

Meetings of TEN-E Regional Groups on electricity and offshore Draft Agenda

13 March 2023

09:30 – 11:30 CET – common meeting for all the Regional groups

11:30 – 11:45 Coffee Break

11:45 – 12:45 CET – BEMIP electricity and BEMIP offshore

12:45 – 13:45 CET Lunch

13:45 – 15:45 CET - NSI West electricity, NSOG, SW offshore and Atlantic offshore grids

15:45– 17:45 CET - NSI East electricity and SE offshore

Online meeting: being consecutive meetings the same weblink will be used for all the Regional Groups

[09:30 – 11:30 CET] – Common meeting for all the Regional groups

- Welcome and general introduction
- PCI/PMI process 2022-2023 – general update
- Identification of system needs per region
[updated methodology and validation of the methodology for the identification of system needs that can be addressed through infrastructure]
- Permit granting process for the PCI/PMI projects
[inform the Member States on the legal obligation related to permitting as regards article 7, paragraphs 5, 6 and 7; information on the National Competent Authorities Platform discussions and outcomes; and open discussions in the meeting on the topic]
- Next steps

[11:45 – 12:45 CET] – Baltic Energy Market Interconnection Plan in electricity (BEMIP Electricity) and Baltic Energy Market Interconnection Plan offshore grids (BEMIP offshore)

- **Regional needs identification and validation**

[In this part of the meeting we will:

- identify which market, security of supply and sustainability needs are having a significant impact on the countries in the TEN-E priority corridor
- consider which of the needs identified in the previous step are to be included in the agreed list of needs for the TEN-E priority corridor (based on impact and relevance for each region)
- agree the list of system needs that can be addressed by infrastructure in the TEN-E priority corridor.]

- **Conclusions**

- **Next steps**

13:45 – 15:45 CET – North-South electricity interconnections in Western Europe (NSI West Electricity and Northern Seas offshore grids (NSOG) and South and West offshore grids (SW offshore) and Atlantic offshore grids

- **Regional needs identification and validation**

[In this part of the meeting we will:

- identify which market, security of supply and sustainability needs are having a significant impact on the countries in the TEN-E priority corridor
- consider which of the needs identified in the previous step are to be included in the agreed list of needs for the TEN-E priority corridor (based on impact and relevance for each region)

- agree the list of system needs that can be addressed by infrastructure in the TEN-E priority corridor.]
- **Conclusions**
- **Next steps**

15:45 – 17:45 CET – North-South electricity interconnections in Central Eastern and South Eastern Europe (NSI East Electricity) and South and East offshore grids (SE offshore):

- **Regional needs identification and validation**
[In this part of the meeting we will:
 - identify which market, security of supply and sustainability needs are having a significant impact on the countries in the TEN-E priority corridor
 - consider which of the needs identified in the previous step are to be included in the agreed list of needs for the TEN-E priority corridor (based on impact and relevance for each region)
 - agree the list of system needs that can be addressed by infrastructure in the TEN-E priority corridor.]
- **Conclusions**
- **Next steps**
