ktoe] by 2020 (voluntary)
