

## LSOs and REMIT

Madrid Forum XXIV, 16 October 2013

- REMIT's provisions relating to Data Collection (art. 8) and Publication of Inside Information (art. 4) apply only to market participants
- Although they consider not to be market participants, GLE members are willing to cooperate with DG ENER and ACER
- At the request of DG ENER in the context of REMIT, GLE agreed in principle to provide ACER, if required and on a voluntary basis, with daily inventories and send-out per LNG terminal
- End of July 2013 DG ENER informed GLE, still in the context of REMIT, about a new set of data to be provided by LSOs to ACER

- Almost all LSOs already report to the NRAs or publish most of the information requested:
  - ✓ In order to avoid double reporting, GLE proposes that ACER uses this available information and collects them from existing sources, such as NRAs, where possible
  - ✓ LNG terminal operators who do not provide this data to their NRA yet, will consider similar relevant information is provided to ACER on a voluntary basis
- GLE is in close contact with DG ENER and ACER
- Anyway implementing acts should not create any new legal obligation

**Gas Naturally**

*GN is a campaign to showcase the essential role of natural gas in the forthcoming energy revolution. The mitigation of climate change has become one of the most important issues for the gas industry.*

**Thank you  
for your kind attention.**
