

Draft lists of PCIs

Jean-Claude Depail, GLE President

Madrid Forum XXIV, 15 October 2013

Draft lists of gas PCIs

- **GIE would like to reiterate that there is necessity of a market-based selection process, except in very few cases of non-economic investments with positive externalities**
- **GIE asks for more transparency in the next round of PCIs selection**

Draft lists of gas PCIs

GIE would also like to reiterate its position on:

- Benefits of the Infrastructure Package: still to be confirmed
- Unsatisfying consultation scheme: weak involvement of operators
- Specificities for LNG and storages not properly reflected: risk of distorting competition

In the next round of PCIs selection: need for more involvement of operators and a greater account taken of the specificities of the different gas infrastructures

Thank you for your attention.
