

Energy Poverty in the Clean Energy Package

Anna Colucci
DG ENER B3 Retail Markets
Brussels, 04.06.2018

Consumers: three dimensions

- **Empowerment:** *active consumers, demand response, Local Energy Communities*
- **Better information:** *on billing, switching suppliers, price comparison tools*
- **Protection:** *energy poverty and data protection*

Energy Poverty Observatory

Launched on January 29, 2018 and
operational

- Partnership of 6 organizations (University of Manchester, Ecofys, European Policy Centre, Intrasoft International, National Energy Action, Wuppertal Institute)
- 7 subcontracting bodies, International Advisory Board
~100 people – important pool of expertise

Energy Poverty Observatory

- **Improve transparency** by bringing together the disparate sources of data and knowledge that exist across the EU
- **Develop** a user-friendly and open-access **information resource**
- **Enable networking** and facilitate knowledge sharing and co-production among Member States and relevant stakeholders
- **Disseminate information** and organise outreach work
- **Provide technical assistance** to the widest possible range of interested parties, based on a holistic approach.

Where do we go from here

- *Clean Energy Package expected to become law in 2018*
- *The Energy Poverty Observatory at www.energypoverty.eu is now open and moves on to the outreach and assistance phase*

European
Commission

**Thank you for your
attention**
