ESTABLISHED PRIORITIES												
Framework Guideline (FG) on capacity allocation methodologies (CAM)			Q1/11	Q3/11								
Network code on CAM (1)					Q3/11*	Q1/11	Q1/12	Q2/12	Q3/12	Q1/13	Q3/13	nov-15
Congestion Management Procedure (IIA)										Q1/12	Q3/12	oct-13
Framework Guideline on balancing rules			Q1/11	Q3/11								
Network code on balancing					Q4/11	Q4/11	Q4/12	Q1/13	Q1/13	Q3/13	Q1/14	oct-15
Framework Guideline on harmonisation of transmission tariff structures	Q1/11	Q2/12	Q2/12	Q4/13								
Network code on tariffs					Q1/14	Q1/14	Q4/14	Q1/15		Q1/15	Q4/15	
Incremental capacity*	Q1/13	Q3/13	Q3/13	Q4/13		Q1/14	Q4/14	Q1/15		Q1/15	Q4/15	Q3/16
Framework Guideline on interoperability rules & data exchange	Q3/11	Q4/11	Q1/12	Q3/12								
Network code on interoperability rules					Q3/12	Q3/12	Q3/13	Q4/13		Q1/14	Q3/14	
Rules for trading**	Q4/13	Q2/14	Q2/14	Q3/14								
Target model: initial model development			Q4/10	Q4/11								
Target model: review			Q1/14	Q2/14								
ENTSO-G 2011 Community-wide gas 10 year network development plan (TYNDP)						Q1/11	Q3/11					
ENTSO-G 2012 regional gas 10 year network development plan						Q1/11	Q1/12	Q1/12				
ENTSO-G 2013 Community-wide gas 10 year network development plan (TYNDP)						Q1/12	Q1/13	Q1 /13				
ENTSO-G 2014 regional gas 10 year network development plan						Q1/13	Q1/14	Q1/14				
ENTSO-G 2015 Community-wide gas 10 year network development plan (TYNDP)						Q1/14	Q1/15	Q1/15				
OTHER PRIORITIES												
Security and reliability rules												
Network connection rules												
Settlement rules												
Operational procedures in an emergency												
Energy efficiency regarding gas networks												
Transparency rules (follow-up to current comitology guideline)

Footnotes:

* Incremental Capacity involves the amendment of the CAM NC; Scoping phase up until "Blueprint paper" is conducted by CEER

** Rules for trading: the scoping phase should confirm the need or not for FG/NC
