

SWEDEN

Date of data collection or reference period	Consumer prices on Monday
Reporting body	Swedish Energy Agency
Reporting price discounts on motor fuels	No
Market coverage and data sources	The categories of retailers are OKQ8 AB, PREEM AB, ST1 Energy AB och Statoil Retail & Fuel Sverige AB. This sample size represents approx. 90 % of Euro Super 95, 90 % of Automotive gasoil, 90 % of heating oil and 90 % of Residual FO for the total consumption.
Price averages	The price is weighted for EURO-super 95 with 0.15 kr (0.017 Euro) lower price per liter for unmanned station, representing about 25% of total sales.  The price is weighted for Automotive gasoil with 0.17 kr (0.019 Euro) lower price per liter for unmanned station, representing about 20% of total sales.  Weighted average for heating oil and Residual FO.
Biofuels	The percentage of ethanol for EURO-super 95 is 5 volumes percent and for Automotive gasoil the percentage of rapeseed methyl ester (RME) and Hydrogenated vegetable oil (HVO) is 23 volume percent. For ethanol and low-percentage blend in Euro Super 95, the companies get to deduct the energy tax. For RME and Hydrogenated vegetable oil in Automotive gasoil, the companies get to deduct the energy tax. The total tax has been re-calculating for the effective taxation.
Other indirect taxes reported	We separate the product taxes (CO2- and Energy taxes) from other indirect taxes.
